You are invited to a **Community Places Program** workshop.

Take advantage of this opportunity to get some help with the planning of your recreation/wellness facility project and the completion of your application.

During the upcoming months, staff from the Community Places Program and Regional Services will be holding workshop sessions throughout the province, **free-of-charge**, for groups who are planning projects or considering applying to **Community Places** in the future.

We can help with any questions you may have about your project plans or your grant applications. One of our **Community Places** Facilities Consultants will also be available to help with project technical issues and arrange on-site meetings to discuss your project.

Bring your whole project file with you. Feel free to bring another member of your organization. We'll talk about planning, fundraising, costs, contractors, application do's and don'ts, best practices and anything else that will make your project a success and your grant application manageable.

These workshops are also a unique way for you to network and share ideas with others who are planning similar projects -- an opportunity to learn about fundraising and project ideas that have, and have not worked in other communities.

We are certain that your project and funding plans will improve if you can attend a workshop. Although the workshops are free-of-charge, we ask that you call us to **reserve a spot** by contacting the regional office hosting the workshop closest to you.

Note: The dates and locations in the Workshop Schedule (www.manitoba.ca/housing/cpp) are tentative and may change. Your Regional Services office can provide you with updated information.

Yours,

Mark Ranson
Director

**COMMUNITY PLACES PROGRAM
WORKSHOPS SCHEDULE**

If you are applying to Community Places and technical or planning advice is required for your project prior to the workshops listed below, please call the Regional Office closest to you.

The following dates may change or more may be added. Please contact the Region hosting the workshop closest to you for more information and to confirm your attendance.
