Economic Overview

Barrows originated in the 19th century when the Red Deer Lake Sawmill was in operation. This mill was closed in 1927, and since that time several small sawmills have operated for short periods of time.

The area is heavily forested, and forest harvesting continues to provide some employment with saw logs for some mills and pulp logs going to the Tolko Manitoba Inc. Pulpmill at the Pas.

The soils of the area have potential for agricultural development and there is limited ranching.

Trapping continues to be a major source of employment, and the community shares traplines in the Porcupine and Shoal River Registered Trap Line Zones with other communities.

Barrows is a member of the Highway 77 Regional Round Table that strives to address the social and economic needs of the region. Contact (204) 545-6275 Barrows Council Office
