

MANITOBA CONSERVATION PUBLIC CONSULTATION DRAFT
PROPOSED AMENDMENTS TO THE
Classes of Development Regulation
under *The Environment Act*

Proposed amendments:

The definition section is amended

(a) by replacing the definition "Class 1 waste disposal ground with the following:

"Class 1 waste disposal ground" has the same meaning as in section 1 of the *Waste Disposal Grounds Disposal Regulation*, Manitoba Regulation 150/91;

(b) by adding the following definitions:

"class B thermal treatment system" and **"class C thermal treatment system"** have the same meaning as in section 1 of the *Thermal Treatment Systems Regulation*, made under the Act;

"commercial composting facility" means a facility operated commercially for the purpose of making compost, but does not include

(a) a composting facility at a waste disposal ground, if the waste disposal ground is the subject of a valid licence issued under the Act or permit issued under the *Waste Disposal Grounds Regulation*, Manitoba Regulation 150/91; or

(b) a composting operation that is regulated by the *Livestock Manure and Mortalities Management Regulation*, Manitoba Regulation 42/98;

"compost" means the end product of aerobic decomposition of organic matter by bacterial action;

"landfill gas collection system" means a system that collects a mixture of gasses generated in a landfill by the following:

(a) microbial decomposition of waste,

(b) chemical reactions in waste;

(c) by repealing the definition "gasification plant".

Section 2 is amended

(a) in Item 2,

(i) by striking out "Gasification plants", and

(ii) by adding "Landfill gas collection systems" in alphabetical order;

MANITOBA CONSERVATION PUBLIC CONSULTATION DRAFT
PROPOSED AMENDMENTS TO THE
Classes of Development Regulation
under *The Environment Act*

Proposed amendments:

(b) in Item 5,

(i) by striking out "Manufacturing and industrial plants", and

(ii) by adding "Commercial composting facilities" in alphabetical order; and

(c) in Item 7,

(i) by striking out "Biosolids application",

(ii) by striking out "Class 1 waste disposal grounds", and

(iii) by adding "Class B thermal treatment systems" and "Class C thermal treatment systems" in alphabetical order.

Section 3 is amended

(a) by in Item 1, by striking out "Electrical generating facilities with a generating capacity less than or equal to 100 megawatts" and substituting "Electrical generating facilities with a generating capacity of more than 10 megawatts but not more than 100 megawatts";

(b) in Item 2, by striking out everything after "Pulp and paper mills" and substituting the following:

Forestry operations for which a forest management licence under *The Forest Act* is required or in respect of which a long-term forest management plan is required under the *Forest Use and Management Regulation*, Manitoba Regulation 227/88 R

(c) by replacing Item 7 with the following:

7. WASTE TREATMENT AND STORAGE

Biosolids application
Class 1 waste disposal grounds
Sewage treatment plants
Wastewater treatment lagoons

(d) by adding the following after Item 8:

9. MANUFACTURING

Manufacturing and industrial plants
