

# West Hawk Lake Campground

Whiteshell Provincial Park

## Campground Tips

- Be sure matches are extinguished. Break them in half before discarding.
- Build no fires except in a designated firepit or use a camp stove. Before leaving make sure your fire is completely out.
- Be careful with your cigarettes, cigars and pipe ashes. Crush them thoroughly before discarding. Never toss them from a vehicle.
- Please! Do not litter.
- Be sensitive to wildlife. Bears can be dangerous and should not be fed. Food must be stored away from your campsite, preferably in a locked vehicle, to avoid attracting hungry animals. Do not store food in your tent.
- Warm clothing is needed for cool nights.
- The use of insect repellent will add to your comfort.
- Learn to recognize and avoid poisonous plants such as poison ivy.
- In case of injury or illness contact a Campground Attendant or Park Patrol Officer. They can assist you to reach medical help.
- Canoeists and hikers travelling in backcountry areas should advise a friend of their intended destination and anticipated length of trip.
- Backcountry camping is only allowed at designated campsites.
- It is illegal to use or transport elm firewood.
- Out of Province Firewood can spread harmful pests and destroy our forests - buy it locally, burn it locally.

## Whiteshell

- Enjoy an exhilarating view of Manitoba's deepest lake

West Hawk Lake “exploded” into history when a meteorite hit the earth, leaving a huge crater as a reminder of its visit. In time, the circular cavity filled with water to form the deepest lake in Manitoba at 111 metres (364 feet). Some of Manitoba’s earliest mineral claims were staked in the Falcon, Star and West Hawk Lake areas. In fact, the first gold discovery was made at Star Lake in 1890. While the mining process eventually proved to cost more than the gold itself, the area was later recognized as a prized tourist destination. Present day treasure-hunters now explore the lake’s frontiers by scuba diving.

West Hawk Geological Museum tells the stories of how volcanoes, glaciers and meteorite explosions changed the face of the Whiteshell landscape to the way it looks today. Learn more about this and other topics every week at interpretive programs. To apply this new-found geological knowledge, hike the park’s many trails. The trails range from short, novice jaunts to those that are best ventured by experienced backpackers. Try McGillivray Falls, Whiteshell River or Mantario hiking trails.

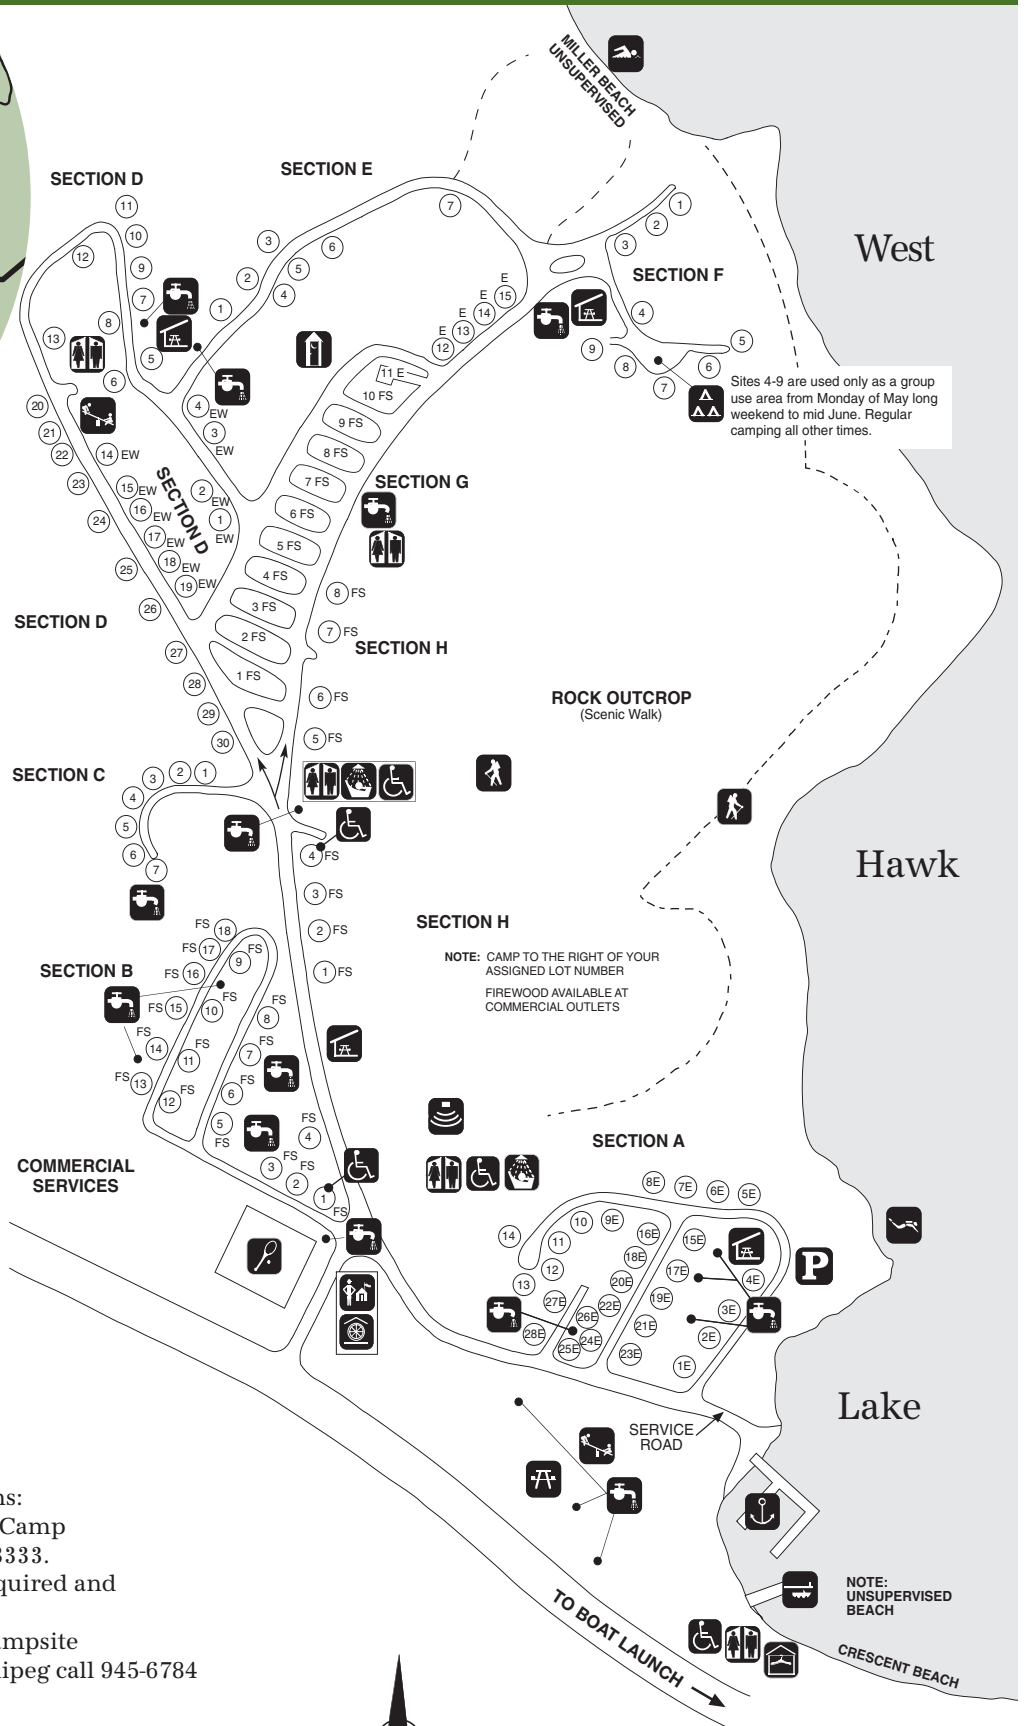

The beach is a great place for sun tanning, people watching or sharing stories. As motorboats cut through the water, listen to the shrieks of excitement that can be heard from the people water skiing or tubing across West Hawk Lake. For water activities that are a little less intense, bring out the canoe or kayak and flow along the many lakes and rivers of the Whiteshell. Combine beachside camping with tennis, swimming, boating, or fishing. Clamber up rock ridges, gaze out from the cliffs, or have a lazy lunch by a secluded lake - some of the best hiking in the province is right here.

You’ll keep busy with the area’s local attractions and recreational activities. Some stores feature local artisans’ creations. Many of the crafts are inspired and designed to reflect the natural environment of where they were created, the boreal forest. A wheelchair accessible trail and platform enables everyone to enjoy a day of fishing at Lyons Lake, just east of the West Hawk turn-off on HWY 1.

More information on West Hawk Lake Campground and Whiteshell Provincial Park is available on request from the park office.
