## INTRODUCTION

---

The Manitoba Estimates of Expenditure for the Fiscal Year Ending March 31, 2007 detail the expenditure intentions of the government as presented in The 2006 Manitoba Budget. The Estimates of Expenditure detail the annual appropriations to be approved by the Legislative Assembly through an appropriation act. Also reported in the Estimates of Expenditure, as required by section 30 of The Financial Administration Act, are statutory appropriations that are not voted on by the Legislature. Manitoba Estimates of Revenue for the Fiscal Year Ending March 31, 2007 are detailed in a separate document.

In order to assist in the review of these estimates, the following explanatory notes are provided.

### **Categories of Expenditure**

The Estimates of Expenditure include two sections: Part A - Operating Expenditure and Part B - Capital Investment. Operating Expenditure relates to the annual cost of operating government programs and interest on public debt while Capital Investment relates to the cost of acquiring tangible capital assets according to the province's capital asset accounting policy where expenditures on tangible assets (excluding land) are amortized on an "expense" basis over the useful life of the asset. Tangible capital assets are divided into two broad categories: general assets such as buildings and equipment and infrastructure assets such as roads and waterways.

This accounting policy results in authority for capital investments being requested separately (Part B) with an annual amortization charge included in operating appropriations (Part A).

### Part A – Operating Expenditure

This section of the Estimates of Expenditure includes three main categories as follows:

*Operating Expenditure* – expenditures related to the direct delivery of government programs and services, including salaries and general operating costs, grants to third parties and expenditures related to tax credit payments, pensions and other provisions.

*Capital Grants* – funds granted to third parties such as health authorities, universities and municipalities, for the construction of, or improvement to, capital assets owned by these third parties.

*Costs Related to Capital Assets* – annual provision for the cost of a capital asset that is used in the delivery of government programs. Tangible capital assets acquired in the past as well as those to be acquired in the 2006/07 fiscal year have an associated interest cost over the entire useful life of the asset as well as an expense based on pre-determined amortization rates. Recognizing amortization in this way allocates the cost of capital assets to the periods of service provided.

## INTRODUCTION

---

### Part B – Capital Investment

This section of the Estimates of Expenditure provides the authority for the annual purchase or acquisition of tangible capital assets which meet established guidelines for amortization. Tangible capital assets are those with a useful life extending beyond one year which are acquired, constructed or developed and held for use, not for resale. Tangible capital assets with a value less than the accepted capitalization limit will be expensed in the year of acquisition. As previously indicated, the annual amortization cost is reflected in Part A - Operating Expenditure as part of the annual cost of delivery of government programs. Details on the asset classifications, estimates of useful life and amortization rates for both general and infrastructure assets are provided in Appendix B on page 165.

The annual appropriation act provides authority for departmental expenditures including the annual amortization expense (Part A of the Estimates of Expenditure) as well as the annual authority for the capital investment contained in Part B of the Estimates of Expenditure. The authority raised for both Part A and Part B is annual authority and lapses at the end of the fiscal year.

### **Prior Year Estimates of Expenditure**

The estimates of expenditure for the previous year include both the estimates of expenditure and any supplementary estimates of expenditure that may have been approved by the Legislature by way of a supplementary appropriation act. There were no supplementary estimates in 2005/06.

In order to make year over year comparisons meaningful, adjustments to the previous year's estimates figures may be necessary. These adjustments reflect organizational changes, as well as any other adjustments that may be required to provide comparability. Generally, the total of the previous year's estimates of expenditure does not change as a result of these adjustments. However, this year the 2005/06 expenditure estimates have been restated to reflect amendments to Generally Accepted Accounting Principles (GAAP) to include inventory accounting and for an adjustment to amortization for infrastructure assets in the year of acquisition to be consistent with general assets.

### **Additional Expenditure Authority**

Funds will be voted by the Legislature at the main appropriation level for both Part A and Part B by way of resolution numbers (abbreviated "Res. No." in the detailed estimates). Expenditure authority cannot be transferred between main appropriations except for transfers from appropriations listed under the service heading "Enabling Appropriations" (e.g. Enabling Vote). If additional expenditure authority is required due to unforeseen circumstances, the government must introduce supplementary estimates of expenditure and a supplementary appropriation act when the House is sitting, or obtain authority through a special warrant if the House has recessed or adjourned for a period of time as specified in section 32 of The Financial Administration Act. Supplementary estimates of expenditure would form part of the total voted expenditure authority for that year as noted above. This same approval process applies to a main appropriation within Part B - Capital Investment.

### **Statutory Appropriations**

Statutory appropriations contain expenditure authority approved by the Legislature by way of acts other than an appropriation act. Statutory appropriations exist for indemnities and retirement provisions for members of the Legislative Assembly, for various allowances related to functions and special duties performed by members, for certain electoral expenses, and for public debt. An "S" in the "Res. No." column of the detailed estimates denotes a statutory appropriation. As noted in the introductory paragraph, this is included in the estimates of expenditure for information purposes only and does not form a part of the appropriation act.

---

## INTRODUCTION

---

### **Enabling Appropriations and Other Appropriations**

In addition to departments, separate "service headings" exist to provide expenditure authority for programs that are delivered by a number of departments, where it is desirable to know the total amount allocated to the program, or where the allocation to various departments is not known at the time of printing the estimates. In some cases funding is allocated, as required, from the appropriation to departments by the Minister of Finance under authority granted by section 33 of The Financial Administration Act (Enabling Appropriations). In other situations, departments are granted authority to charge approved expenditures directly to the service heading. Several of these programs are included under the service heading entitled "Other Appropriations".

### **Recoveries**

The government has a policy of identifying the total costs of operating the various programs throughout government through the allocation of overhead costs to programs. Cost recoveries include expenditures for: insurance, accommodations, desktop charges, grants in lieu of taxes, air services, certain employee benefits and costs related to tangible capital assets. Cost recoveries are generally noted in a separate sub-appropriation called "Less: Recoverable from other appropriations". This designates that part or all of the costs of this program are recovered from other programs by charging appropriations either in that department or other departments. Recoveries for services provided to programs not within the consolidated government entity are deposited to revenue.

### **Special Operating Agencies**

Special operating agencies (SOAs) are service operations which are more directly responsible for their operating results and are granted increased management flexibility. These agencies can provide direct public services, internal services to government, science and technology services, or regulatory and enforcement programs. Special operating agencies are designated by regulation and operate under a charter approved by the Lieutenant Governor in Council. For 2006/07, there are two new SOAs, Green Manitoba Eco Solutions and Crown Lands and Property Agency. Funding for special operating agencies is normally not required in the annual estimates of expenditure as they are generally self-financing through their various fees and rates. However, each special operating agency is referenced in the estimates of the department responsible and a summary listing of special operating agencies is provided in Appendix A on page 161.

### **Estimates Supplements**

Additional detail on estimates of expenditure for individual departments is available in estimates supplements produced by each department and tabled in the House.

			EXPENDITURE 2006/07 \$ (000s)	EXPENDITURE 2005/06 \$ (000s)

### ADVANCED EDUCATION AND TRAINING (44) Continued

*Adult Learning and Literacy:* Develops, co-ordinates and funds community-based adult and family literacy programs in cooperation with community groups. Registers and funds Adult Learning Centres, which provide programming that leads towards the attainment of Senior 1 to Senior 4 credits, including related literacy and tutorial supports to attain these credits and high school completion.

*Hydro Northern Training Initiative:* Manages and co-ordinates the province's commitments, responsibilities and activities for Manitoba's involvement in the Hydro Northern Training Initiative. The Initiative is designed to prepare northern Aboriginals for training and employment opportunities related to the proposed hydro electric generating stations. The Branch provides leadership in the area of training and development and works in partnership with provincial departments, Manitoba Hydro, the federal government and Aboriginal partners in the funding, delivery and evaluation of the Initiative.

*Industry Training Partnerships:* Partners with strategic industry groups to identify human resource/training needs and develop strategies to meet those needs. Collaborates with industry to leverage funds and cost-share the purchase of industry-wide training. Develops and delivers cross-sectoral courses considered essential to business competitiveness. Co-ordinates initiatives to support the labour force development of small and medium-sized enterprises. In cooperation with industry and labour, develops, co-ordinates and cost-shares workplace related essential skills training and industry-based prior learning assessment projects.

*Apprenticeship:* Partners with industry to designate trades, register apprentices and develop trade regulations. Establishes training and certification standards that meet provincial and inter-provincial requirements for trades certification. Develops partnerships with training providers to implement and deliver training programs. Provides certification and maintains records of apprentices and certified trades persons. Through the Technical-Vocational Initiative provides Manitobans a comprehensive continuum of technical-vocational education pathways that are universally accessible, seamless across education levels and synchronized with labour market needs.

*Employment and Training Services:* Working within the context of Manitoba's labour market, assists individuals in defining and achieving their employment goals by delivering programs, services and resources directly, and by creating partnerships with community stakeholders.

*Canada-Manitoba Labour Market Development Agreement (LMDA):* Under an agreement between Canada and Manitoba, Employment and Training Services is provided with funding from the Government of Canada's Employment Insurance (EI) Account, primarily to assist EI insured unemployed individuals to prepare for, find and keep employment by providing a range of education, training and employment programs and services.

16.2	2.	SCHOOL PROGRAMS .....	<b>25,523.9</b>	25,757.8
		Consists of programs aimed at providing leadership, co-ordination and support for Manitoba's Kindergarten to Senior 4 education system.		
		<i>Manitoba School for the Deaf:</i> Provides bilingual-bicultural instruction and residential services within a Kindergarten to Senior 4 school for Deaf and hard of hearing children.		
		<i>Instruction, Curriculum and Assessment:</i> Develops curriculum, distance delivery courses, Senior 4 standards tests and provincial assessments, and policy and support documents related to Kindergarten to Senior 4 programs. Delivers print-based distance education courses. Supports national/international testing programs and administers national/international assessments and provincial standards tests. Provides leadership and support for professional learning. Conducts reviews of learning resources to recommend curriculum-matched materials. Provides support for transition from school to work/post-secondary education through career development.		
		<i>Program and Student Services:</i> Provides consultative support and professional learning opportunities in support of the development of effective learning environments and improved learning outcomes for children and youth, especially those with diverse needs, within the Kindergarten to Senior 4 system. Facilitates interdepartmental co-ordination of services for children and youth with exceptional needs. Administers educational service agreements with institutions providing educational programs outside the public school system. Collaborates with school divisions, educational and community organizations and parent groups in implementing a variety of services and programs including school and school division planning and the administration of categorical grants. Provides library/media services for teachers and other educators. Works with Healthy Child Manitoba and other service providers to deliver programming and supports to improve the well-being of Manitoba's children and youth.

------------	---	------------------	------------------

Provides policy co-ordination, direction and support for employment support, financial assistance and housing programs.

*Employment and Income Assistance Programs:* Provides employability assessments, personal job planning, work incentives and other supports to assist Manitobans to enter or re-enter and remain in the labour force; provides income assistance to persons in need.

*Health Services:* Provides essential drug, dental and optical services and support to Employment and Income Assistance participants and children in care.

*Income Supplements:* Provides financial supplements to low income persons 55 years of age and over and low income families with children.

*Building Independence:* Assists Employment and Income Assistance participants to enter and remain in the workforce. Provides links to training and employment opportunities; supports for skills training and active employment search; job readiness assessments; and partnerships with agencies helping people on income assistance reduce their dependence on government programs.

*The Manitoba Housing and Renewal Corporation:* Provides for the development, delivery, management and administration of housing policy and programs. Provides operational assistance to support not-for-profit housing and the delivery of housing grant and subsidy benefit payments to low income renters. Provides co-ordination and support services to the Manitoba Housing Authority and the Winnipeg Housing and Homelessness Initiative.

**APPENDIX A**  
**SPECIAL OPERATING AGENCIES**

---

As noted on page 7 of the introduction, special operating agencies are service operations which are more directly responsible for their operating results and are granted increased management flexibility. Funding for special operating agencies is normally not required in the annual estimates of expenditure as they are generally self-financing through their various fees and rates.

Note: Detailed information on each special operating agency can be found in the individual agency annual report and in the responsible department's estimates supplement.

General information on special operating agencies can be found in the annual report for the Special Operating Agencies Financing Authority.

- As at April 1, 2006, the designation of Land Management Services as a special operating agency is revoked and its operating charter cancelled. The operations of the former Land Acquisition Branch, previously designated as Land Management Services; together with the operations of the Lands Branch, the Park Districts Records Unit and Agricultural Crown Lands Program will be delivered by the Crown Lands and Property Agency.

**APPENDIX B**

**ACCOUNTING POLICY FOR CAPITAL EXPENDITURES**

**APPENDIX B**  
**ACCOUNTING POLICY FOR CAPITAL EXPENDITURES**

The province implemented a change in accounting policy for general tangible capital assets in 1999/2000 based on standards issued by the Canadian Institute of Chartered Accountants (CICA). The CICA standards require that expenditures on tangible assets be amortized over the useful life of the asset. Recognizing amortization in this way allocates the cost of capital assets to the periods of service provided and amortization is recorded as an expense in the statement of operations.

Tangible capital assets are those with a useful life extending beyond one year which are acquired, constructed or developed and held for use, not for resale. Tangible capital assets with a value less than the accepted capitalization limit will be expensed in the year of acquisition.

The expected useful life of an asset takes into consideration the passage of time, normal wear and tear and the effects of technological obsolescence. The province has adopted a standard useful life for each asset class that is expected to remain the same over time. The straight-line method of amortization used reflects a constant charge for the service as a function of time.

Standard asset classes, capitalization limits and amortization rates for general and infrastructure assets related to this accounting policy are summarized below.

Asset Description	Capitalization Limit (\$ dollars)	Useful Life (years)	Amortization Rate Straight-Line (%)
<b><u>GENERAL ASSETS</u></b>			
LAND	n/a	n/a	n/a
BUILDINGS - bricks, mortar and steel	100,000	40	2.50
BUILDINGS - wood frame	100,000	25	4.00
VEHICLES	10,000	5	20.00
AIRCRAFT AND VESSELS			
- Aircraft Frames	10,000	24	4.17
- Aircraft Motors	10,000	5	20.00
- Vessels	10,000	24	4.17
MACHINERY AND EQUIPMENT - other than for road construction and maintenance	10,000	10	10.00
MACHINERY AND EQUIPMENT - road construction and maintenance	10,000	15	6.67
COMPUTER HARDWARE - mainframe and mini computers	50,000	10	10.00
COMPUTER HARDWARE - personal computers	10,000	4	25.00
COMPUTER - major application	500,000	15	6.67
COMPUTER SOFTWARE - other	10,000	4	25.00
FURNITURE	10,000	10	10.00
LEASEHOLD IMPROVEMENTS	100,000	over term of lease	

---

**APPENDIX B**  
**ACCOUNTING POLICY FOR CAPITAL EXPENDITURES**

---

Asset Description	Capitalization Limit (\$ dollars)	Useful Life (years)	Amortization Rate Straight-Line (%)
<b><u>INFRASTRUCTURE ASSETS</u></b>			
LAND IMPROVEMENTS	100,000	30	3.33
TRAFFIC/LIGHTING FACILITIES	100,000	20	5.00
BRIDGES AND STRUCTURES	100,000	40	2.50
PROVINCIAL ROADWAYS - surface	100,000	20	5.00
PROVINCIAL ROADWAYS - thin overlays	100,000	10	10.00
PROVINCIAL ROADWAYS - grade	100,000	40	2.50
PROVINCIAL TRUNK HIGHWAYS - surface	100,000	20	5.00
PROVINCIAL TRUNK HIGHWAYS - grade	100,000	40	2.50
AIRSTRIPS - grade	100,000	40	2.50
DAMS/WATER STRUCTURES	100,000	40	2.50

For example, for a piece of machinery used for road construction costing \$30,000, the estimated annual amortization would be calculated as follows:

$$\begin{array}{rcccl}
 \text{Historical Cost} & & \text{Useful Life} & & \text{Amortization} \\
 \hline
 \$30,000 & \div & 15 & = & \$2,000/\text{year}
 \end{array}$$
