

Environment Act Licence

Manitoba
Environment

Licence No. 2054

Issue Date June 26, 1995

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

**THE PROVINCE OF MANITOBA REPRESENTED BY THE MINISTER OF
HIGHWAYS AND TRANSPORTATION:
the "Licence"**

for the construction and operation of the Development being the upgrading of Provincial Trunk Highway #250 beginning at the junction of Provincial Road #349 in the Rural Municipality of Whitehead and proceeding in a southerly direction to the junction of Provincial Trunk Highway #2 in the Rural Municipality of Glenwood subject to the following specifications, limits, terms and conditions:

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

1. The Licencee shall construct the Development in accordance with the *Environment Act Proposal - Proposed Upgrading of Provincial Trunk Highway #250 from the Junction of PR 349 to PTH 2 in the R.M. of Whitehead and the R.M. of Glenwood*, dated January 27, 1995.
2. The Licencee shall, prior to construction, provide a copy of this Licence to all contractors and sub-contractors involved in the Development.
3. The Licencee shall, prior to construction, consult and reach an agreement with the Department of Natural Resources Regional Director, regarding a site specific wetland mitigation plan. The plan shall:
 - a) recommend replacement or mitigation for the loss of wetland areas affected by the Development; and
 - b) provide for a post development evaluation of the wetland replacement or mitigation implemented pursuant to Clause 3 (a).
4. The Licencee shall, prior to construction, consult and reach an agreement with the Department of Natural Resources Regional Director regarding the location of areas to be avoided during the nesting period of waterfowl and upland birds where suitable habitat exists.
5. The Licencee shall, prior to relocation of any wood hydro poles within wetland areas related to the Development, consult and reach an agreement with Manitoba Hydro and the Department of Natural Resources Regional Director regarding the preferred type of wood hydro pole preservative.

6. The Licencee shall, during construction, adhere to Manitoba Environment's *Temporary Asphalt Plant Siting Procedures*.
7. The Licencee shall, during construction, ensure that fuel storage and fueling areas established for the construction of the Development are located a minimum distance of 100 metres away from the high water line of any watercourse and wetland within the Development area and shall comply with the requirements of *Manitoba Regulation 97/88R* respecting *Storage and Handling of Gasoline and Associated Products*.
8. The Licencee shall, during the full term of the construction of the Development, cleanup and deposit all debris from the construction site at a Waste Disposal Ground operating under the authority of a permit pursuant to the *Manitoba Waste Disposal Ground Regulation, MR 150/91*.
9. The Licencee shall, following construction, rehabilitate borrow pits associated with the Development.
10. The Licencee shall, following construction, vegetate disturbed areas with native grasses or herbs.

REVOCATION

If in the opinion of the Director the Licencee has exceeded or is exceeding the limits, or has not complied or is not complying with the specifications, terms and conditions set out herein, the Director may revoke, temporarily or permanently, this Licence.

Larry Strachan, P. Eng.
Director
Environment Act
