Studying in Manitoba, Canada

An Exceptional Learning Environment

Manitoba is a province of Canada, a country known as one of the best places in the world to live, learn and succeed. Manitoba offers students:

• internationally-recognized education in modern facilities with professional and supportive teachers

• quality, affordable education and training in small or large, rural or urban, English or French, public or private schools

• friendly, safe cities and towns with a low cost of living and a wide variety of recreational, cultural and entertainment opportunities

• a beautiful natural environment – blue skies, fresh air, wide-open spaces, clear lakes, sandy beaches, natural forests and four seasons

• free health care services

• housing choices, such as student residences, off-campus apartments, shared house rentals and homestays. Homestays are carefully chosen families that host international students, giving them a warm place to live and learn about Canadian life

Visit - Study - Work - Live

Manitoba has a high standard of living, with strong economic growth and lots of job opportunities. In our province, international students can get valuable work experience, earn money while studying and even stay in Manitoba after they graduate

• **Visitor Visas** – visitors may need a Visa to enter Canada and to study for less than six months. Check this list to see if you must apply for a Visa: www.cic.gc.ca/english/visit/visas.asp

• **Study Permits** – allow international students to study in Canada in programs that are longer than six months. www.cic.gc.ca/english/study/index.asp
We encourage all students to get a study permit since many end up wanting to stay longer than six months.

- **Off-campus Work Permits** – allow post-secondary students to work off-campus and gain work experience while they study.

- **Post-graduation Work Permits** – allow students who have graduated from eligible Manitoba colleges/universities to work for up to three years in Canada.

- **Manitoba Provincial Nominee Program** – allows international student graduates who are employed with a work permit to apply to live in Manitoba permanently (www.immigratemanitoba.com).

- **Canadian Permanent Resident Visas** – allow international student graduates to immigrate permanently and make Manitoba their home (www.cic.gc.ca/English/immigrate/cec).

**Affordable Costs and High-quality Education**

**Tuition** – Manitoba offers quality education with some of the lowest international student tuition fees in Canada. This amounts to approximately $10,000 per year for secondary studies and $12,000 per year for post-secondary studies.

**Tuition Tax Rebate** – Post-secondary students who graduate and get jobs in Manitoba are eligible for a 60 percent Tuition Fee Tax Rebate of up to $25,000 CDN.

**Scholarships** – Manitoba universities offer undergraduate entrance scholarships, starting at an 80 per cent average on your high school marks. Scholarships for international students are also available through the Canadian government. Check https://scholarships-bourses.gc.ca/
My Study Plan

Welcome to your study abroad planning guide! How many times have you (or your parents) asked what you want to do after high school or after your post-secondary degree?

- What type of work do I want to do?
- Where can I get the education to prepare me for my dream job?
- Do I want to study abroad?
- Where do I want to study/work/live?

These are questions that people ask themselves throughout their lives. So it is important that you start to think about them as early as possible. Think about what really matters to you, what inspires you, who you want to be and how to reach your goals. Then, use the following pages to help you plan your future.

**Step 1: Getting to Know Myself**
Questions to help you learn more about yourself and explore your future

**Step 2: Setting My Goals**
A place for you to set your goals

**Step 3: Achieving My Goals**
Some tips and advice to help you make decisions

**Did you know** Manitoba is known as the Polar Bear Capital of the World because Churchill, on our northern sea coast, has some of the most accessible places to see polar bears in the wild? The new “Journey to Churchill” International Polar Bear Conservation Centre gives you a similar experience right in Winnipeg!
1. Getting to Know Myself

1. What do I want to study after high school or after my college degree? What are my main interests? What inspires me, motivates me, excites me? What am I good at?

2. Where do I want to study? Do I want to study in another country? Do I want to be in an international student exchange program?

3. What is my dream job? Imagine yourself in five, 10, 25 years...what do you see yourself doing? Think about jobs that relate to your strengths and most importantly, your interests. Remember: You can do anything you set your mind to and you may change careers many times throughout your life.

4. Where do I want to live and work? Is it always warm where you want to live or are there four different seasons? Do you want to work abroad? Do you want to learn to speak another language?

Did you know Manitoba is the most culturally diverse province in Canada, with more than 100 languages spoken?
2 Setting My Goals

3 Achieving My Goals

Tips for Preparing for Post-secondary Education

Do lots of research about the school you want to attend and note important dates and deadlines. These can include Canadian education fairs, application deadlines and scholarship or financial aid deadlines. Make sure that you meet all the entrance requirements before you apply, including the appropriate level of English/French language proficiency.

If you are interested in more than one program, take courses that keep your options open. If you plan to study abroad, find out if the courses you have taken in high school will allow you to attend college or university in that country. Find out if your undergraduate degree leads to the graduate degree you want to achieve in Canada: www.cicic.ca

Tips for Choosing Your Program

Don’t worry if you are still not sure what you would like to study. Many people use their first year of post-secondary education to explore different interests before they choose a program in a specific field of study.

Make sure you know what you need to get into the program you want (ex: grade point averages, courses, etc.) and plan to meet those goals. You may need to take certain tests to apply to the program, including a test of your English language ability (ex: IELTS* or TOEFL**) Most post-secondary programs require an IELTS of 6.5 points and a TOEFL of 80 points.

* IELTS – International English Language Testing System: www.ielts.org
**TOEFL – Test of English as a Foreign Language: www.ets.org/toefl

Life is like riding a bicycle. To keep your balance, you must keep moving.
– Albert Einstein
Tips for Choosing Your Career

While choosing a career is an important decision, it is not a permanent one. Many people take years to decide on the work they want to do. Some will change their careers many times in their lives. Think about the work you would like to do then explore other possibilities to help you decide.

Look at occupations that relate to the things you like to do, what you are good at and how you live your life. Discuss your ideas with family and friends who can give good advice and suggestions.

It is important to consider how much education you need for your career and how long it will take you to complete it. Some careers may need up to 10 years of school and training after high school, while others may need much less.

If you need help, visit Manitoba Career Development at: www.manitobacareerdevelopment.ca/CDi/index.html

Manitoba has a lot to offer, and is very well known for its multiculturalism, diversity, affordability – and most of all – the friendly faces of Manitobans. This all makes it a unique, friendly and fun place to live.

– Ronnie Ver L. Cruz, Brunei
Why Choose Manitoba?

Manitoba offers opportunity, affordability, quality and a safe, welcoming environment where you can earn internationally-recognized credentials in world-class education programs. International students can choose from hundreds of career training options while also experiencing true English or French language immersion.

Opportunity

- **Work**: eligibility to work on or off-campus while studying
- **After graduating**: eligibility to work up to three years in your field
- **Immigrate**: via the International Student Immigration Stream of the Manitoba Provincial Nominee Program

Affordability

- **Health care**: FREE in Manitoba with a minimum six-month study permit
- **Low tuition**: among the lowest tuitions in Canada
  (secondary studies approximately $10,000/year;
  post-secondary studies approximately $12,000/year)
- **Low cost of living**: one of the lowest in Canada with a high standard of living
- **Entrance scholarships**: available for eligible undergraduates
- **Tuition tax rebate**: 60 per cent tuition fee tax rebate of up to $25,000 CDN for graduates who stay in Manitoba to work
Quality

• High graduation rates
• Canada has the highest PISA (Program for International Student Assessment) scores of any English-speaking country
• Government promise of quality and high levels of government funding

Safe and Welcoming Environment

• Friendly people
• Multicultural communities
• Four different seasons in a beautiful, natural environment
• Cultural centre of Canada

Health Coverage for International Students

A Great Place to Study Just Got Better

Today, there are over 6,000 international students in Manitoba’s schools, colleges, universities and language schools. These students, or their parents, once had to buy private health insurance when they came to study in Manitoba. But now, international students are eligible for the same health insurance coverage as all Manitoba residents.

What This Means to You

• If you are an international student with a Citizenship and Immigration Canada study permit valid for at least six months, and you live in Manitoba for at least six months in a calendar year, you are eligible for a Manitoba Health card. This card gives you access to a wide variety of health care services, most of which are available at no cost.

• If you are married and have children, your family members are also covered if they have visitor visas or are listed on your study permit and live in Manitoba for at least six months.

• Whether you are under the age of 18 or a married adult, if you have a valid study permit for a minimum of six months, you are eligible for coverage.

For more information: www.manitoba.ca/health
Make Manitoba Your Home

Imagine living in a world-class city where a house or apartment is affordable; where going to work by car or public transit takes only an average of 30 minutes, and a drive to a lakeside retreat for a weekend of hiking, canoeing or skiing is just an hour or two away.

Manitoba recognizes that the many immigrants who have made the province their home over the years have done a great deal to make the province a better place to live, work and succeed. Manitoba has friendly people, an excellent quality of life and a clean environment – from our capital city, Winnipeg to smaller cities and communities throughout the province.

For more information, visit: www.gov.mb.ca/finance/pdf/highlights.pdf

Manitoba Provincial Nominee Program

First Consideration

Manitoba knows that international students who have graduated from a Manitoba college or university are also more prepared to live and work here as permanent residents.

International students who have graduated from a Manitoba college or university, and who are currently working in Manitoba under a post-graduation work permit, may apply to the Manitoba Provincial Nominee Program (MPNP) to get first consideration. With a nomination through the MPNP, you will receive faster processing of your Canadian Permanent Resident Visa, allowing you to live and work in Manitoba permanently.

I still feel butterflies in my stomach when I remember the amazing Northern Lights in Manitoba, dancing and changing colours in front of my eyes. It was the most magical experience of my life.
– Katerine Gonzales-Rojas, Mexico
International Students Currently Working in Manitoba

International students currently working in Manitoba can apply for the MPNP if they meet the following requirements:

• You have graduated from an education or training program that was at least one year long.
• You have been working in Manitoba for at least six months, with a valid post-graduation work permit.
• You have a formal offer of a long-term, full-time job from a Manitoba employer.

Manitoba Tuition Fee Tax Rebate

Build Your Future in Manitoba

As a recent graduate with a college or university degree, diploma or certificate, you’re starting your career and building your future. But where should you put your education to work? What place offers you the best combination of job options, low cost of living and career growth?

The answer is Manitoba.

Not only does our province offer you great opportunity and lifestyle, our Tuition Fee Income Tax Rebate will also give you a 60 per cent rebate on all your eligible tuition fees once you start working and paying taxes. This rebate of up to $25,000 CDN will help you pay for your education and get settled in your new home province.

Did you know that the original Winnie the Pooh came from Manitoba? Learn more at Assiniboine Park Zoo in Winnipeg.
Who Is Eligible?

If you graduated from a college or university recognized by the Canada Revenue Agency (CRA) on or after January 1, 2007, and you now work and pay taxes in Manitoba, you can apply for the Manitoba Tuition Fee Income Tax Rebate.

It doesn't matter if your training was in Manitoba or elsewhere in Canada, if you graduated with a degree, a diploma or a certificate. As long as your college or university is recognized by CRA, you can apply for the rebate.

For more information: www.gov.mb.ca/tuitionrebate/index.html

Manitoba at a Glance

Located in the geographical centre of North America, Manitoba has a population of more than 1.25 million. We offer you abundant room for growth, natural resources, technological innovation, manufacturing and services.

Our political, business, cultural and social environment welcomes newcomers. We have expertise in providing you with the services and support you need to get settled and find work.

Manitoba: Province of Canada since 1870. Manitoba means “where the spirit lives” in the languages of the Aboriginal people who first lived here.

Government System: parliamentary democracy

Area: 649,947 sq km/250,946 square miles (larger than Japan and twice the size of the U.K.) Manitoba extends from the 49th to the 60th parallel (the equivalent of Paris, France to Oslo, Norway); 1,400 km north to south; 900 km at the widest point and 500 km at the narrowest.

Ocean Coastline on Hudson Bay: 645 km/400 miles

Did you know that Manitoba has an ocean port? It does! Manitoba ships commodities around the world through the Port of Churchill on Hudson Bay in the northern part of the province.
Total Population: 1,250,000

Capital City: Winnipeg (population 760,000)

Climate: Four distinct seasons – cold, dry winter; hot, dry summer; moderate, cool spring and fall

Terrain: Prairie grasslands in south and west; Canadian Shield lakes and forests in the east and north; arctic tundra in the far north

Natural Resources: Abundant freshwater lakes and rivers, hydroelectricity, base metals (ex: nickel, copper, zinc), fishing, forestry, gold, oil, agriculture

Manitoba’s Advantages

• hydroelectric rates among the lowest in North America
• mid-continent transportation gateway - CentrePort Canada
• Central time zone for North America
• skilled, multi-cultural workforce
• diverse, stable economy

Manitoba Employment Rate

94.6 per cent in 2011

Major exports

Farm products, metals and minerals, processed foods, vehicles and transport equipment, machinery, electricity, medicines, chemicals, plastics, paper

Major agricultural commodities

Canola, wheat, hogs, cattle, dairy products, oats, poultry, barley, flaxseed, eggs

Manitoba helps me see the world as a wonderful reality where diverse races, religions and cultures can live together harmoniously.

Did you know that Manitoba has more restaurants per capita than any other place in North America? Many of these restaurants serve authentic international cuisine and are owned and operated by immigrants to Manitoba.
Manitoba’s Economy

Like our population, the most distinctive characteristic of Manitoba’s $43 billion economy is its diversity. Manitoba’s economy has a great reputation for innovation, quality, reliability and sustainability in the national and global marketplace.

For more information, visit: www.gov.mb.ca/finance/pdf/highlights.pdf

Aerospace

Manitoba’s state-of-the-art aerospace industry is the largest in Western Canada, employing about 5,300 people. The industry is export-oriented, serving hundreds of companies worldwide and led by three world-class firms:

- Boeing Technology Canada
- StandardAero
- Magellan Aerospace Limited/Bristol Aerospace

Agribusiness Manufacturing and Technology

Led by more than 250 Manitoba-based firms, this sector produces equipment, technology and related services for crop and livestock production, with a focus on grain-based companies that include:

- Buhler Versatile Inc.
- MacDon Industries Ltd.
- Ag Growth International (AGI)
- Ag Shield Manufacturing

I have been here studying in Manitoba for almost 10 months and my experience so far is excellent. I’m also happy that I’ve been able to establish good business and personal contacts.
– Shubhpreet Kaur Nandha, India
Building Products

In 2010, the Manitoba building products industry shipped about $214 million of building products to the U.S., China and Europe. Local companies that specialize in cold-climate engineering and design, and R2000, include:

- Kitchen Craft Cabinetry
- Loewen Windows
- Jeld-Wen Windows and Doors
- Palliser Furniture

Cultural Industries

Manitoba is the cultural capital of Canada with an abundance of quality arts organizations, festivals and touring companies, including:

- Royal Winnipeg Ballet
- Winnipeg Symphony Orchestra
- Winnipeg Art Gallery
- Festival du Voyageur
- Folklorama
- Winnipeg Folk Festival

Did you know the Canadian Museum for Human Rights (CMHR) will soon open in Winnipeg? The CMHR will provide a place for Canadians, and the world, to explore and promote the subject of human rights.

Education

Manitoba’s education system supports and promotes the benefits of international education. Schools offer courses aimed at international students, along with study and work abroad programs, international education contracts and development projects. These activities strengthen international partnerships and create economic and job opportunities for Manitobans and international students alike. (See pages 22-24)
Electricity and Natural Gas

Manitoba’s hydroelectric power supply is a clean, renewable energy source. Over the next 10 to 15 years, approximately $15 billion will be invested in major new hydroelectric projects along rivers and lakes in northern Manitoba. These projects will employ many engineers and construction workers and ensure a reliable, cost-effective supply of electricity long into the future.

Environmental Industries

Manitoba is a clean-energy leader, ranked as the #1 province in Canada in energy efficiency. In addition to having the most aggressive biodiesel strategy in Canada, Manitoba is further reducing fossil fuel use by relying more and more on geothermal heat pumps and wind power.

Financial Services

Manitoba’s financial services industry includes insurance, mutual funds, wealth management and leasing. The industry has a workforce of over 20,000 people and uses world-class information technology and communications systems. Winnipeg is home to industry-leading firms including:

- Great-West Lifeco Inc.
- IGM Financial Inc.
- Wawanesa Mutual Insurance Company
- Manitoba Public Insurance Corporation

Did you know that many Manitoba companies offer paid work experience and part-time jobs to international students?
Food Processing (Value-added)

With over 250 companies, the value-added food processing industry is the largest manufacturing sector in Manitoba, representing 25 per cent of total provincial manufacturing shipments (about $4 billion in 2010). Major companies include:

- Maple Leaf Foods
- Granny's Poultry

Heavy Vehicle Manufacturing

The heavy vehicle manufacturing sector employs 6,500 people and accounts for about 10 per cent of Manitoba’s annual exports. The industry specializes in producing buses, fire trucks, motor homes, recreational vehicles and agricultural equipment and includes:

- Motor Coach Industries Ltd.
- New Flyer Industries Ltd.
- Buhler Industries
- Fort Garry Fire Trucks

Information and Communications Technologies (ICT) and Digital Media

With over 1,500 companies, and supported by a large network of research and development organizations and industry associations, Manitoba’s ICT sector employs 22,000 people. In addition, digital media and gaming companies posted industry growth of over 850 per cent from 2007 to 2010. Companies with centres of operation in Winnipeg include:

- IBM
- Hewlett Packard
- EDS
- Manitoba Telecom Services Allstream

*Be the change that you want to see in the world.* – Gandhi
Mining and Minerals

The Manitoba mineral industry employs over 6,000 people. Manitoba companies produce about 20 per cent of Canada’s nickel, as well as cobalt, copper, zinc, gold, silver, selenium, tellurium, cesium and lithium. Major employers include:

• HudBay Minerals
• Vale

Retail

With over 6,800 retail stores employing 66,700 people, Manitoba’s retail trade industry was valued at approximately $16 billion in 2010. The retail trade industry contributes approximately $2.9 billion (7.3 per cent) to Manitoba’s GDP annually.

Manitoba’s IKEA store is the largest of its kind in Canada serving Saskatchewan, Northwestern Ontario and North Dakota (a U.S. state directly south of Manitoba).

Transportation and Logistics

A centre for transportation, warehousing, distribution and logistics across North America for more than a century, Manitoba is home to CentrePort Canada, North America’s new 20,000-acre inland port. Located next to Winnipeg’s James Armstrong Richardson International Airport, CentrePort Canada provides facilities for distribution, warehousing and manufacturing.
