Annual Statistics
2006 - 2007

Manitoba

Preface

The Annual Statistics provides material descriptive of the population of Manitoba. It includes statistics on the operations of the Health Programs such as Healthy Child Development, Home Care, and Mental Health. The utilization of hospital, medical, chiropractic, optometric, oral surgery, Pharmacare, and long term care services by residents of the province during the fiscal year April 1, 2006 - March 31, 2007 are also included. Some material on services pertaining to 2006/2007 and earlier years are included to permit comparison of one year to another.

The Regional Health Authorities have been actively involved in planning for the health service delivery for residents in each region of Manitoba. Where possible, statistical detail is provided by regional health authority.

The tables should be read in conjunction with the notes that precede the data in each Section. As well, the footnotes to the individual tables are important for a better understanding of the data.

The Health Information Management Branch of Manitoba Health has prepared this publication. Any inquiries pertaining to this publication in general or to individual tables should be addressed to:

Population

Part 1

The **population** data in this section are based on records of residents registered with Manitoba Health on June 1, 2006.

On April 1, 1996, the Province of Manitoba converted the Health regions to Regional Health Authorities. This resulted in a shift of boundaries and a change in how the different local districts are distributed. First Nation residents are now being allocated to their municipality by postal code. Therefore, historical comparisons of regional data prior to 1996/1997 are not possible.

Mental Health and Addictions

Section 3

The **Mental Health and Addictions Branch** is responsible for provincial planning and policy development related to mental health and addiction services. Regional Health Authorities have operational responsibility for mental health services including planning, delivery and ongoing management of the services.

There are several mental health and addiction services centrally provided (i.e., funded or administered) by Manitoba Health and Healthy Living. The data contained in the following tables represents only mental health and addictions programs that are centrally provided.

Selkirk Mental Health Centre

Section 4

The **Selkirk Mental Health Centre** is a provincial mental health facility mandated to provide long term mental health inpatient treatment and rehabilitation services to all residents of Manitoba whose challenging treatment and rehabilitation needs cannot be met by other services. The Centre continues to provide short term and acute inpatient mental health services to Manitoba residents of the Interlake, North Eastman, South Eastman, and Churchill Regions. The Centre also admits acute patients from other regions as required.

The Centre has a formal agreement with the government of Nunavut, to provide inpatient services to residents of Nunavut experiencing mental illness.

Patient services are available at Selkirk Mental Health Centre in four specialized treatment programs: Short Term Treatment, Psychosocial Rehabilitation, Extended Treatment and Rehabilitation; and Forensic Rehabilitation.

Hospital and Community Services

Section 1

The information contained in this section is derived from the National Discharge Abstract Database.

Tables 1 - 3 are based on the Discharge Abstracts Database (DAD) and include data for those residents of Manitoba who were separated from hospital during the period April 1, 2006 - March 31, 2007. An Abstract is completed and submitted for each separated patient by all Manitoba hospitals and by hospitals outside of Manitoba providing services to insured residents of Manitoba.

In reviewing the data in this section the following definitions will be helpful:

Acute Care Hospital - A hospital that provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries.

Rehabilitation and Chronic Care Hospital - A hospital that provides primarily for the treatment of patients requiring rehabilitation therapies and for the continuing treatment of patients with long-term illness or with little or no potential for recovery and who require equipment and professional supervision not usually provided in a personal care home.

Separations - The discharge or death of an in-patient from a hospital. The frequency counts show individual cases separated, not unique persons separated.

.

Separated Days - The accumulated in-patient days since admission of adults, children, and newborns, who were discharged from the hospital or who died in the hospital during the reporting year, including those admitted in previous years.

Length of Stay - Separated days per separation.

Rate Per 1,000 Population - Calculation is based on Table 1 in the Population Section, unless otherwise stated.

Diagnostic Classification/Category - Based on International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CA).

Section 2

The information contained in this section that relates to **medical, chiropractic, optometric, and oral surgery servic**es is based on claims submitted by physicians, chiropractors, optometrists, and oral surgeons for residents of Manitoba. Data for services which are not insured under the Manitoba Health Services Insurance Plan, whether they are for residents or non-residents, are excluded from this section.

Some of the tables in this section pertain to services rendered by physicians as well as other health practitioners while other tables are restricted to services provided by physicians. New for 2005/2006 are Registered Nurse – Extended Practice, who are submitting shadow billing for statistical purposes.

A number of tables show physician counts for those receiving in excess of $50,000 from Manitoba Health, by type of practice.

Table 2A (Continued)
Average and Median Payments ($50,000 Gross) (1) to Physicians by Specialty of Practice - 2005/2006 and 2006/2007

NOTE: Specialty of Practice is according to Manitoba Health records as at March 31 each year.

(1) Amounts represent gross payments by Manitoba Health from which the physicians must pay overhead costs. Payments are made directly to health practitioners, as well as payments to patients where the health practitioner has "opted-out" of the Plan. The Average Payments exclude remuneration from the University of Manitoba to geographic full-time clinical teaching staff. Additional funding of $2.0 million for 2005/2006 and $2.0 million for 2006/2007 for Continuing Medical Education and $2.0 million for maternal/paternal leave for 2005/2006 and $1.0 million for 2006/2007 was excluded. For Radiology, the Average Payment represents professional services only and includes salary and contract payments made through hospitals. All other blocs of practice include salary and contract payment made by the RHA's. Payments made for laboratory services to registered facilities are excluded, as it is not possible to separate the technical and professional components. Payments made to physicians for the Professional Liability Insurance Plan (PLIF) are also excluded. The PLIF payment for 2005/2006 and 2006/2007 was $5.0 million each year.

(2) Neurosurgeons were remunerated a total of $4,306,966 in 2005/2006 and $4,561,685 in 2006/2007 as per the Neurosurgery Funding Agreement. There were 9 Neurosurgeons in 2005/2006 and 2006/2007.

(3) Prior to the recalculation of the average income, lump sum payments made to groups of radiologists providing services to various locations throughout Manitoba were allocated on a prorated basis.

(4) One pathologist is registered as an internist, but his practice is primarily as a director of a laboratory being recognized by the College of Physicians and Surgeons as a specialist in laboratory medicine.

(5) Average and median are not calculated because it is not possible to separate the technical and professional components.

(6) Includes Brandon and Winnipeg.

(7) Excludes Pathology and Neurological Surgery.

(8) Includes directors of dialysis facilities. Services may be provided by a group of practitioners, but are billed in the name of a single practitioner for administrative efficiencies.

Table 2B(1) (Continued)
Average and Median Payments {1/2 the Mean Threshold (2)} to Physicians by Specialty of Practice - 2005/2006 and 2006/2007

(1) The conditions stated in Table 2A also apply to Table 2B.

(2) Derived by computing the average income for all physicians within a bloc in the fiscal year and dividing by two. If the threshold calculated for a specialty is less than 80% of the provincial threshold ($92,236 for 2005/2006 and 100,089 for 2006/2007), the provincial threshold is substituted as the specialty threshold. One half the mean threshold allows for difference in income levels between specialties and gives a more accurate picture of the average and median incomes of full-time physicians.

(3) All physicians excluding pathologists and neurological surgery, receiving Manitoba Health payments.

(1) Refers to those who received in excess of $50,000 in the RHA during the year.

(2) Manitoba Health registered population as of June 1, 2006.

(3) Differs from the total in Table 5 as this table considers physicians with salaried income or contract arrangements from hospitals.

(4) Differs from the total in Table 2a as this table is unique doctors by RHA. Physicians are allocated to the region where they provide the majority of their service.

Provincial Drug Program

Section 4

Manitoba Health administers four distinct and separate drug benefit programs for Manitobans: Manitoba Pharmacare, Employment and Income Assistance participants, residents of personal care homes, and the Palliative Care Drug Access Program (PCDAP). It also administers a program that provides funding assistance for devices to help Manitobans with physical disabilities. Provincial Drug Programs does not include drug expenditures for hospital in-patients.

Pharmacare is a drug benefit program for any Manitoban, regardless of age, whose income is seriously affected by high prescription drug costs.

Employment and Income Assistance (EIA) covers the cost of essential drugs for its program participants only if coverage from another program or private insurance is not available.

Individuals who choose a hospital or *personal care home* for the final days of their life have their drug costs covered by the health care system.

The Palliative Care Drug Access Program provides deductible-free coverage through Manitoba Health. This program is designed for people at the end stages of their illness, when the focus of care is on comfort. By covering the cost of these eligible drugs for use in the home, a major financial burden is removed for the patient and their family.
