Re: Environment Act License Name Change – Beausejour, MB – License 1950

Dear Krystal,

In light of the recent acquisition of the ag retail locations from Viterra Inc., please change the legal name of the Environment Act License 1950 for Beausejour, MB to Crop Production Services (Canada) Inc.

While License 1950 shows that the facility was licensed to operate a crop protection products warehouse, bulk granular fertilizer, and distribution facilities, legacy companies added bulk liquid fertilizer storage, anhydrous ammonia storage, and a seed treatment plant which has been in operation for a number of years. At this time, we would like to notify you that Crop Production Services (Canada) Inc. plans to continue to sell bulk liquid fertilizer, anhydrous ammonia and to conduct seed treatment operations from this location.

The total liquid fertilizer capacity for the site is 1,450 tonnes which is stored in liquid fertilizer tanks, all of which are located within secondary containment. The total anhydrous ammonia storage capacity for this location is one 30,000 US gallon storage vessel. The location possesses a current Certificate of Compliance with the Fertilizer Safety & Security Council's Ammonia Code of Practice & Implementation Guide. The seed treater/batch blender is located on a concrete pad.

Sincerely,

A handwritten signature in blue ink that reads "Randi Cyr".
