# INTRODUCTION

The Hansard Index is designed to provide easy access to topics discussed in the Legislative Assembly. For this reason it corresponds strictly to the text of the Manitoba Hansard.

## FORMAT

The index is in two sections: (1) Subject index, and (2) Appendices.

**Subject Index:** Main entry in this section is a subject heading which may be subdivided. Following the main entry are secondary headings, "see" and "see also" references, and a listing of individuals who spoke on that subject.

**Appendices:** Included in this section is a complete list of Oral Questions by department, Members of the Executive Council, and Chairpersons of Standing and Special Committees.

## FILING ARRANGEMENT

The basic filing principle is alphabetical, letter by letter.

The sequence is as follows:

- a) numbers are filed at the beginning of the alphabet, if they are the first character in the filing element
- b) initials separated by punctuation are filed at the beginning of their alphabetic group
