

# North Steeprock Lake Campground

## North Steeprock Lake Provincial Park

### Campground Tips

- Be sure matches are extinguished. Break them in half before discarding.
- Build no fires except in a designated firepit or use a camp stove. Before leaving make sure your fire is completely out.
- Be careful with your cigarettes, cigars and pipe ashes. Crush them thoroughly before discarding. Never toss them from a vehicle.
- Please! Do not litter.
- Be sensitive to wildlife. Bears can be dangerous and should not be fed. Food must be stored away from your campsite, preferably in a locked vehicle, to avoid attracting hungry animals. Do not store food in your tent.
- Warm clothing is needed for cool nights.
- The use of insect repellent will add to your comfort.
- Learn to recognize and avoid poisonous plants such as poison ivy.
- In case of injury or illness contact a Campground Attendant or Park Patrol Officer. They can assist you to reach medical help.
- Canoeists and hikers travelling in backcountry areas should advise a friend of their intended destination and anticipated length of trip.
- Backcountry camping is only allowed at designated campsites.
- It is illegal to use or transport elm firewood.
- Out of Province Firewood can spread harmful pests and destroy our forests - buy it locally, burn it locally.

## North Steeprock

- Enjoy a region of forested uplands and clear lakes

A combination of pristine habitats makes North Steeprock Lake Campground in Porcupine Provincial Forest a haven for large mammals. The "mountain" is the northern most segment of the Manitoba Escarpment in our province. Enjoy a region of forested uplands and clear lakes. The campground is made up of 31 nightly and seasonal sites. Enjoy the nearby beach and playgrounds. At North Steeprock, anglers typically catch northern pike and walleye. In the fall there are good catches of whitefish. Vini Lake, just west of Steeprock produces arctic char and rainbow trout.

Similar to Nopiming in eastern Manitoba, North Steeprock Lake is a great place to view vegetation recovery after a fire. In the spring of May 1980, a blaze began across the border in Saskatchewan. Today the

areas burned on the southwestern and central parts of Porcupine hills are lush with young jack pine and spruce on the uplands, and mixed aspen, birch and juvenile jack pine on the slopes. The ravaged forest area is now home to moose and white-tailed deer. Canadian geese and sandhill cranes fill the skies during spring migration in May.

North Steeprock Lake Campground is located north of Birch River. Turn west from PTH 10 and continue on PR 365 beyond Bell Lake.

More information on Steeprock Lake Campground and North Steeprock Provincial Park is available on request from the park office.
