PREFACE

The *Preset Fines and Offence Descriptions Regulation* authorizes abbreviated wording and the fine payable for offences issued on a ticket.

Schedule A to the *Preset Fines and Offence Descriptions Regulation* sets out the authorized abbreviated wording and the Fine Payable coding for numerous provincial statute and regulatory offences.

An electronic version of the complete *Preset Fines and Offence Descriptions Regulation* under *The Provincial Offences Act* is available to the public, all enforcement agencies, and court centres on the Manitoba Government website:

[Link to the Preset Fines and Offences Regulation](#)

An electronic version of the Brown Book is available on the Manitoba Justice website:

[Link to the Manitoba Brown Book](#)

The most recent amendments in the Brown Book will be highlighted yellow. When printed using grey scale, the highlights will appear as light gray.

For federal offences under the *Contraventions Act*, please refer to the *Contraventions Act* regulations – these are located on the federal government website:

[Link to the Contraventions Regulations](#)

NOTE: All tickets must contain a preset fine amount. If an offence does not have a preset fine amount, the enforcement officer must proceed by Information.

BROWN BOOK CONTAINS “COMMON” OFFENCES ONLY

The Brown Book is a **partial reprint** of the *Preset Fines and Offence Descriptions Regulation*, containing offences commonly issued by a variety of enforcement agencies for easy reference purposes. If you would like to request that offences under specific

Act(s) and/or Regulation(s) be added to the Brown Book, please contact CourtForms@gov.mb.ca.

BROWN BOOK IS AN ADMINISTRATIVE TOOL

The Brown Book is a tool to be used by enforcement officers for easy reference purposes. If there is a discrepancy between the Brown Book and a statute, regulation or legislated rule, the statute, regulation or legislated rule prevails.

REFERENCE NOTES

CHOICE OF WORD OR PHRASE IN DESCRIPTION OF OFFENCE

A “bullet” (i.e. “●”) is used in the abbreviated wordings of the Brown Book to identify when there is a choice as to which word or phrase the enforcement officer will use when describing the offence.

OFFENCES NOT LISTED IN THE BROWN BOOK OR THE *PRESET FINES AND OFFENCE DESCRIPTIONS REGULATION*

For provincial statute or regulatory offences not covered in either the Brown Book or the *Preset Fines and Offence Descriptions Regulation*, enforcement officers must lay the charge on an Information and have the defendant make a court appearance.

“Corp”, “Deal”, OR “Ind” DEFINITION

In some cases, the appropriate set fine depends on whether the defendant is a Corporation, Dealer, or Individual. These situations are identified by a “Corp” for corporation, a “Deal” for dealer, or an “Ind” for individual, in front of the fine category.

FINE CATEGORIES

Each offence is assigned a letter (A to J) to indicate the fine category.

Each fine category equals a specific amount (see chart below) that the enforcement officer can enter as the “Fine Payable” on the Ticket. The Fine Payable for each category includes the preset fine, court costs, and applicable surcharges.

FINE CATEGORY	FINE PAYABLE
A	\$ 113.00
B	\$ 143.00
C	\$ 174.00
D	\$ 203.00
E	\$ 237.00
F	\$ 298.00
G	\$ 486.00
H	\$ 672.00
I	\$ 1,296.00
J	\$ 2,542.00
K	\$ 5,000.00

*** SOME SPECIFIC CALCULATIONS MAY BE REQUIRED**
For some offences there may be specific instructions for calculating the Fine Payable. Calculate as instructed and enter total in Fine Payable area on the ticket.

APPENDIX D - CHILD CAR SEAT SAFETY CHECK

HTA186(9) No person shall drive a motor vehicle on a highway unless every passenger who is of an age, weight or height specified in the regulations is properly seated and restrained in a child restraining device as required by the regulations.

EXEMPTIONS:

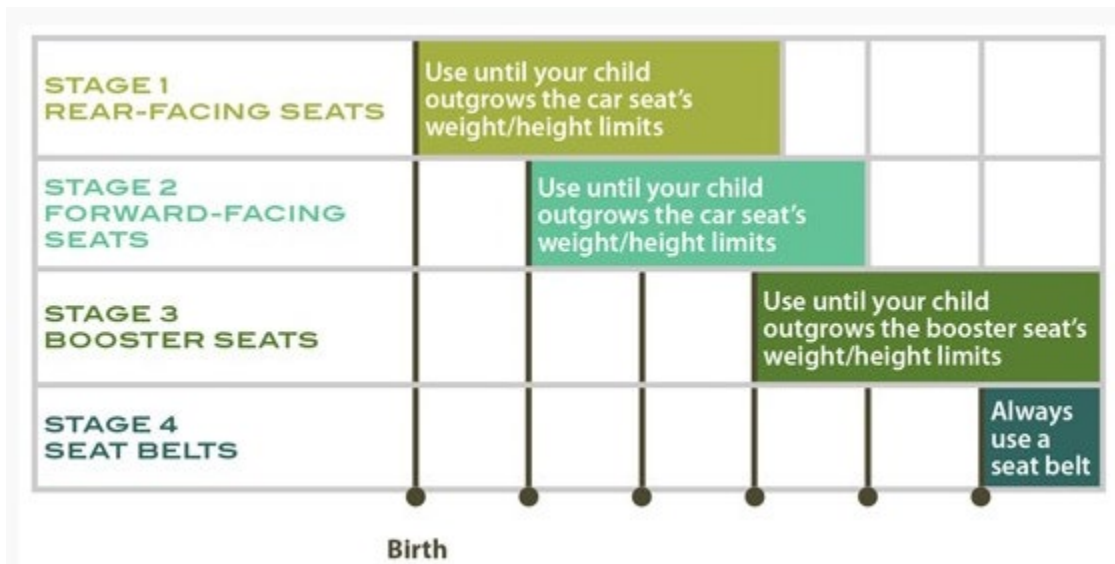

The requirement does not apply when:

- The motor vehicle is registered in a jurisdiction that does not require the use of child restraining devices by persons who are the passenger's age, weight or height or who have the passenger's physical characteristics or special needs;
- The vehicle is a rental vehicle that is rented for a period of 21 days or less;
- The vehicle is a taxicab or livery transporting a passenger for hire;
- The driver can present a medical certificate certifying that the person is, during the period stated in the certificate, unable for medical reasons to be seated or restrained in a child restraining device, and the certificate is produced to a peace officer on request;
- A child is being transported casually or occasionally by a person who is not the parent or guardian and the vehicle is not equipped with a child restraining device that is suitable for the passenger's use in accordance with this regulation;
- The motor vehicle is not required to be equipped with safety belts by the *Motor Vehicle Safety Regulations* (e.g. buses, vehicles manufactured before 1971).

The *Child Restraining Devices Regulation* requires the use of booster seats until children are at least:

- 145 centimetres (4'9") tall;
- 36 kilograms (80 pounds); OR
- nine years old.

Before using the Child Car Seat Safety Checklist on the next page – request the child’s age, weight and height, then refer to the manufacturer’s label on the seat to determine if the child is the appropriate weight and height for the seat.

LAW ENFORCEMENT

CHILD CAR SEAT SAFETY CHECKLIST

- Restraint used is appropriate for age, weight and height profile
- Child Car Seat is compliant with Canadian standards, is CMVSS approved and has the National Safety Mark (Canadian Maple Leaf sticker) visible on the child restraint.
Note: Exception for children/infants with disabilities/special needs requiring the use of a customized restraining device that is not CMVSS approved.
- Infants or children with disabilities requiring the use of a customized restraining device must be properly restrained in the customized restraining device.
NOTE: If a standardized child restraining device will not secure a child/infant properly, it is advisable for a parent/guardian to use customized restraining devices for children/infants with disabilities as an alternative to unsafe transportation and to obtain a document/letter from a medical/health practitioner or car seat manufacturer regarding acceptable use of customized restraining device that is not CMVSS approved
- Restraint is in correct position (front or rear facing): rear-facing for infants under the age of one, and front-facing for infants one year and older.
NOTE: This is a recommendation only; it is not law.
- Infant seat is not located in front of an active passenger air bag
- Infant seat: carrying handle is in the down position unless otherwise specified from the car seat manufacturer.
- Car seat: is secured snugly with either the lap belt (rear facing car seat stage only), lap/shoulder assembly, or latch system.
- Harness strap comes near child's shoulders, slightly above or below as required by manufacturer
- Chest clip is at the underarm level
- Forward-facing toddler seat is secured with a tether strap and an anchor bolt, and one of the following: a seat belt or latch system.
NOTE: the tether strap should be secured to an appropriate anchor bolt.
- Anchor bolt is drilled into the metal frame of the vehicle
- Tether strap is doubled back through the adjuster slide to prevent slippage.
NOTE: not required for airline type buckles
- Head and neck are supported to prevent whiplash
- For seatbelt assemblies with emergency locking retractors: free sliding latch plate has a locking clip
- Harness strap is snug – one finger fits snugly between the harness strap and the child's chest
- Harness strap is doubled back through the adjuster slides or they are attached to a metal harness bracket to prevent slippage
- Booster seat: shoulder strap of seat belt assembly passes over the chest and shoulder of a child and that the lap belt fits snug across the child's hips
