

## **PART 18 Radiation**

**Previous Regulation(s):** NEW– Previously enforced through other regulatory requirements.

### **Summary of requirements:**

- **Exemption** – This part doesn't apply to radiation sources subject to the Nuclear Safety and Control Act and radiation provided to medical or dental patients.
- **Safe work procedures** must be developed, implemented, and workers trained.
- **Exposure controls** – Where workers are, or may be, exposed to levels of radiation that are in excess of the limits established in the ACGIH TLV an employer must implement procedures that control exposure.
- **Duty to inform workers** – employer must inform workers who may be exposed to radiation of the potential hazards of radiation exposure.
