LOG:

SUBJECT: **EIA: Town of Neepawa's Industrial Wastewater Treatment Facility (SW 35-14-15 WPM)**

The Historic Resources Branch has reviewed the location of the proposed alteration to the Town of Neepawa's Industrial Wastewater Treatment Facility in the SW ¼ of Section 35 Township 14 Range 15 WPM. Our records indicate that the possibility of potential to impact significant heritage resources is low, and, therefore, at this time, the Historic Resources Branch has no concerns with the project.

If at any time however, significant heritage resources are recorded in association with these lands during development, the Historic Resources Branch may require that an acceptable heritage resource management strategy be implemented by the developer to mitigate the affects of development on the heritage resources.

If you have any questions or comments, please contact me at 945-7730.
