**Subject:** Laceration requiring medical attention should NOT be considered a SERIOUS incident. It could be changed to 'If 10 stitches or more are required' or removed?

I would like to request the following be looked at and possibly have the wording changed:

Laceration requiring medical attention should NOT be considered a SERIOUS incident. It could be changed to 'If 10 stitches or more are required' or removed?

I know Workplace Safety is busy, but there may be value in making a change that : Laceration requiring medical attention should NOT be considered a SERIOUS incident! A LOT of time is spent to do investigations on these minor incidents.
