SPECIAL NOTICE

ATTENTION: MANITOBA INFRASTRUCTURE VENDORS,

Starting mid-July 2018, Manitoba Infrastructure will begin receiving bids for most large goods purchases (>\$10,000) exclusively by electronic bid submission through our procurement service provider MERX. You will notice changes to your MERX experience, but there will be no major change to Manitoba Infrastructure's business processes.

MI's solicitations can be accessed at: <https://www.merx4.merx.com/mbgov/manitobainfrastructure-bondedtenders>. There is no need to sign up to a new system or change your login details. Nor are there any additional subscription fees. Fees will only be assessed by MERX when a vendor places an electronic bid for a solicitation.

Vendors are encouraged to review MERX's online training videos for electronic bid submission found at: <https://www.merx4.merx.com/public/Help>. Further information is available at the MERX helpdesk: (800) 964-6379.
