

SUMMARY OF COMMENTS/RECOMMENDATIONS

PROPONENT: City of Winnipeg
PROPOSAL NAME: 4R Winnipeg Pacific Ave Resource Depot
CLASS OF DEVELOPMENT:
TYPE OF DEVELOPMENT: Hazardous Waste Storage, Handling &/or Treatment
CLIENT FILE NO.: 5833.00

OVERVIEW:

Manitoba Sustainable Development received a Proposal on May 5, 2016 for the creation of a facility for the collection of household hazardous waste, used oil and electronic wastes to be located at 1120 Pacific Ave. at the waste management facility in the City of Winnipeg. The facility is a transfer station designed to accept household hazardous wastes, used oil and e-Waste in accordance with the Product Care Association’s Manitoba Collection Site Guidelines and the *Used Oils, Oil Filters and Containers Stewardship Regulation*. No waste is to be permanently disposed of at this facility.

The Department, on May 28, 2016, placed copies of the Proposal in the Public Registries located at the Legislative Library (200 Vaughan Street), the Winnipeg Millennium Public Library and online at <http://www.gov.mb.ca/conservation/eal/registries>. An electronic link to the Proposal was also provided to the Technical Advisory Committee (TAC) members. A notice of *The Dangerous Goods Handling and Transportation Act* proposal was also placed in the Winnipeg Free Press on May 28, 2016. The newspaper and TAC notifications invited responses until June 28, 2016.

COMMENTS FROM THE TECHNICAL ADVISORY COMMITTEE:

Canadian Environmental Assessment Agency

Due to the types of waste received at the proposed facility, the (federal) Regulations will not apply. The Agency will not be participating further in the review.

Disposition:

Information forwarded to proponent

Manitoba Sustainable Development – Compliance and Enforcement Branch

Comments were received regarding material handling and disposal. Each item is addressed below.

Disposition:

Information forwarded to proponent.

1. Disposal location of materials collected will be in accordance with Product Care requirements, and licence conditions.
2. The used oil collection tank is within the building and no public vehicle access is allowed within the building. The collection tank will be in accordance with industry standards and regulatory requirements.
3. Licence conditions will restrict what can occur with wastewater, spilled materials and sump water.
4. Material acceptance will be in accordance with Product Care Association's Manitoba Collection Site Guidelines and the *Used Oils, Oil Filters and Containers Stewardship Regulation*.
5. Equipment identified in the proposal potentially includes a manual pallet jack or dolly.
6. Requirements for records and daily inspections will be in accordance with industry, regulatory and licensing standards.
7. Signage will be required in accordance with industry, regulatory and licensing standards.

8. Containers for waste storage will be in accordance with industry, regulatory and licensing standards.

Manitoba Sustainable Development – Climate Change and Air Quality Branch

No significant impact on air quality provided that VOC containing hazardous materials will be stored properly. Recommend include odour clause.

Disposition:

Standard odour clause included. Containers as per CCME and industry standards.

Manitoba Growth, Enterprise and Trade – Office of Fire Commissioner

The applicant should review the Household Material Storage Site & Facility with the City of Winnipeg Fire Department and submit a Fire Safety Plan to the City fire department. And obtain building permits.

Disposition:

Information forwarded to proponent.

PUBLIC HEARING:

A public hearing is not recommended for this Development.

CROWN-INDIGENOUS CONSULTATION:

The Government of Manitoba recognizes that it has a duty to consult in a meaningful way with Indigenous communities when any proposed provincial law, regulation, decision or action may infringe upon or adversely affect the exercise of the Indigenous rights of that community.

This proposed facility will be located in an industrial area, within the City of Winnipeg. There would be no infringement of Indigenous rights under Section 35 of the Constitution Act, 1982. Therefore, it is concluded that Crown-Indigenous consultation is not required for the project.

RECOMMENDATION:

The Proponent should be issued a Licence for the construction and operation of the 4R Winnipeg Pacific Avenue Resource Depot in accordance with the specifications, terms and conditions of the attached draft Licence.

Enforcement of the Licence should be assigned to the Environmental Compliance and Enforcement Branch of Manitoba Sustainable Development.
