GREEN FAMILY MAKEOVER
Tune into Information Radio on CBC Radio One 59.3 FM/990 AM, next Monday morning, November 8th. You can also listen to all the interviews posted to this page!

ASRTS HANDBOOK AND RESOURCE GUIDE
The Active and Safe Routes to School (ASRTS) Handbook and Resource Guide is available as a hard copy to Manitoba schools and communities at no charge.

MAKE A DONATION
Donations help us get more Manitobans composting, walking to school, using climate-friendly commuting, reducing waste, and learning greener ways of living. Thank you for your support!

LIVING GREEN, LIVING WELL

Recycling election signs
The elections are over. You may be wondering what to do with your election signs. Here are options for Winnipeggers.

Winter Driving Tips
Winter presents eco-driving challenges. Engines are cold, and it's tempting to idle to warm up your car! Remember that warming up your car is...

Toxics in your cosmetics

UPCOMING EVENTS

Green Action Centre Fundraiser
Get Your Green On! Join us on Saturday, November 6th at The Academy to help celebrate our new name and new look!

CYCLING THROUGH WINTER

Extend your cycling season through the winter with a little planning and the right gear. It can be challenging, but also very satisfying. Check out some tips to help make your ride more enjoyable.

School Travel Planning Initiatives in Canada

14 years of growth

Approach Based on International Best Practices

- Revised 2010
- Focus on:
 - New Zealand
 - United Kingdom
 - Australia
 - United States
- Not Europe - too dissimilar to Canada
- <http://www.saferoutestoschool.ca/schooltravel.asp>

Why School Travel Planning?

National School Travel Planning Dissemination Children's Mobility, Health, and Happiness

Jan 2010 to Mar 2012

- Partners: Coalitions Linking Action and Science for Prevention (CLASP), Canadian Partnership Against Cancer, The Public Health Agency of Canada
- Project includes national expansion of School Travel Planning (STP), and an *added focus on sustainable happiness and health*

COALITIONS LINKING ACTION
& SCIENCE FOR PREVENTION

Production of this information has been made possible through a financial contribution from Health Canada, through the Canadian Partnership Against Cancer; and from the Public Health Agency of Canada. The views expressed herein represent the views of the Children's Mobility, Health and Happiness: A Canadian School Travel Planning Model project and do not necessarily represent the views of the project funders.

Child and Youth Friendly Land-Use and Transport Planning Guidelines

- In transport and land-use planning, the needs of children and youth should receive as much priority as the needs of people of other ages and the requirements of business.
- Progress in Canada towards achieving this goal.

www.kidsonthemove.ca

School Travel Planning adheres to the principle of Sustainable Happiness: happiness that contributes to individual, community and/or global well-being and does not exploit other people, the environment or future generations.
