

Environment Act Licence

Manitoba
Environment

Licence No. 2077
Issue Date July 19, 1995

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

RURAL MUNICIPALITY OF ODANAH: "the Licencee"

for the construction and operation of the Development being a reservoir, pumphouse and water distribution project in the Rural Municipality of Odanah subject to the following specifications, limits, terms and conditions:

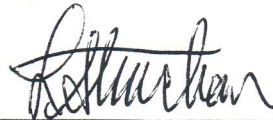

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

1. The Licencee shall construct the Development in accordance with the Environment Act Proposal dated March 21, 1995, and additional information contained in letters dated June 7, 1995 and June 20, 1995, all submitted to Manitoba Environment by the Manitoba Water Services Board on behalf of the Licencee.
2. The Licencee shall, prior to the commencement of construction, provide the location of the reservoir and pumphouse to the Historic Resources Branch and provide evidence to the Director that the Historic Resources Branch has no concerns regarding the location of these works.
3. The Licencee shall ensure that the Development does not alter local drainage patterns, including inflows and outflows from small wetlands adjacent to the route of pipelines.
4. The Licencee shall, prior to the commencement of construction, receive the approval of the Director for final plans showing the location of the works associated with the Development, as well as a proposal for the mitigation of construction impacts on small wetlands along the route of pipelines associated with the Development. The mitigation proposal shall be developed in consultation with the Minnedosa office of the North American Waterfowl Management Plan and with Ducks Unlimited.
5. The Licencee shall not construct pipelines in wetlands earlier than July 1 in any year.
6. The Licencee shall revegetate areas disturbed by the construction of the Development with plant species similar to those present prior to construction.
7. The Licencee shall, during construction of the Development, implement appropriate measures to minimize sedimentation in surface water bodies.

8. The Licencee shall, prior to the commencement of construction, receive all necessary approvals from Manitoba Highways and Transportation and the Manitoba Highway Traffic Board.
9. The Licencee shall dispose of waste construction material at a Waste Disposal Ground operating under the authority of a permit issued pursuant to *Manitoba Regulation 150/91R* respecting *Waste Disposal Grounds*. Waste construction material shall not include soil from excavation or trenching operations.
10. The Licencee shall ensure that the operation of the municipal water supply is in accordance with Manitoba Regulations under the Public Health Act and all operating requirements as recommended by Manitoba Environment.
11. The Licencee shall ensure that all used oil products and other regulated hazardous wastes generated by the machinery used in the construction of the Development are collected and disposed of in accordance with applicable Manitoba Environment and legislation requirements.
12. The Licencee shall ensure that fuel storage areas established for the construction of the Development are located a minimum distance of 100 metres away from surface water bodies, and shall comply with the requirements of *Manitoba Regulation 97/88R* respecting *Storage and Handling of Gasoline and Associated Products*.

REVOCATION

If, in the opinion of the Director, the Licencee has exceeded or is exceeding the limits, or has not complied or is not complying with the specifications, terms or conditions set out herein, the Director may revoke this Licence either temporarily or permanently.

Larry Strachan, P. Eng.
Director
Environment Act
