AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION

UNDER THE CLEAN ENVIRONMENT ACT

Re: The Clean Environment Commission and Newman Millwork Ltd., applicant.

WHEREAS pursuant to the provisions of The Clean Environment Act, Newman Millwork Ltd., 400 DesMeurons Street, St. Boniface, Winnipeg has submitted an application to the Clean Environment Commission to prescribe limits in connection with the operation of a lumber processing, milling and finishing plant, at or adjacent to 400 DesMeurons Street, St. Boniface in the City of Winnipeg.

AND WHEREAS a representation was made to the Clean Environment Commission by a person who is or is likely to be affected by an order of the Commission prescribing limits in connection with the said operation,

AND WHEREAS the Clean Environment Commission held a public hearing on the 26th, 27th and 28th days of June 1972 in the Archwood School in St. Boniface, City of Winnipeg, Manitoba,

AND WHEREAS the Clean Environment Commission considered the application on the 22nd day of January 1973.

IT IS HEREBY ORDERED THAT

- 1) The applicant shall within three months of the date of issuance of this Order ensure that particulate emissions from the various processes of said operation do not exceed 0.57 grams per standard cubic meter calculated at 20⁰C and 760 mm. of mercury (0.25 grains per standard cubic foot calculated at 68⁰F and 30 inches of mercury) at point of emission.
- 2) The applicant shall ensure that within three months of the date of issuance of this Order that at any point of impingement off the plant premises the dustfall over a period of thirty days shall not be greater than one and five tenths of a milligram per square centimetre (1.5 mg per cm²) over and above the normal background level at said point of impingement.
- 3) The applicant shall ensure that within three months of the date of issuance of this Order at any point of impingement off the plant premises the suspended particulate concentration over a period of 24 hours shall not be greater than one hundred micrograms per cubic meter (100 ug/m³).

**ENVIRONMENTAL
PROTECTION**

- 4) The applicant shall ensure that general housekeeping and maintenance measures are of a standard that will be compatible with meeting the requirements of clauses 1), 2) and 3) of this Order.
- 5) The applicant shall within thirty days of the date of issuance of this Order submit to the Clean Environment Commission a procedure for the effective reduction and orderly removal of scrap lumber, sawdust, chips and wood dust, said procedure to be based on minimizing the possibility for fire with attendant smoke and on the reduction of wind entrained dust and particulate matter.

Order No. 246

Dated at the City of Winnipeg
