

2011

Manitoba's Local Produce Guide

Experience Fresh from the Farm

Your guide to Manitoba's farmers' markets, pre-picked market stands, U-Pick vegetable gardens and community supported agriculture farms.

Manitoba 

Welcome from the Minister

The taste of farm fresh produce is something all Manitobans look forward to every summer and

Manitoba's Local Produce Guide – 2011 should be your first source of information regarding this season's bounty of fresh produce.

Nothing beats the taste of fresh-picked produce. This guide helps you access farmers' markets, pre-picked market stands and u-pick fruit and vegetable gardens, province-wide. This guide also lists community supported agriculture farms which offer consumers an opportunity to invest in and share in produce that is grown and harvested locally.

Consider this as your roadmap to experience more of what Manitoba has to offer. Visit your local farmers' market or farm stand as part of your weekly shopping trip. Be a tourist and plan a picnic or a visit to a nearby community or tourist site with your family.

Be proud when you buy local, as you are supporting Manitoba producers and Manitoba's agriculture and food sectors creating jobs and building sustainable communities.

Experience the taste of fresh, Manitoba-grown produce and have a safe and happy summer!

Manitoba Agriculture, Food and Rural Initiatives

GET OUT THERE AND ENJOY MANITOBA PRODUCE!

Whether you shop, pick or have your produce grown, this guide will help you access fresh local produce in the way that best suits you. There are several ways to access local produce this season in Manitoba:

- Farmers' markets
- Pre-picked market stands
- U-Pick vegetable gardens
- Invest in and share the harvest of local producers

Farmers' Markets

You can stock up on fresh food and local goods at any of the many farmers' markets around the province. Producers grow, pick, make and sell a variety of quality local fruit, vegetables, fresh baked goods, home preserves and unique crafts. Farmer's markets

bring several producers together in one location to sell their goods directly to consumers. Each producer has a separate stall or stand at the market.

Members of the Farmers Markets Association of Manitoba Co-op Inc. are identified in this guide and online at www.fmam.ca.

Pre-Picked Market Stands

These are usually roadside stands on or near the property of the farmers. The farmers pick the produce for you and replenish the supplies with fresh produce daily. The advantage of going to roadside stands is that you can talk to the growers one-on-one about the way

they farm and how to get the most out of their produce. Some stands specialize in a few particular varieties of produce, while others have a broader range, depending on the growing conditions of each farm or market garden.

U-Pick Vegetable Gardens

You can harvest your vegetables yourself and get the pick of the crop at U-Pick market gardens. Enjoy fresh air and exercise while you shop. You also have the opportunity

to talk to growers one-on-one. Bring along the family, friends and neighbours, add a picnic lunch and make a day of it. You'll have fun and take home tasty, hand-picked produce.

Community Supported Agriculture (CSA) Farms

This is a unique way to form partnerships between farmers and their customers. As a customer, you become a member by investing a fee in the farmers' crops in

the spring. When the crops are harvested, you receive a share of the vegetables the farmer grows. Every CSA is unique. Contact these farms directly to find out more information and how they operate.

Manitoba's CSA farms can also be found at online at csamanitoba.org.

MAKE THE MOST OF YOUR TRIPS

Plan ahead — You'll save time and avoid disappointment if you confirm hours of operation and selection of vegetables in advance.

Include fresh fruit on your list — Check out the Prairie Fruit Growers Association directory for all the information you need to buy from local fruit markets and gardens. You can find it online at www.pfga.com.

Ask growers for information — Take some time to talk to the farmers for cooking, freezing or canning ideas, or recipes.

Bring along this guide — Use it to plan visits to more than one outlet and expand your adventure, variety and choices.

Be a tourist — Pack up family and friends and make it a weekend outing. Check out local tourist attractions along the way.

Consider organic produce — Many Manitobans want organic produce and the demand is growing. To be sure you're buying truly organic produce, call ahead or check websites to see if producers have an official federal certification.

When you buy local products, you're enjoying fresh healthy produce, supporting Manitoba farmers and helping grow Manitoba's economy.

TAKE THE FARMERS' MARKET GPS CHALLENGE

June 4 to August 27

Use GPS coordinates to find a participating farmers' market this summer while shopping for fresh Manitoba produce.

Your successful visit may qualify you for a chance to win 1 of 3 Sony Bloggie Touch video cameras.

A complete list of participating farmers' markets will be available at www.mbagritourism.ca.

For more information and to register for the challenge go to: www.mbagritourism.ca.
