Directions for filling out the Alternate Route Annual Status report form

Fill out your name and license number in the area indicated at the top of the form.

Indicate, by circling the year, which year of the Alternate Route to Maintenance of Licensure program you are applying for.

Mandatory requirements

Option 1

Personnel are required to complete a minimum of 4 sections per year with 14 required over the three year period

- the module and section numbers must be listed on the form in the appropriate boxes: example – you have completed Module 2 Section 1 Airway management – indicate 2-1 on the form
 - completing a module twice cannot be counted toward you 14 sections
 - documentation of completion of both the cognitive and psychomotor elements (as indicated in the core competency template) must be kept on file and must be provided upon request by the Emergency Medical Services Branch for audit purposes

Option 2

Personnel are required to meet a minimum call volume as indicated on the previous page:

- do not fill out this section unless the minimum is met and your Medical Director (or designate) verifies this information with their signature
 - calls are only eligible if there is documented active assessment and management of the patient
 - personnel must be the primary attendant at 50% of the calls

On-going Education Requirements

Personnel are required to complete a minimum number of on-going credits per year with an adjusted minimum required over the three year period. (see chart on page 2)

On-going education credits can be acquired in three ways:

1. Completion of the optional core competency sections
 - the module and section numbers must be listed on the form in the appropriate boxes: example – you have completed Module 1 Section 4 Lifting and Handling – indicate 1-4 on the form
 - completing a module twice cannot be counted toward your minimum requirements
 - documentation of completion of both the cognitive and psychomotor elements (as indicated in the core competency template) must be kept on file and must be provided upon request by the Emergency Medical Services Branch for audit purposes
2. Pre-approved on-going educational programs
 - the accreditation number must be listed on the form in the appropriate boxes
 - a listing of these programs can be found at www.gov.mb.ca/health/ems/arml/credit
 - documentation of completion must be kept on file and must be provided upon request by the Emergency Medical Services Branch for audit purposes
3. Personnel are required to meet the call volumes as indicated on the previous page:
 - do not fill out this section unless the minimum number is met and your Medical Director(or designate) verifies this information with their signature
 - calls are only eligible if there is documented active assessment and management of the patient
 - personnel must be the primary attendant at 50% of the calls

All credits acquired through the *optional core competency section* or *approved ongoing educational programs* must be added together and listed in the appropriate box.

Read over the Declaration and then sign and date in the space provided.
