# Preface/Introduction

## Enabling Appropriations

Enabling Appropriations is a collection of service headings that exist to provide expenditure authority for programs that are delivered by a number of departments or other government units, where it is desirable to know the total amount allocated to the program, or where the allocation is not known at the time of printing of the estimates. These programs are not inter-related.

Funding voted under the enabling appropriations service headings is administered in two ways. Funding is allocated, as required, from enabling appropriations to departments or other government units responsible for program delivery. Approved expenditures are either charged directly to the appropriation in the delivery unit or, in some situations, directly to an enabling appropriation. Authority to make allocations from enabling appropriations to program appropriations is granted to the Minister of Finance under section 33 of *The Financial Administration Act*.

## Other Appropriations

Other Appropriations is made up of a number of service headings that are not specific to any one department. Delivery departments or other government units are granted authority to either charge approved expenditures directly to the appropriation, or to recover expenditures from the appropriation. Therefore, all expenditures are reflected against the service heading. Again, these programs are not inter-related.

A number of these programs have separate reports or are included in the annual reports of departments that manage the service heading. This report includes only those programs that are not reported elsewhere. The following table identifies all of the programs included in Enabling Appropriations and Other Appropriations and where the annual report for each program can be found.

## **PART A – OPERATING EXPENDITURE**

## **Enabling Appropriations**

### **Internal Service Adjustments**

This appropriation provides funding for various internal services adjustments as well as other costs which may result from changes in program delivery or design. This appropriation also provides for any costs related to salary or employee benefit adjustments in government departments where the amount of the increase by department was not known at the time of tabling of the estimates. Normally, expenditure authority is transferred to departments on an as required basis. As a result, actual expenditures are recorded in delivery departments.

In 2012/13, \$8.6 million in authority was transferred to various departments, leaving a balance of \$5.6 million in expenditure authority in the appropriation.

#### **26-4 Internal Service Adjustments**

<b>Actual 2012/13 \$000s</b>	<b>Estimate 2012/13 \$000s</b>	<b>Variance Over (Under) \$000s</b>	<b>Expl. No.</b>	<b>Actual 2011/12 \$000s</b>	<b>Variance Over (Under) \$000s</b>
-	5,640	(5,640)	1	-	-

1. The variance reflects lower than anticipated departmental requirements for internal service adjustments during the fiscal year in 2012/13.

## Other Appropriations

### **Allowance for Losses and Expenditures Incurred by Crown Corporations and Other Provincial Entities**

This appropriation provides funding for losses and expenditures incurred by various Crown corporations, agencies, boards and commissions, and other provincial entities which are not otherwise provided for through a department's estimates of expenditure.

**Venture Manitoba Tours Ltd.** - The province maintains a provision for potential losses related to the operation of Venture Manitoba Tours Ltd., a provincial Crown corporation, which operates the Falcon Lake Golf Course and Games Area. The provision recognizes the province's exposure on an outstanding loan guarantee issued by the province. In 2012/13, interest costs of \$5.6 were incurred for an outstanding amount repayable to the province.

**Leaf Rapids Town Properties Ltd.** - A provision of \$494.4 in recognition of the province's exposure on an outstanding loan issued by the Province to the Corporation for ongoing operations.

### **27-2 Allowance for Losses and Expenditures Incurred by Crown Corporations and Other Provincial Entities**

<b>Actual 2012/13 \$000s</b>	<b>Estimate 2012/13 \$000s</b>	<b>Variance Over (Under) \$000s</b>	<b>Expl. No.</b>	<b>Actual 2011//12 \$000s</b>	<b>Variance Over (Under) \$000s</b>

## Manitoba Floodway and East Side Road Authority

This appropriation provides grant funding to the Manitoba Floodway and East Side Road Authority for the Province's share of its operating costs. Additional information on total 2012/13 expenditures can be found in the annual reports of the Manitoba Floodway and East Side Road Authority and the Department of Infrastructure and Transportation.

### 27-3 Manitoba Floodway and East Side Road Authority

<b>Actual 2012/13 \$000s</b>	<b>Estimate 2012/13 \$000s</b>	<b>Variance Over (Under) \$000s</b>	<b>Expl. No.</b>	<b>Actual 2011/12 \$000s</b>	<b>Variance Over (Under) \$000s</b>
973	1,651	(678)	1	1,374	401

1. The variance is a result of lower than anticipated expenditures related to both operating and salaries and employee benefits.

### Five Year Expenditure Summary

<b>2008/09 \$000s</b>	<b>2009/10 \$000s</b>	<b>2010/11 \$000s</b>	<b>2011/12 \$000s</b>	<b>2012/13 \$000s</b>

## **PART B – CAPITAL INVESTMENT**

## **Internal Service Adjustments**

Similar to Part A – Operating Expenditures, Part B – Capital Investment authority for Internal Service Adjustments may be transferred to departments' capital investment appropriations. This spending authority is used by departments to purchase assets or undertake specific projects, on an as required basis. As a result, actual expenditures are recorded in delivery departments.

In 2012/13, \$19.5 million in authority was transferred to various departments, leaving a balance of \$22.1 million in capital investment authority in the appropriation.

### **B.26 General Assets**

<b>Actual 2012/13 \$000s</b>	<b>Estimate 2012/13 \$000s</b>	<b>Variance Over (Under) \$000s</b>	<b>Expl. No.</b>	<b>Actual 2011/12 \$000s</b>	<b>Variance Over (Under) \$000s</b>
-	22,114	(22,114)	1	-	-

1. The variance primarily reflects project delays related to general assets and lower than anticipated requirements for expenditure authority to undertake Information and Communication Technology Projects.
