

Application for Pipeline Operating Licence

1. A holder of a valid pipeline construction permit can make application to the Minister under Section 152 (2) of *The Oil and Gas Act* for approval for a pipeline operating licence once construction of the line is complete. The application shall include:
 - a. report summarizing pipeline construction activities, including:
 - i. statement indicating completion and compliance with all terms and conditions in Pipeline Construction Permit and Environmental Licence, if required;
 - ii. status of clean up and rehabilitation with the pipeline ROW and temporary work areas; and
 - iii. status of any environmental issues encountered during pipeline construction.
 - b. Digital copy of the “as-built” plan of the complete pipeline that includes:
 - i. pipeline ROW; and
 - ii. terminal, LACT, pump stations, and/ or end points of the pipeline;
 - c. Digital shape file of the as-built location of the pipeline as per Informational Notice 15-02. The file shall use UTM NAD 83, zone 14N projection.
 - d. PDF copy of the most recent operations and maintenance manual for the pipeline.
 - e. Pipeline integrity confirmed by:
 - i. original charts of hydrostatic testing; and
 - ii. statement regarding results of x-ray or other testing procedures deemed acceptable by the Branch.
 - f. Proposed maximum operating pressure.
 - g. Requested startup date and start up procedures for the pipeline.
2. The submission shall be signed by an officer of the company making application.
3. Email the application to: Peter.Mraz@gov.mb.ca and Leonardo.Leonen@gov.mb.ca.
4. For further information, please contact Peter Mraz at (204) 945-6576 or Leo Leonen at (204)-945-6570.
5. Be aware that all information submitted within an application is considered public information.
