Mr. T. Morgan,  
Chief Mining Recorder.

Aquitaine Company of Canada Ltd.

Attached, hereto, Statutory Declaration,  
submitted by the above company, relative to the expenditures  
incurred in respect to Oil Shale Reservation No. 9.

This is to advise that the \$12,596.00  
reported is accepted as being expenditures incurred in satis-  
factory investigations relating to subsurface geology. As  
this amount is in excess of the \$9,000.00 expenditure re-  
quired to maintain the reservation in good standing for  
two years, the \$4,500.00 guarantee deposit may be returned  
to the company.

J. S. Richards.

Aquitaine Company of Canada Limited  
234 - Hudson's Bay Oil & Gas Building  
320 - 7th Avenue Southwest  
Calgary, Alberta

Gentlemen:

Attached Oil Shale Reservation No. 9 in the name of Aquitaine Company of Canada Limited. I am also enclosing Official Receipt Nos. G 7551 covering application fee of \$250 and G 7552 in the amount of \$4,500 covering guarantee deposit. A refund in the amount of \$3,000 has been requested and a cheque will be forwarded in the future.

This is to advise that for the purposes of fulfilling your obligations in respect to these reservations "Surface Geology" shall mean the study and sampling, by any means including boring, the rocks exposed at the surface or the entire thickness of the formation sub-cropping immediately and vertically below the overburden at the test site. Boring through, or removal of overlying formations (apart from overburden) to sample or study an underlying formation shall not be considered "Surface Geology". The word "formation" shall mean the Riding Mountain, Vermillion River, Favel or Ashville formation, as classified in "Geology and Mineral Resources of Manitoba". The word "study" shall include the determination of the bitumen content of the rock, but shall not include any other type of analysis.

Yours truly,

T. Morgan  
Chief Mining Recorder

Reservation of Oil Shale Rights No. 9

In consideration of and subject to the provisos, conditions and restrictions hereinafter contained, permission is hereby granted to:

Aquitaine Company of Canada Limited,  
234 - Hudson's Bay Oil & Gas Building,  
320 - 7th Avenue. Southwest,  
Calgary, Alberta.

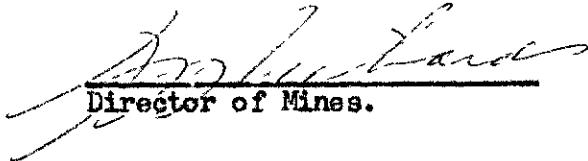

its successors and assigns, to carry on geological and geophysical examinations or both, including investigations relating to sub-surface geology on the following lands, namely:

<u>Township</u>	<u>Range</u>
15, 16, 17, 18, 19, 20	15
15, 16, 17	16
15, 16, 17, 18	17

all West of the Principal Meridian, containing 118,859.40 acres, more or less. See Attached List.

This reservation is subject in all respects to "The Mines Act" and Part X of Manitoba Regulation 29/50 governing the disposal of boring claims; and any amendments thereto, until the cash deposit required under subsection 2 of Section 192C of the said regulation is made, the examination shall be restricted to surface geology.

Dated at Winnipeg this  
23rd day of September, 1964.

  
John L. Larson  
Director of Mines.

Oil Shale Regulations 42/64

Dept. of Mines and Natural Resources

We have received a submission from The Atlantic Refining Company, verbally supported by Aquitaine Limited, both holders of oil shale reservations in Manitoba, pointing out difficulties in working under the two categories a) surface exploration and b) subsurface exploration. Sun Oil Company previously had made reference to similar difficulties which we apparently resolved to their satisfaction by our liberal interpretation of "surface exploration". The facts seem to be that strict surface exploration is of little value in assessing oil shales and that drilling (subsurface) to obtain fresh samples is necessary. Our regulations require a work commitment of \$750.00 for each 20,000 acres for surface exploration and \$2000.00 for each 20,000 acres for sub-surface exploration. It may be that the distinction between "surface" and "subsurface" is not practical in oil shale exploration.

A further objection to the existing regulations is that the work commitments during extensions are not spelled out. I believe the intention was that the commitment for each year's extension was to be the same as for the original 1 year period. However the regulations could be interpreted to mean that no work is required during extensions granted by the Director and the Minister.

We are proposing that we eliminate the distinction between surface and subsurface work and bring our work commitments in line with those of Saskatchewan both for the original 1-year reservation and the 2-subsequent renewals (granted by the Director and the Minister respectively).

The requirements would then be: for each 20,000 acres or portion thereof:  
first year - \$400.00  
second year - 800.00  
third year - 1200.00  
fourth year - at discretion of Lieutenant-Governor-in-Council.

The following show the amendments to the regulations required to effect these proposals. The Saskatchewan rates are 2 cents per acre the first year, 4 cents the second year, and 6 cents the third year.

Section 192C (1) (b) after the words "a cash deposit" add "of \$400.00" and delete the word "of" after the word "reservation".  
Add a period after the word "reservation"

192C (1) (b) (i) delete  
192C (1) (b) (ii) delete  
192C (2) delete

192K (2) Delete the period after "satisfactory progress reports" and add "and upon payment of a cash deposit of \$800.00 for each 20,000 acres or portion thereof comprising the area of the reservation".

# COPY

- 2 -

192K (3) Delete the period after "comprising, the reservation" and add "and a cash deposit of \$1200.00 for each 20,000 acres or portion thereof comprising the reservation".

It is suggested we arrange to meet with representatives of the 3 companies concerned with oil shales in Manitoba, the afternoon of June 23rd.

M. J. Gobert

P.S. Mr. Richards has confirmed that the afternoon of June 23rd is satisfactory to Sun Oil. Mr. Gilbert suggested that, if necessary, the discussion of their program could be held in the evening.

Dear Sir:

RE Oil Shale Reservation No 19

In response to your letter of September 7, 1965, we enclose reports detailing the results of the investigations carried out in our behalf on the above reservation.

Enclosed also is a statement of expenditures verified by an independent auditor. All travel and living expenses have been omitted from the statement.

We trust that this material is sufficient to enable you to authorize refund of the applicable portion of the deposit. If further information is desired, we will endeavor to supply it promptly upon your request.

Yours truly,

AQUITAINE COMPANY OF CANADA LTD.

Dear Mr. Pradal:

This is to advise that the information submitted with your letter of August 25th is accepted as a satisfactory statement for the purpose of renewing Oil Shale Reservation No. 9 for a term of one year to September 23, 1966, in accordance with subsection (2) of Section 192K of the Regulations. However, no refund of any portion of the deposit held by this department will be refunded until such time as the following additional information is supplied:

1. Reports detailing the results of the investigations carried out by Messrs. Carrel and Tortochaux, as listed in Items 1, 2, and 3 of your Progress Report.
2. A tabulation of the core analysis.
3. A statutory declaration, verified by an independent auditor, giving a breakdown of the several items listed in your Statement of Estimated Expenditures.

I would also advise that we do not consider the plane fare from France to Canada and return, nor expenses on a trip of this nature, as an allowable expense.

Would you kindly submit the declaration of expenditures in sufficient detail to enable us to determine the nature of all expenditures.

Yours very truly,

J. S. Richards,  
Director of Mines.

Attention: Mr. J. S. Richards  
Director of Mines

Dear Sir:

Re: Oil Shale Reservation No. 9

Following our telephone conversation of the 23 August, 1965, we are sending you a Progress Report and a Statement of our expenses, for the current year starting September 23, 1964, relative to our Oil Shale Reservation No. 9.

We would be pleased if you would advise us whether our work and expenses appear to be sufficient as to allow us to renew the above mentioned reservation, without the loss of the deposit, as there will have been more than 90 days between the time when the work was done on the land and the expiry date of the reservation.

Due to the fact that the core analysis is still in progress at present, the enclosed statement of expenses is of a temporary nature, and it is understood that once we are notified of the cost incurred by the analysis, we will submit to you a final statement of accounts.

Yours truly,  
AQUITAINE COMPANY OF CANADA LTD.

## MANITOBA OIL SHALES RESERVATIONS NO. 9

### PROGRESS REPORT

#### I. April 1965

Mr. CARREL's Bibliographical study on the Cretaceous Oil Shales of Manitoba (17 days).

#### 2. 6 May to 11 June 1965

Mr. TORTOCHAUX's Mission  
Sampling of the Upper Cretaceous Formations of Northern Manitoba (35 samples).  
Sampling of the Upper Cretaceous Formations from reservation No. 9 and in the immediate vicinity. (32 samples)  
Selection of locations for future possible core sampling, (7 locations held.)

#### 3. June 1965

Preparation of a programme of core sampling according to the facts collected from the study of the land.

MR. CARREL 10 days MR. TORTOCHAUX 8 days.

#### 4. August 1965

The analysis of the samples at the "Centre de Recherches" of the Société Nationale des Pétroles D'Aquitaine, (in progress at the moment).

Attention Mr. J S Richards,  
Director of Mines

Dear Sir:

Re: Manitoba Oil Shales Regulation 42/64

In confirmation of your telephone conversation of July 12, 1965, with Mr. J. Borocco, we wish to advise you that Aquitaine Company of Canada is in complete agreement with the conditions set forth in a letter presented to yourself by Mr. Torfason of Atlantic Refining Company, and dated June 30, 1965.

As the core hole operations of Aquitaine Company are being delayed until the amendment of the regulations, we are very anxious to see the changes brought into effect.

We are very eager to have Clause 192S accepted, because the majority of our laboratory work and a great part of our office work is done in France, on the one hand because of the small staff Aquitaine has here at present, and on the other hand, due to the fact that our Oil Shales office is located in France.

Trusting that you will reach a prompt solution to the above, we remain,

Yours truly,  
AQUITAINE COMPANY OF CANADA

J. Borocco  
Chief Geologist

MAY 19 1965

DIRECTOR OF MINES

Dear Sir:

In accordance with the conversation between yourself and Messrs J. Borocco, and F. Tortochaux, upon their visit to your office on May 13th and 14th, this is to inform you that the effective works have in fact begun on Oil Shale Reservation No. 9, on Monday the 17th, this first step included a general survey of the lands; next, that is, within a couple of weeks, we intend to make some geological sections and to collect samples, at a further date, if the regulations allow us to make some core-drills within the frame of our present rights, we shall possibly drill such holes.

Also included herewith, please find my warmest thanks for the good welcome Messrs. J. Borocco and F. Tortochaux received from your staff.

Yours very truly,  
AQUITAINE COMPANY OF CANADA LTD,

L. Pradal,  
Vice-President.

Aquitaine Company of Canada Limited -

Oil Shale Reservation.

Returned, hereto, original letter of application for an Oil Shale Reservation, submitted by Aquitaine Company of Canada Limited, dated August 26, 1964.

As this application has been duly approved by the Minister, it is now in order to proceed with the preparation of the reservation.

Mr. Stuart Anderson,  
Deputy Minister.

Aquitaine Company of Canada Ltd.,  
Oil Shale Reservation.

DEPARTMENT OF MINES  
& NATURAL RESOURCES  
SEP 14 1964  
DIRECTOR OF MINES

Attached, hereto, the original and a copy of an application from the above company for an oil shale reservation south of the area held by Sun Oil Company. The total acreage of Crown mineral rights in the area applied for is approximately 118,860 acres, requiring a fee of \$250 and a cash deposit of \$4,500. These sums have been received.

As you are aware, Section 192A of the Regulations provides that the granting of all such reservations are "Subject to the approval of the minister .....".

We are forwarding, herewith, two copies of a map 16 miles to 1 inch, showing the Sun and Aquitaine acreage.

Also attached some notes, giving the names of the company officials who made the application, and some information relative to the company's operations. This material has been typed but a copy of the original is also enclosed as it is not entirely legible. The geological maps of this area indicate that outcrops are fairly numerous.

If satisfactory, would you kindly have the approval indicated on the original application, and return it to this office.

Chief Mining Recorder,  
Department of Natural Resources,  
WINNIPEG, Manitoba

Dear Sir:

Aquitaine Company of Canada Limited, a Dominion Company registered in Manitoba, is submitting hereunder, application for geological exploratory Permit (Oil Shale) on the Crown Lands situated on the following area:

Township 15, Range 15 - W1M  
Township 15, Range 16 - W1M  
Township 15, Range 17 - W1M  
Township 16, Range 15 - W1M  
Township 16, Range 16 - W1M  
Township 16, Range 17 - W1M  
Township 17, Range 15 - W1M  
Township 17, Range 16 - W1M  
Township 17, Range 17 - W1M  
Township 18, Range 15 - W1M  
Township 18, Range 17 - W1M  
Township 19, Range 15 - W1M  
Township 20, Range 15 - W1M

AUG 26-64 1928 E

The intended programme of exploration would consist of:

1. General studies of the area, based on published literature and field mapping.
2. Adequate sampling of potentially bituminous shale.
3. Analysis of collected samples.
4. Technical and economical studies designed to ascertain the possibility of commercial exploration of "Oil Shale" deposits in the applied for area.
