

Regulation Update

Designation of the Red Seal trade of Construction Craft Worker in Manitoba

On July 21, 2010, the Manitoba government registered a new regulation to designate the trade of Construction Craft Worker as an apprenticeable trade in Manitoba.

Apprentice Eligibility

To be eligible for registration as an apprentice in the trade, an individual must be employed and:

- have attained a diploma from a Canadian secondary school or the equivalent in a non-Canadian jurisdiction;
- be a High School Apprenticeship Program participant; or
- be an Access Program trainee.

Term of apprenticeship

The term of apprenticeship in the trade is two levels, with each level consisting of a period of at least 12 months during which the apprentice must complete 1,800 hours of technical training and practical experience.

Certification examination

The certificate examination in the trade consists of a written interprovincial examination.
