## FLEETNET RADIO IDENTIFICATION NUMBERS

Manitoba Health has made available a provincial radio system for EMS services and personnel. The Fleetnet system, operated by MTS, offers a variety of features including the “private call”. This feature can be used to call specific users and provide entry notification to receiving health care facilities. To facilitate notification of health care facilities, the following is a list of the Fleetnet radio identification numbers for health care facilities with existing Fleetnet base stations. As new installations take place daily, the list will require updating on a regular basis. Individual services and regions should provide updates to EMS personnel as each new base station is added. Manitoba Health will also make every effort to provide regular updates.

Region	City or Town	Hospital	Fleetnet Radio ID
MHES	Winnipeg	MHES Headquarters 1680 Ellice Avenue	700394
