Mr. Sheldon Stott, P.Ag.
Director of Environmental Affairs
HyLife Foods
Box 10000, 623 Main Street
Neepawa, MB R0J 1H0

Dear Mr. Stott:

Re: HyLife Foods LP (HyLife Foods) –Environment Act Licence No. 1102 R – Notice of Alteration

Receipt of the February 7, 2017 report submitted by Stantec Consulting Ltd. on behalf of HyLife Foods is acknowledged as a notice of alteration in accordance with Section 14 of *The Environment Act*.

The requested change to the Development as Licensed is to expand the existing hog receiving facility by approximately 2,702 m² in order to increase the on-site temporary holding capacity by an additional 3,500 hogs per day. It is stated that the reason for the expansion to the receiving facility is to allow for flexibility to accommodate variability in supply logistics and potential short-term transportation disruptions.

No changes are proposed to the Licensed production capacity of the processing plant or to the R3 Innovations Inc. Industrial Wastewater Treatment Facility which treats the wastewater from HyLife Foods and operates under Environment Act Licence No. 2870R.

The potential environmental effect of the requested change to the Development as Licensed is insignificant and considered to be a minor alteration in accordance with Section 14(2) of *The Environment Act*. Approval is hereby granted for the alteration to the Development as described in the February 7, 2017 report and the revised Environment Act Licence No. 1102 RR is enclosed.

If you have any questions, please contact Jennifer Winsor, P.Eng. at 204-945-7012.

Yours sincerely,

Tracey Braun, M.Sc.
Director
