

TECHNICIAN REFRESHER COURSE

The Technician refresher course is applicable for the following individuals:

- individuals that graduated from an approved EMR program and did not qualify for licensure within 1 year of the certificate issued date
- individuals that did not renew their license prior to expiry
- individuals that were unsuccessful in the licensing examination

This program must be taught by an individual that has experience teaching an approved (within Manitoba) EMR program or higher level, within the previous two years.

The refresher course must cover 2 primary areas:

- **Didactic classes** (20 hours in duration) – the instructor can tailor the course to the individual student, ensuring that all areas are covered
 - Medical, legal and ethical issues
 - Lifting, Moving and Handling
 - Medical Terminology
 - Reporting and Recording
 - The human body-anatomy & physiology
 - Baseline Vital Signs & History taking
 - Patient assessment
 - Respiratory Emergencies
 - Bleeding and Shock Emergencies
 - Cardiac Emergencies
 - Diabetes and Altered Mental States
 - Environmental Emergencies
 - Allergic Reaction Emergencies
 - Behavioral Emergencies
 - Poisonings, drugs, and alcohol
 - Obstetrics & Gynecological Emergencies
 - Soft Tissue Injuries
 - Musculoskeletal Injuries
 - Head & Spinal Injuries
 - Chest Injuries
 - Abdominal/Genito-urinary Emergencies
 - Pediatrics
 - Geriatrics
 - Hazardous Materials & Multiple Casualty
- **Practical Skills** (15 hours in duration) – the instructor can tailor the course to the individual student, ensuring that the student is competent in all skills.
 - Patient Assessment - primary & secondary
 - Vital Signs - pulse, respirations, blood pressure, skin and pupils
 - Airway Adjuncts - NPA, OPA
 - Oxygen administration and suctioning
 - Childbirth - normal, all complications
 - Wound Management
 - Fracture Management
 - Head & Spinal - C-collar, supine, seated
 - S.A.E.D.
