**INFORMATIONAL NOTICE 10-02**

**August 12, 2010**

## **CORE LAB CHANGES**

Due to an increase in requests to examine petroleum core within the Midland Facility, Manitoba Geological Survey staff are no longer able to offer core handling services to clients.

Effective September 1st, 2010, companies and consultants requesting to view core will be required to employ temporary services to assist in the moving of core while they are at the facility. Temporary service employees will be defined as a person from an outside agency hired by clients or a direct employee of the visiting clients and will be directly supervised at all times by Manitoba Government Employees.

Please contact the manager of the Core Lab for details on how to arrange for this service. Gerry Bengner may be reached at 204-945-6550 or via email at [Gerry.Bengner@gov.mb.ca](mailto:Gerry.Bengner@gov.mb.ca).

Keith Lowdon, Director
