

CLASSROOM IN THE LEGISLATURE

Experience a day in the life
of Manitoba's Legislature

What is it?

The Classroom in the Legislature program is a non-partisan program open to all Manitoba citizens – students, seniors, special interest groups! It is a unique way to have democracy come to life by bringing your group down to the historic Legislative Building or by us bringing the democratic process to you! The democratic process is the core of Manitoba society and this hands-on experience will ignite enthusiasm for the process at any age!

For Manitoba students

Teachers instructing students in Grades 4 through 12 are encouraged to take part in this exceptional, non-partisan program. The Classroom in the Legislature program combines discussion and inter-active games to bring the democratic process alive for your students. Programs have been designed to incorporate Manitoba social studies curriculum components as it pertains to the democratic system. When you book your classroom visit at the building, a tour and, if the Legislature is in session, viewing of House proceedings can also be included. Don't forget - we'll come to you! Schools that can't get to the Legislative Building can have the Classroom in the Legislature brought to their school!

Special Interest groups

Special interest groups are encouraged to book a classroom session. If there is a particular topic related to our democratic system that your group would like to know more about, the classroom can be tailored to meet that request.

How to reserve

Classroom in the Legislature sessions must be booked in advance (this program is free of charge). For further information on this exciting program or to book a classroom session at the Legislative Building or at your school or group location, please contact:
