

# Made-in-Manitoba Climate and Green Plan

## What it Means for *Carbon Pricing*

The new Climate and Green Plan sets out a made-in-Manitoba carbon price that will reduce more emissions at less cost than the federal carbon tax. It consists of the following:

### Carbon Pricing

Low and level at  
\$25/tonne

Exemptions for farmers &  
agriculture emissions

Output based pricing for  
large industrial emitters

Carbon offsets and  
credit trading

### Emissions Reductions

Targeted sector  
emissions reductions

Five-year Carbon  
Savings Accounts

Carbon sequestration via  
forests, farms and wetlands

### Revenue Recycling

Carbon revenue recycling  
to households and families

Climate and Green Plan  
investments from carbon revenue

### Public Accountability

Full public disclosure of carbon  
revenue and spending

Independent expert advisory  
commission of Manitobans

Five-year review  
in 2022
