

MANITOBA CONTAMINATED / IMPACTED SITES LIST

Disclaimer

The list is intended only as a preliminary screening tool for identification of potentially impacted sites in Manitoba. The list alone should not be relied upon to determine if impacts are present on a site. Impacts from on-site activities or neighbouring properties may be present but have not been brought to the attention of this department. The list includes sites for which Manitoba Conservation maintains a file; however not all sites have impacts exceeding applicable guidelines. Some sites may have been remediated but residual impacts may remain that do not pose a threat to human health or to the environment.

The list includes impacted or contaminated sites in Manitoba that have been entered in the Department's Environmental Management System database, but may not include all sites for which the Department currently maintains files. A complete file search is recommended to confirm all the information Manitoba Conservation maintains on a site. For information on the submission of a file search request, please contact Chris Hnat at (204) 945-8155, chris.hnat@gov.mb.ca.

As of September 2011

File Number	Site Name	City/Town/RM	Address
41058	10 MINIT PIT STOP (FORMER) - CS	Winnipeg	1280 PEMBINA HWY
