

Community Places Program Applications for Grants

Investment Priority:

Community Development

Additional Information:

Community Places assists non-profit organizations with the purchase, construction or improvement of recreation / wellness facilities that will be of long-lasting benefit to the community.

Eligible projects receive up to 50 per cent of the first \$15,000 of total project costs and up to one-third of any costs over that amount, to a maximum of \$50,000.

Non-profit organizations can apply for assistance for both facility development and improvement projects. Technical Consultation Services are provided by Community Places Program facility consultants who assist community organizations in the planning and development of facility projects. Consultations include planning and design advice, project and operating cost projections, information on regulatory requirements, the provision of schematic drawings and assistance with the tendering process.

Applications to the Community Places Program (CPP) are available every year in **early fall** in the CPP office in Winnipeg or on our website. The deadline for submitting project applications is **December 15th**, which will support grant recipients by giving them more time to secure contractors and begin work in the early spring.

Potential applicants should contact the CPP office at 945-0502 or toll free at 1-800-894-3777 to place themselves on a mailing list or consult our website at www.manitoba.ca/housing/cpp to keep up-to-date about these deadlines.
