

LEGISLATIVE ASSEMBLY OF MANITOBA

VOTES AND PROCEEDINGS No. 77

THIRD SESSION, THIRTY-NINTH LEGISLATURE

PRAYER

10:00 O'CLOCK A.M.

By leave, it was agreed for the House to deal with Second Reading of Bill (No. 234).

Mr. FAURSCHOU moved:

THAT Bill (No. 234) – The Public Interest Disclosure (Whistleblower Protection) Amendment Act/Loi modifiant la Loi sur les divulgations faites dans l'intérêt public (protection des divulgateurs d'actes répréhensibles), be now read a Second Time and be referred to a Committee of this House.

And a debate arising,

And Mr. FAURSCHOU, Hon. Ms. WOWCHUK, Mrs. TAILLIEU, Hon. Mr. RONDEAU, Messrs. SCHULER and LAMOUREUX having spoken,

And Hon. Mr. BJORNSON speaking at 11:00 a.m. The debate was allowed to remain in his name.

Mrs. STEFANSON moved:

Resolution No. 25: The Protection of Lake Winnipeg

WHEREAS the City of Winnipeg is undertaking costly upgrades to its wastewater treatment plants, a component of which involves nitrogen and phosphorus reductions; and

WHEREAS in September 2008 the Provincial Government asked the Clean Environment Commission (CEC) to review nutrient removal and ammonia treatment strategies for the City of Winnipeg; and

WHEREAS an eminent group of 63 scientists from Canada, the United States and Israel – including internationally-renown ecology professor David Schindler – advised the CEC on December 19, 2008 that *“Removing nitrogen will at best do nothing, and at worst, increase the dominance of the filamentous nitrogen-fixing cyanobacteria that are the public face of eutrophication in Lake Winnipeg and in many other lakes.”*; and

Thursday, October 8, 2009

WHEREAS these respected scientists also advised the CEC that “*Resources intended for nitrogen reductions would be better spent on a more comprehensive management strategy for phosphorus in the Lake Winnipeg watershed, especially in the Red River Basin.*”; and

WHEREAS a recent case study prepared by a City of Winnipeg engineer determined that requiring the City to treat wastewater for both nitrogen and phosphorus at its North End treatment plant could drive up costs to taxpayers by \$750 million more over 20 years; and

WHEREAS a September 24, 2009 *Winnipeg Free Press* editorial stated that on the nitrogen removal debate, “the Doer government...has shown its resilience to reason and science.”

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to acknowledge that requiring the City of Winnipeg to remove nitrogen at its wastewater treatment facilities could have undesirable environmental consequences such as promoting blooms of cyanobacteria in Lake Winnipeg; and

BE IT FURTHER RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to acknowledge that the money saved by requiring the City of Winnipeg to focus its wastewater treatment strategy on phosphorus – and not nitrogen – could be better spent on a broader management strategy aimed at reducing phosphorus in the Lake Winnipeg watershed.

And a debate arising,

And Mrs. STEFANSON, Hon. Ms. MELNICK, Hon. Messrs. GERRARD and BJORNSON and Mr. FAURSCHOU having spoken,

And Hon. Mr. STRUTHERS speaking at 12:00 p.m. The debate was allowed to remain in his name.
