

*Helping fund the education  
of young Manitobans living  
in subsidized rental housing*

Bursaries will be granted to students living in a Manitoba Housing Authority (MHA) unit, a subsidized social housing unit associated with the MHRC (ex: non-profit, co-op, urban native or rural and native), or a housing unit in the private market receiving a rental subsidy from the MHRC (ex: Rent Supplement or Manitoba Shelter Benefit).

*Bursary Fund*

# A chance to learn

# A chance to grow.

The Manitoba Housing and Renewal Corporation (MHRC) understands the vital role education plays in improving the quality of life of young Manitobans.

That's why the MHRC has established an annual bursary fund that provides nine \$1,000 bursaries to students living in subsidized rental housing units in Manitoba. The following bursaries are available to students like you:

### **Bursary for Graduate Students:**

\$1,000 available to one graduate student attending a university in Manitoba in the fall and studying in any field. The student will be offered a summer internship with Manitoba Housing if a position suitable to the applicant's field of study exists. This will assist the applicant in gaining practical experience and will provide additional income to the bursary.

### **Bursary for University Students:**

\$1,000 available to four students who will be starting or continuing to study in an undergraduate degree program at a Manitoba university in the fall. At least two bursaries will be allocated to Aboriginal persons.\*

### **Bursary for College Students:**

\$1,000 available to four students who will be starting or continuing to study in a college program at a Manitoba college in the fall. The college program must be at least one academic year in length. At least two bursaries will be allocated to Aboriginal persons.\*

\*An Aboriginal person is defined as a person of North American Aboriginal ancestry, either Métis, Inuit, Status Indian or Non-status Indian.
