Honourable Eric Robinson
Minister
Aboriginal and Northern Affairs
Room 344, Legislative Building
Winnipeg, MB R3C 0V8

Dear Minister:

I have the honour and privilege of presenting the Annual Report of the Department of Aboriginal and Northern Affairs for the fiscal year ended March 31, 2013. I am pleased to report that the Department continues to make progress on provincial priorities and wish to highlight a few of these areas:

The Department made substantial progress on the implementation of Treaty Land Entitlement (TLE). Under the existing TLE agreements (nine), First Nations (29) may select or purchase a total of 1,423,110 acres. By the end of the fiscal year, Manitoba had made available to Canada approximately 706,133 (Crown and acquisition land) acres or 49% of the total acreage.

The Department participated in the official launch of the Métis Economic Development Fund (MEDF Inc.) in September 2012 to improve access to capital for Métis businesses and entrepreneurs, and assisted with planning and project funding for the establishment of the Mother Earth Recycling social enterprise with the Aboriginal Council of Winnipeg. The Aboriginal Economic and Resource Development (AERD) Fund supported 47 projects with its approved budget of \$1.010 million: the projects' total budgeted value was over \$24 Million and funding of \$22.3 million was leveraged from sources other than the provincial government for the AERD projects. This is in addition to the core and tripartite funding of Aboriginal organizations and the 33 small community-based projects supported through the Aboriginal Development Program.

The Department continues to coordinate provincial government support towards the Island Lake Retrofit and Training Initiative (ILRTI) and 100 homes in the four Island Lake communities of St. Theresa Point, Wasagamack, Garden Hill, and Red Sucker Lake were retrofitted with water and sewer services. Manitoba continues to work with the Steering and Technical committees which include representatives from the federal government, Island Lake Tribal Council and the communities to incorporate a community training approach to the 900 identified homes for water and sewer retrofits over the coming years in the Island Lake communities.

In November 2012 Manitoba hosted a National Aboriginal Women's Summit (NAWS III) which included a one day pre-workshop with families of missing and murdered Aboriginal women. Ministers of Aboriginal Affairs and Leaders of the National Aboriginal Organizations participated in an afternoon honouring ceremony with the families. Manitoba continues work with the Manitoba Action Group on Exploited and Vulnerable Women, Project Devote, and the annual Wiping Away the Tears Gathering for families of missing and murdered Aboriginal women and girls. With Manitoba taking on the Chair for the Aboriginal Affairs Working Group (AAWG), the Department has provided extensive support and coordination for the national collaborative process with other provincial and territorial governments and National Aboriginal Organizations to address priority areas in Aboriginal education, ending violence against Aboriginal women and girls, and Aboriginal economic development.

The Department continues to make progress in closing the gap in critical infrastructure and programs that impact community health and safety. The Department provided communities with capital allocations for needed infrastructure upgrades and equipment as well as the necessary training with a priority on community health and safety.

The support provided to communities for the upgrading, operation and maintenance of community water and wastewater treatment facilities and waste disposal grounds continues to be a priority. Environmental Services Consultants continue to work with communities to maintain water and wastewater services and solid waste disposal sites, and to assist with the resolution of any operating issues as they arise.

Canada, Manitoba and Sioux Valley Dakota Nation successfully concluded negotiations for the Sioux Valley Dakota Nation Governance Agreement and Tripartite Governance Agreement and are planning a signing ceremony for the fall of 2013. This may serve as a model for future First Nation self government agreements in Manitoba.

The Department continues to support the Manitoba Government through the work of the Aboriginal Consultation Unit (ACU). ACU continues to assist provincial departments in the coordination of Crown Aboriginal consultations across the province.

I would like to take this opportunity to thank you for your leadership and support for the many initiatives that enhance education, health, housing, economic development and employment opportunities. These initiatives and partnerships support our objectives to close the gap in social and economic circumstances between Aboriginal people and other Manitobans, and to achieve an improved quality of life for Aboriginal people and northern Manitobans. Our efforts in these areas contribute to better services, opportunities and results for Aboriginal and northern Manitoba communities.

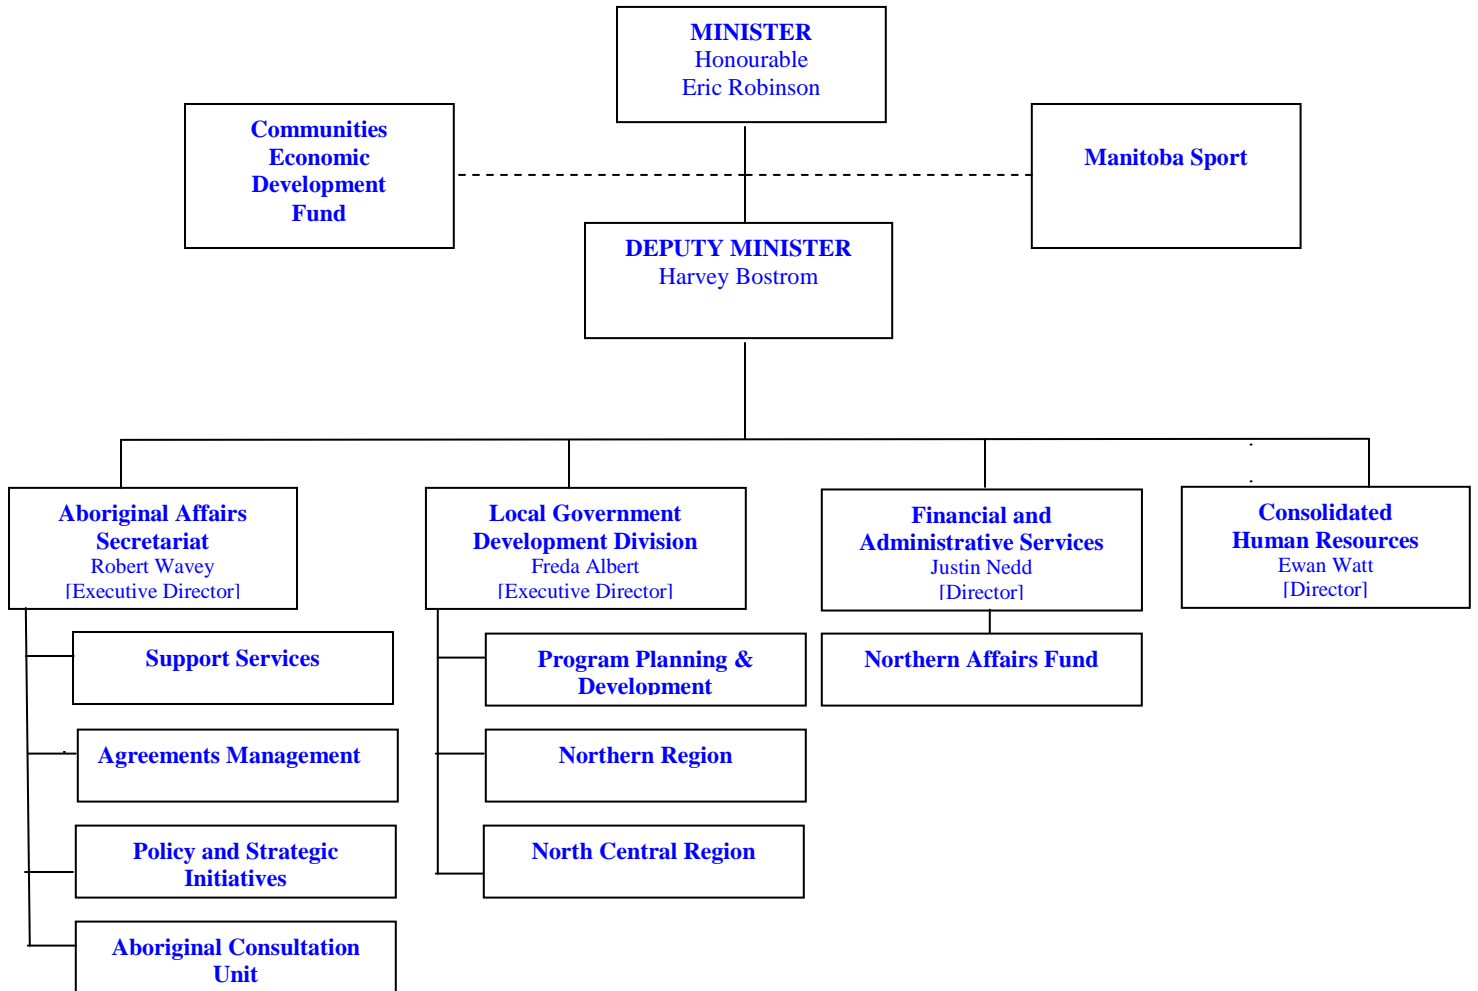

Respectfully submitted,

Harvey Bostrom
Deputy Minister

The Public Interest Disclosure (Whistleblower Protection) Act

The Public Interest Disclosure (Whistleblower Protection) Act came into effect in April 2007. This law gives employees a clear process for disclosing concerns about significant and serious matters (wrongdoing) in the Manitoba public service, and strengthens protection from reprisal. The Act builds on protections already in place under other statutes, as well as collective bargaining rights, policies, practices and processes in the Manitoba public service.

Wrongdoing under the Act may be: contravention of federal or provincial legislation; an act or omission that endangers public safety, public health or the environment; gross mismanagement; or, knowingly directing or counseling a person to commit a wrongdoing. The Act is not intended to deal with routine operational or administrative matters.

A disclosure made by an employee in good faith, in accordance with the Act, and with a reasonable belief that wrongdoing has been or is about to be committed is considered to be a disclosure under the Act, whether or not the subject matter constitutes wrongdoing. All disclosures receive careful and thorough review to determine if action is required under the Act, and must be reported in a department's annual report in accordance with Section 18 of the Act.

The Department of Aboriginal and Northern Affairs is pleased to report that during the 2012–2013 fiscal year there were no issues/matters pertaining to any section of this Act.

- To provide accounting and trust services in support of the delivery of various government programs.

Local Government Development

Freda Albert - Executive Director

The Executive Director advises the Minister and Deputy Minister on matters related to policy and program development and implementation and the delivery of municipal services and infrastructure in the unorganized territory of northern Manitoba. Programs and operational support develops and facilitates inter-departmental partnerships that support community and economic development in northern Manitoba. It also supports the development of local government and promotes incorporation as a means for communities to realize greater autonomy. It leads and supports the activities of three operational units - the Northern Region, the North Central Region and the Program Planning and Development Branch, collectively referred to as the Local Government Development Division.

The Local Government Development Division supports and facilitates the provision of municipal services and infrastructure in 50 designated communities in the unorganized territory of northern Manitoba as defined by the *Northern Affairs Act*. The Division is committed to the advancement of independent, sustainable local government through a process of partnership and consultation. This commitment is guided by three objectives:

Good Governance – To support the development of responsible local government through elected community councils and the effective and efficient delivery of municipal services.

Improved Quality of Life – To promote safe and healthy communities with a focus on safe drinking water, protection of the environment, recreation and wellness programs that meet local needs, public safety and strategic economic development in support of sustainable communities and a stronger economy in northern Manitoba.

Holistic Community Development – To support and facilitate development initiatives that are community-driven, sustainable and collaborative, in partnership with community councils and other provincial departments, jurisdictions and organizations.

Activities during 2012/13 in support of these three objectives included:

Community Consultation

- The regional workshops for community councils were held in February 2013 (Thompson & Winnipeg), centered on the theme of *Good Governance*. Local Government Development (continued)

Northern and North Central Regions

The Local Government Development Division serves 50 designated communities through regional offices located in Thompson and Dauphin with sub-offices in The Pas and Winnipeg. The Division is responsible for the provision of consulting and advisory services related to the planning, administration and delivery of municipal services and capital projects. Other responsibilities include the coordination of service delivery by other provincial government departments and strategic partnerships with other government departments and agencies to improve the social, economic and environmental conditions in northern communities.

Staff working out of the regional offices and sub-offices delivered the following programs throughout the fiscal year:

Municipal Administration Program

Municipal Development Consultants provide on-going support throughout the year to elected councils, community contacts and community administrative staff in areas of accounting and administration, planning, financial management and reporting.

- A Community Administrative Officer (CAO) workshop is held every two years. The 2012 workshop was held in Winnipeg November 4 to 6, 2012 with 20 participants. Presentations were provided on financial statements/audit debrief, inventory process/year-end count, Manitoba Community Places Program, conflict of interest, reflection on regular election, 100 years of CAO experience, employment standards and business of human rights in the workplace. A facilitated interactive session was held to provide a forum for the CAO's to formally network and learn from each other's challenges and successes.
- The regular election was held on October 24, 2012; 36 councils were required to receive an orientation. There were 94 terms up for election (24 mayors and 70 councillors) and of those elected, 42 were new and 51 were incumbents.

Northern and North Central Regions (continued)

Environmental Services Program

Support for the upgrading, operation and maintenance of community water and wastewater treatment facilities and waste disposal grounds continues to be a priority. Environmental Services Consultants continued to work with communities to maintain water and wastewater services and solid waste disposal sites, and to assist with the resolution of any operating issues as they arose.

A major component of the Environmental Services Program is the water treatment and wastewater treatment upgrading program and the certification of community operators and back-up operators.

Water, Wastewater and Solid Waste Infrastructure

- The status of water, waste water and solid waste facilities at year end is as follows:
 - Of 34 water treatment plants being upgraded or replaced; 13 are complete, six underway, eight planned, five requiring maintenance only and two removed to share services with the neighboring community.
 - Of the 25 community operated wastewater treatment plants; 15 are complete, one is underway, nine are planned.
 - Of 36 solid waste facilities four are complete, six are underway, seven are planned and 19 require maintenance.

Water & Wastewater Operator Certification

The number of operator certifications is low due to operator turnover, vacant positions and operators allowing their certification to expire. The Department has contacted training providers to offer tailored courses at locations more conducive to learners starting Fall 2013. Courses will be available twice a year. The Department is exploring innovative training opportunities in partnership with Workplace Education Manitoba to develop operators who have not yet received certification as well as investigate potential trades designation.

Public Works Program

Technical and Public Works Consultants work with community councils and public works employees on an on-going basis to facilitate the optimum maintenance of community infrastructure and developing community self-sufficiency in the public works area. The ANA Public Works program also includes Workplace Safety and Health. The 2012/13 fiscal year had Departmental Public Works (PW) and Workplace Safety and

There are two areas of the ANA Protective Services program that have been under review for the past two fiscal years (constable and fire). Until the reviews are completed, communities have been operating with no changes to funding or training since the 2010/11 fiscal year. It is anticipated the reviews will be completed in 2013.

- Efforts continued in support of certified fitness leaders. Participants that were certified in 2010/11 are still leading fitness programs in their communities.

- Twelve community recreation leaders attended the annual Recreation Connections Conference. This conference offers professional development and networking opportunities not available elsewhere. Department financial support, encouraged participation by communities that otherwise, could not afford to do so.

- Twenty-eight participants attended a mix of training which included: The Healthy Together Now Regional Committee Workshop, High Five Workshop, Bridging the Waters Conference-Recreation/Wellness & Suicide Awareness, Recreation Connections, and Parkland Recreation-Fitness Workshop.

Program Planning and Development (PPD)

The Program Planning and Development (PPD) Branch provides consistent policy and program development as well as support for strategic and operational planning and performance measurement; also communication services, resource material development, research and analytical capability in support of local government and community development.

The PPD staff are assigned to various program areas and are responsible for program review and innovation. In addition to support provided to specific program areas, the branch managed the Northern Healthy Foods Initiative and Northern Youth Empowerment Initiative, participated in numerous inter-departmental and inter-jurisdictional working groups, administered departmental and community recognition programs and provided support for the re-location of flood evacuees.

Northern Healthy Foods Initiative

Annual partnership funding was provided to five community based organizations. Partnership funding leveraged from the Province was \$111.00. Projects accessed additional funding from other sources in the amount of \$421.1. In-kind project contributions totaled \$289.7. Ninety-one communities were provided assistance to implement a variety of activities. There were 978 gardens planted that were tended by 1,026 gardeners and approximately 176,309 lbs of vegetables were harvested. Four hundred and eighty eight freezers have been distributed, 61 back yard greenhouses/geodesic domes were supported, and 31 families in 16 communities raised livestock.

Partners are experiencing overwhelming demand for support in communities. Time and financial resources are stretched in terms of meeting the need. Partners are working hard to assist while developing local level capacity.

Northern Youth Empowerment Initiative (NYEI) and Northern Water Safety Program

- NYEI – Eight projects were funded in the year for a total of \$96,871. Thirty-eight grants in total since 2007 amounting to approximately \$600,000.
- Northern Water Smart Program visited 36 communities during the summer of 2012.

Communities Economic Development Fund

Gordon Wakeling - General Manager and CEO

The Communities Economic Development Fund (CEDF) is a provincial Crown Corporation (*Communities Economic Development Fund Act – C155 Consolidated Statutes of Manitoba*) whose objective is to encourage economic development in Northern Manitoba with specific emphasis on the needs of small business and community development corporations. It may do so by providing financial and other forms of assistance. CEDF delivers services under three program areas.

The Business Loans Program provides financial assistance in the form of loans and loan guarantees for viable economic enterprises. The loan applicants must comply with specific criteria, established in regulations, to become eligible. Business loans can be for the purposes of start-up, expansion, and in certain cases, restructuring.

The Fisheries Loan Program provides capital to the commercial fishing industry, assisting fishers with the purchase or repair of fishing equipment and the purchase of quota entitlements, and investing in processing, handling, and marketing facilities. The program is available to licensed Manitoba commercial fishermen as well as to Manitoba based businesses handling solely products harvested or grown in the province.

CEDF delivers community economic development based programming including technical assistance to local entrepreneurs, and to community development corporations and economic development offices. In addition, CEDF delivers programs under the Rural Economic Development Initiative on a contract.

CEDF is managed by a Board of Directors which reports to the Minister Responsible for the CEDF Act, currently the Minister of Aboriginal and Northern Affairs.

Details of the CEDF programs, and its Annual Report and detailed Financial Statements are available at its website www.cedf.mb.ca .
