DRAFT VISION STATEMENT:

“A sustainable, high-quality, planned trail system, where:

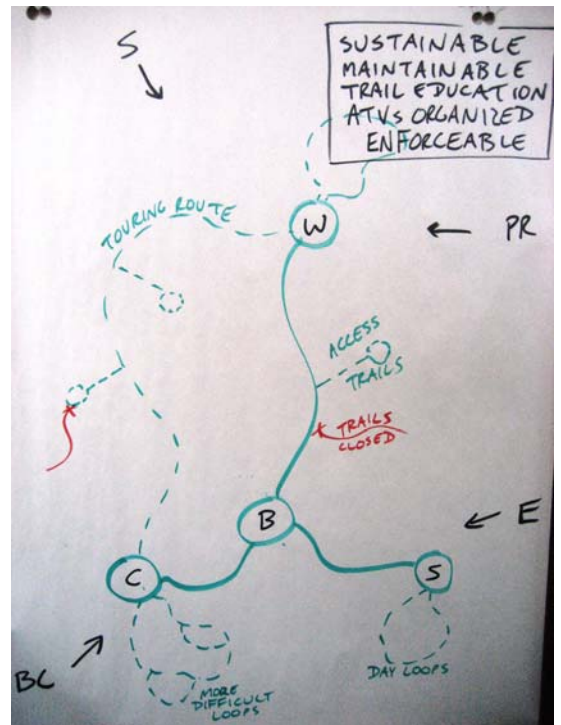

‘Sustainable’ means ecologically sound and economically affordable;

‘High-Quality’ means offering a compelling, satisfying, challenging experience requiring minimal maintenance; and

‘Planned’ means designed for responsible recreational and commercial users, and supported by maintenance and enforcement measures.”

DRAFT ATV TRAILS CONCEPT:

- Includes trail links between major centers (Childs Lake, East Blue Lake, Wellman Lake, Singush Lake)
- Acknowledges existing local access from outlying communities (Swan River, Pine River, Ethelbert, San Clara, Grandview etc.)
- Provides series of loop trails at major centers, with varying levels of difficulty/challenge
- Provides short links to popular destinations (angling lakes, points of interest)
- Includes signage at each trail head
- Incorporates ATV rider education, ATV organization, ATV trail maintenance and enforcement
- Uses existing trails in areas where they will be sustainable and ‘self-maintaining’
- Requires trails to be designed and routed to protect sensitive areas
- Closes unsustainable portions of trails

NOTE: concept only – no specific trails are shown
