Re: ErosionControlBlanket.Com – Notice of Alteration Licence 2600

Dear Mickael Waite:

Thank you for your Notice of Alteration submitted on July 3, 2020 and additional information provided on August 21, 2020, in which you proposed to alter how you handle the reusable waste straw and disposable waste straw generated at the ErosionControlBlanket.Com facility located in Riverton. Your proposal indicates that reusable waste straw will be directed to one of the following:

1. the Blumenort Facility for Biotic Earth production;
2. local community farmers; or
3. local permitted or licenced landfills.

I have reviewed your alteration request and concluded that the environmental effects of the proposed alteration will be insignificant, and, therefore, in accordance with Section 14(2) of The Environment Act your alteration is approved as described in the July 3, 2020 Notice of Alteration. This approval will be conditional on the following:

1. ErosionControlBlanket.Com shall maintain an inventory of the volume of waste directed to each option above and make it available for review by an Environment Officer upon request.
2. ErosionControlBlanket.Com shall be responsible for the waste delivered to the Blumenort facility in the event the waste is not properly handled at that facility.
3. ErosionControlBlanket.Com shall, upon the request of an Environment Officer, cease sending the straw waste to the Blumenort facility and/ or the community farmers.
4. This approval will be re-assessed in one year from the date of this letter.

If you have any questions regarding this matter, please contact Eshetu Beshada, Environmental Engineer, Manitoba Conservation and Climate, at Eshetu.Beshada@gov.mb.ca or 204-250-1932.

Sincerely,
