
Ag Action Manitoba Program

Research and Innovation

One program. Built with you in mind.

A Program Guide to the Terms and Conditions

2018-2023

Version 1

Ag Action Manitoba

One program. Built with you in mind.

Ag Action Manitoba is a five-year, \$176 million, all-encompassing program offered to farmers, agri-processors, industry organizations, researchers and industry service providers.

Ag Action Manitoba supports a wide variety of activities and strategic investments. This guide focuses on program activities directed towards researchers.

Researchers can apply for funding aimed at advancing the pace of innovation through industry-led discovery and applied research.

The Ag Action Manitoba program, funded under the Canadian Agricultural Partnership, is administered by Manitoba Agriculture. Manitoba Agriculture staff are available to advise, support and work with applicants to help them reach their goals and to help the agricultural sector become more profitable, competitive and innovative.

Canadian Agricultural Partnership

The Canadian Agricultural Partnership is a \$3 billion, five-year investment by federal, provincial and territorial governments to help Canada's agriculture and agri-food sectors innovate, grow and prosper.

This investment is cost shared, with 60 per cent of funding provided by the federal government and 40 per cent by the provinces and territories. The provinces and territories deliver the Canadian Agricultural Partnership's programs to ensure they meet regional needs.

About This Guide

guide provides applicants with further details related to Ag Action Manitoba's cost share funding assistance.

Manitoba Agriculture will update the guide regularly and it is subject to change without notice. New opportunities may be made available during the term of the Ag Action Manitoba program.

For more information, contact Manitoba Agriculture at:

SECTION 1

Program Description

The objective of the Research and Innovation activity is to advance the growth and sustainability of the agriculture industry by fast tracking the pace of innovation through basic and applied research, capacity development and knowledge transfer projects.

This can include the development of new technologies and practices, new products, and the advancement of knowledge.

Financial assistance is available across two funding streams:

- **basic and applied research and development**
- **capacity building (equipment investments greater than \$10,000)**

Within each of the two streams, proposed projects must focus on one or more of the following focus areas:

- **agri-resource management:** research that helps to increase knowledge and leads to new technologies and practices that mitigate environmental risk associated with agricultural activities including:
 - climate change mitigation and adaptation
 - efficiencies in water management
 - improvements to water quality
 - land management to conserve and build soil health; and
 - land management to enhance biodiversity.
- **economic and market analysis:** research that mitigates risk for the agriculture, agri-food and agri-product sector and aids in market development by advancing knowledge in risk mitigation, market intelligence, industry benchmarking, economic impact, labour markets and consumer behavior

- **grain innovation and crop production:** innovation in Manitoba's grain (cereals, oilseeds, pulses) and crop sector (forages, potato, special crops, and vegetable/fruit), including:
 - crop breeding, production and handling technologies and practices to increase productivity and reduce production risk
 - grain and crop utilization innovations that increase the value and expand demand for Manitoba grain and crops
- **livestock production:** research activities that lead to innovation in growing Manitoba's livestock sector, including:
 - technologies, practices and systems that increase productivity and reduce risk for livestock producers and the livestock sector
 - innovations that increase public trust in the livestock industry, and market value and demand for Manitoba's livestock and livestock products
- **processing and value added:** primary research projects that contribute to the advancement of the food and agri-product processing sector related to:
 - the development of by-products, co-products, and utilization of waste products
 - the development of new and innovative products that are superior to competitor products that will challenge or eliminate products that are imported
 - the improvement of existing processes or the development of new processes that lead to improved productivity, new product features, or cost savings for the applicant.

SECTION 2

Program Eligibility

Ag Action Manitoba supports research and innovation activities proposed by farmers, agri-processors, industry organizations, researchers and industry service providers.

Applicants do not need to reside in Manitoba, as long as the activities related to the application occur in Manitoba or have a positive outcome for Manitoba.

The chart below outlines who can apply to the specific program activities:

Eligible Applicants

Farmers	Existing, young and beginning producers, growers and ranchers Individuals, partnerships, or registered corporations, co-operatives, or any other associations of persons actively engaged in farming
Agri-processors	Agri-food processors Agri-product processors Abattoirs
Industry Organizations	Associations Commissions Non-profit organizations Boards Indigenous government and communities
Researchers	Academic and research institution Diversification Centre National research institution Research station
Industry Service Providers	Auction mart* Assembly yard Association of Manitoba Community Pastures Business consultant Conservation districts Direct food contact packaging manufacturer Farrier Feed mill First Nation Community Band Councils

Eligible Applicants (continued)

Industry Service Providers (continued)

Food distributor
Human resource consultant
Licensed commercial kitchen
Licensed commercial manure applicator
Livestock transporter
Northern Association of Community Councils
Sheep shearer
Rural municipality
Veterinarian or animal health technician

*In order to be eligible for the activity, an assembly yard or auction mart must possess a valid Livestock Dealer or Agents License issued by Manitoba Agriculture.

An organization with multiple divisions, operation names or units, will count as one organization.

Current and former Government of Canada employees are ineligible to apply for funding.

Government of Canada departments and agencies are only eligible to apply under the Grain Innovation and Crop Production focus area.

Current Manitoba government employees, who are the majority shareholder (50 per cent or higher) in a business or operation, are not eligible to apply for funding.

A business or operation, which includes a provincial government employee as a minority shareholder, will be eligible to apply for funding.

Current or former members of the Legislative Assembly of Manitoba, current or former members of the Executive council, or current or former Manitoba government senior public servants are not eligible. Current or former federal public office holders are eligible as long as they follow conflict of interest policies and procedures.

Additional factors may be considered in determining the eligibility of the applicant, including:

- the provision of false or misleading information by the applicant under other Canadian Agricultural Partnership programs
- amounts due and owing by the applicant under other Canadian Agricultural Partnership and Manitoba programs

Co-applicant information will be required for all projects where two or more parties are partnering to submit a joint application.

All applicants who identify as a researcher (including academic institutions) or a Government of Canada department or agency will be required to identify a non-researcher co-applicant to be eligible for funding. The co-applicant must be either:

- a farmer
- an agri-processor
- an industry organization
- an industry service provider (non-research)

SECTION 3

Cost Share Funding

Activities are cost shared between government (the program) and the applicant. There is a cost share ratio of up to 50:50, government to applicant, with no funding cap for this activity. In-kind contributions cannot exceed 50 per cent of the applicant's contribution.

Applicants who align with program criteria, but do not have a check-off or cannot meet the matching funding requirement, may contact the program administrator at **Manitoba Agriculture** with a formal written request to discuss options.

Funding from government

When including funds from government sources to meet the applicant's share, a stacking limit will apply and must be adhered to.

A stacking limit refers to the maximum level of total Canadian government funding (federal, provincial, territorial and municipal) that a successful applicant can receive towards the total eligible costs of a project.

The maximum level of total government funding must not exceed:

- 75 per cent of total approved project costs for non-profit organizations
- 50 per cent of total approved project costs for all other applicants

Eligible costs

Eligible costs are expenses directly related to the execution of an approved project. The applicant must provide detailed costs for each activity and focus area as part of the application.

The applicant is solely responsible for all costs and expenses of the project, including all ineligible costs and any project deficits or cost over-runs.

Provincial Sales Tax (PST) and the non-recoverable portion of the Goods and Services Tax (GST) are eligible costs.

The following costs are **eligible** for funding:

- incremental salaries, wages and benefits
- subcontracted services
- professional fees
- overhead costs up to eight per cent of total approved cash costs.
- capital assets and equipment*
- communications and promotions
- facility and equipment rental
- materials and supplies
- seminar, conference and workshop registration fees
- travel expenses (related to project activities and knowledge transfer)

*For basic and applied research and development projects, capital investments exceeding \$10,000 will not be considered as an eligible expense. Incremental laboratory equipment costs related to owned equipment will be considered as eligible.

See Appendix A for types of eligible costs.

Ineligible costs

The recoverable portion of GST is ineligible.

Where a project is approved, no eligible expenses will be reimbursed unless a funding decision letter or contribution agreement is signed.

The following costs are **ineligible** for funding:

- principal investigator, applicant and co-applicant salaries, wages and benefits
- any expenses incurred before or after the date noted in the funding decision letter or contribution letter
- any expenses not required for the execution of the project
- normal operating expenses associated with carrying out business operations

- extended warranties
- spare parts not used as part of the project
- expenses associated with lobbying
- any cost, including a tax, which is eligible for a rebate, credit or refund (e.g., the recoverable portion of the Goods and Services Tax)
- financing charges, loan interest payments, bank fees and charges
- any expenses incurred for the adoption of the **Manitoba Premises Identification Number**
- any compensation to any government employee for organizing or delivering parts of the project
- purchase of land, buildings and facilities, and associated taxes and fees (e.g., land transfer tax)
- any additions to new or existing buildings and facilities, and associated taxes and fees (e.g., land transfer tax)
- purchase of typical farm equipment (e.g., tractors, skid steers, combines) and related accessories and attachments
- normal, current or ongoing maintenance expenses
- cost of establishing a commercial operation
- cost of office space, office rental and office renovations
- cost of sponsorship of conferences and learning events or initiatives
- multi-use items (e.g., items that are not directly related to the project activities, such as computers, printers and pressure washers)
- any project-related activity that generates profit

- expenses incurred for other Canadian Agricultural Partnership projects
- expenses related to Manitoba government promotional campaigns and branding
- any other expenses deemed ineligible by the program administrator

In-kind contributions

In-kind contributions are non-monetary goods and services considered as part of the total project valuation. In-kind contributions are not reimbursable by the program but may be considered by the program administrator as part of the applicant contribution requirement for the Research and Innovation activity. Applicants will be required to maintain documentation that verifies financial expenses for all in-kind contributions.

In-kind contributions are subject to the same financial review procedures as other eligible expenses and must be adequately documented.

The program administrator reserves the right to reduce or reject any in-kind contribution if not satisfied that the contribution is reasonable and properly verified.

The applicant's contribution towards approved costs may be in the form of cash, in-kind contribution or a combination of both subject to the following:

- The total value of in-kind contributions must not exceed 50 percent of the applicant's contribution.
- Incremental hours of labour directly related to the project invested by a third party may be claimed as in-kind.

- Principal investigator (lead researcher), applicant and co-applicant labour hours are not eligible as an in-kind contribution.
- Hours of labour invested by a research team may be claimed as in-kind.
- The maximum allowable labour rate is \$25 per hour. Required documents for reimbursement include: signed timesheets with supervisory approval, payroll registers, personnel files with salary and wage information, employment contracts, cancelled cheques and direct deposit schedules.
- Use of land, equipment and facilities (including meeting rooms and other spaces) for which a fee is usually charged can be claimed as in-kind given that a reasonable fair market estimation has been provided. The maximum allowable in-kind heavy field equipment (e.g. tractors, combines, sprayers, seeders and excavators) rate will be determined by the **Farm Machinery Custom and Rental Rate Guide** (<https://www.gov.mb.ca/agriculture/farm-management/production-economics/pubs/calculator-farm-machinery-custom-and-rental-guide.pdf>).
- In-kind operator charges may be claimed as in-kind labour, along with the in-kind equipment rate.
- The maximum allowable in-kind lab equipment rate will be determined on a case-by-case basis by the program administrator based on the justification supplied by the applicant.
- Equipment must be required for the successful completion of the project. The program administrator will make a final determination on what a reasonable rate is for the number of hours claimed based on the type of equipment used.
- Equipment related to normal manufacturing processes and the opportunity cost associated with that equipment will not be considered as an in-kind contribution.
- Materials, supplies and inventory items which are required to successfully complete the project can be claimed as in-kind given that a reasonable fair market estimation has been provided.
- The program administrator reserves the right to reduce or reject any in-kind contribution if not satisfied that the contribution is reasonable and properly verified. See the reimbursement requirements on page 9.

SECTION 4

Application Assessment

Applications will be reviewed and assessed by the Manitoba Agriculture Research and Innovation Committee (MARIC), according to the following criteria:

- scientific merit and originality
- research approach and methodology
- communication plan and knowledge transfer
- potential impact of the project on the sector
- capability of the research team
- financial and delivery risk

Preference will be given to applications for basic and applied research.

Following review and assessment, MARIC will make funding recommendations to the Minister.

The Minister has absolute discretion to determine the manner in which program funding will be distributed.

SECTION 5

How to Apply for Funding

Announcements, deadlines and application forms are available on the Manitoba Agriculture website. Go to www.manitoba.ca/agriculture and click on Ag Action Manitoba. Manitoba Agriculture will publish deadline dates through newsletter, website and social media channels.

Letters of Intent

Manitoba Agriculture will announce a call for letters of intent (LOI) to be submitted to Manitoba Agriculture for review.

LOIs must be submitted to the program administrator no later than the application deadline and can be emailed to **Manitoba Agriculture**.

Applicants must acknowledge on the LOI that they agree to any terms and conditions contained in this guidebook.

Once the LOI has been assessed for technical merit and program requirements, successful applicants will be invited to submit a full application.

Full Application

The full application must include the following attachments:

- a letter from the co-applicant acknowledging and defining their role in the project. If the co-applicant is providing financial support, this should also be included in the letter.
- a letter from each funding source indicating their financial contribution and in-kind contribution.

All information related to the project must be included within the application form. No additional attachments, with exception of the documents listed above, will be accepted (e.g., cover letters, previous project applications, appendices, etc.)

The application must include:

- Funding amounts received from all sources. Failure to disclose all financial sources for a project may nullify the application form.
- A knowledge transfer plan that outlines the applicant's intention to share and/or disseminate knowledge results gained from their research project. The contribution agreement will specify knowledge transfer activities that are approved and the applicant's obligations with respect to those activities.

No one other than the applicant may sign the program application or other program documents.

In the case of corporations, partnerships and other business organizations, a designated person with legal authorization must sign the application and other program documents. The program administrator may require proof of authorization.

Applicants must comply with all Manitoba and federal government laws and regulations applicable to their project and to their business or organization's operations, accept and agree to all the terms and conditions of the program.

The project duration for program activities may be single or multi-year. Multi-year projects can be up to three consecutive years.

Funding for multi-year projects will be subject to the appropriation of funds by the Government of Canada and the Manitoba government.

Project activities must be completed on or before December 31, 2022 to allow for reporting and claim settlement.

All applications are subject to funding availability.

SECTION 6

Funding Decisions

The applicant will receive a funding decision letter from the program administrator. The funding decision letter may state that only part of the applicant's proposed project or activity is approved for program funding, or that only specific eligible costs are approved for program funding.

Successful applicants must enter into a contribution agreement with the Manitoba government, as deemed appropriate by the program administrator.

If work is started on a project before formal written approval of program funding is received, the applicant does so at their own risk. A project may not be approved for funding and/or may not be approved to receive all of the funding applied for. Even where a project is approved for funding, no approved eligible costs will be funded unless and until all agreements and documents required in connection with the applicant's participation in the program are received by the program administrator.

SECTION 7

Appeals

The minister may establish an appeal body and a program appeal process.

SECTION 8

Payments

Payments are issued in accordance with the terms of the contribution agreement.

When the project is completed, a final report, along with itemized receipts and other acceptable proof of payment, is to be sent to:

Manitoba Agriculture
Ag Action Manitoba Program Administrator
810 Phillips Street, Portage la Prairie, MB R1N 4A4

If the funds for any particular reporting period are not spent, the program administrator will adjust future payments based on unexpended funds.

The applicant must incur, and have paid, all expenses associated with the project before they can be reimbursed.

The calculation of eligible costs will be based on the actual out-of-pocket cost to the applicant, less any rebates, discounts, incentives and credits, whether provided at the time of purchase or a later date.

Any payment to be made under this program is subject:

- to an appropriation of funds by the Parliament of Canada and Legislature of Manitoba in the fiscal year in which the payment is due

- to cancelled or reduced payments if departmental funding levels are changed by the Parliament of Canada or the Legislature of Manitoba

The program administrator does not assume any responsibility for the tax implications of financial support under the program. Any payments made under this program may have income tax implications for the applicant. The applicant is advised to consult their tax advisor as to the income tax consequences of participation in this program.

The funding decision letter or contribution agreement will detail program funding requirements, including the payment process, the budget, performance and financial reporting requirements.

For single-year projects, upon contract signing, the program may advance up to 33 per cent of the project's funding. The program will pay the remainder upon receipt of acceptable financial and progress reports.

For multi-year projects, upon the signing of a contribution agreement, the program administrator may advance up to 50 per cent of the project's funding in each year, based on a schedule included in the contribution agreement.

SECTION 9

Overpayments

The program administrator shall be entitled to demand immediate repayment from the applicant of the amount of any overpayment and the applicant shall pay the amount demanded within thirty (30) days of such demand. Any overpayment which is not paid in full when due shall be deemed to be a debt due and owing by the applicant to the Government of Manitoba.

The term overpayment means any one or more of the following:

- any amount of program funding provided to the applicant that exceeds the amount the applicant was entitled to receive
- any program funds used or applied for by the applicant on account of costs or expenses that are not eligible costs under the program
- any program funds advanced to the applicant that are not actually expended on eligible costs within the fiscal year for which such program funds were appropriated
- any program funds received that are contrary to these program terms and conditions, or that are otherwise returnable or repayable to the Manitoba government under these program terms and conditions, or the terms of a contribution agreement

SECTION 10

Reporting and Project Communication

Any communication plans, products and activities developed by the applicant for the program must be submitted for approval by the program administrator.

Communication products and activities may include news releases, pamphlets, papers, posters, bulletins, newsletters and social media.

The program administrator will ensure that the Canadian Agricultural Partnership graphic standard is applied, and that Manitoba and Canada are identified equally.

The contribution agreement will detail the applicant's obligations with respect to interim and final reports,

communications, publications, advertising and news releases that refer to the project. Interim and final report templates can be found on the website at: <https://www.gov.mb.ca/agriculture/research-and-innovation/funding-opportunities/index.html>.

The Government of Canada and the Manitoba government may make public announcements or otherwise publicly release the applicant's name, the amount of funding received under the program, and the general nature of the project or activity.

SECTION 11

Collection, Use and Disclosure of Personal Information and Protection of Privacy

The applicant's personal information is being collected under the authority of section 36(1) (b) of The Freedom of Information and Protection of Privacy Act (FIPPA), as it is directly related to and necessary for the purpose of determining eligibility for the program.

The applicant's information will be disclosed to Agriculture and Agri-Food Canada (AAFC), and the program administrator, for program administration.

The applicant's personal information is protected under the privacy provisions of FIPPA. If you have questions concerning the collection, use or disclosure of applicant information, please contact Manitoba Agriculture at 204-945-3439.

The collection of personal information is limited to only as much personal information as is reasonably necessary to accomplish the purpose for which it is collected. Only those employees and agents who need to know the information to carry out the purpose for which it was collected, can use personal information.

The applicant's personal information will be used to verify eligibility for Canadian Agricultural Partnership programs, to contact you for further information or clarification, or to communicate any future programs that may be of interest.

By submitting an application under the program, the applicant has consented:

- to supply any other relevant and required documentation to confirm eligibility
- to disclose information to the Manitoba Agriculture Research and Innovation Committee (MARIC) for review and assessment under the Research and Innovation program activity
- to participate in any surveys, focus groups, interviews or other methods of program evaluation
- to on-site requests to verify program eligibility and monitor the applicant's progress under the program
- to the public release by the Government of Canada or the Manitoba government of the applicant's name, the amount of funding received under the program, and the general nature of the project or activity that is receiving funding
- to authorize indirect collection of personal information from someone other than the applicant to verify program eligibility, or for verification or audit purposes
- to the applicant's information being used and disclosed for the purpose of analyzing program effectiveness

SECTION 12

False or Misleading Information

An applicant who provides false or misleading information under the program:

- foregoes all rights to program payments and any other benefits under the program for which they would be otherwise eligible
- is liable to repay all program payments received
- may be subject to prosecution

The provision of false or misleading information under the program may be taken into account in determining eligibility for other Canadian Agricultural Partnership programs.

SECTION 13

Right of Set-off

In addition to any rights of set-off the Manitoba government may have at law, the minister may set-off any amount payable to the applicant under the program against:

- a) any amount due and owing by the applicant under the program
- b) any amount due and owing by the applicant under any other Canadian Agricultural Partnership program

- c) any other amount due and owing by the applicant to the Government of Canada, the Manitoba government or a government agency

Amounts due and owing by the applicant under the program may be taken into account in determining eligibility under other Canadian Agricultural Partnership programs.

SECTION 14

Ownership of Intellectual Property

Ownership of all intellectual property created by the applicant under the program shall vest in the applicant.

The contribution agreement may include additional terms regarding intellectual property.

SECTION 15

Changes to the Program Terms and Conditions

The minister may revise, alter or amend these program terms and conditions at any time by posting the revised program terms and conditions on the Manitoba Agriculture website. The applicant is responsible to monitor the Manitoba Agriculture website for any such revisions, alterations or amendments.

Applications shall be administered and governed by the program terms and conditions posted on the Manitoba Agriculture website on the date the applicant's application is received.

SECTION 16

No Liability of Governments, Indemnification by Applicant

The Government of Canada, the Manitoba government and their respective ministers, officers, employees and agents, shall not be liable for any injury to or loss or damage suffered by the applicant, the directors, officers, employees or agents of the applicant, or any other party, including, without limitation, any injury to persons (including death), damage to or loss or destruction of property, economic loss, consequential damages or infringement of rights caused by or related, either directly or indirectly, to the activities of the applicant under the program or the applicant's participation in the program.

The applicant shall, at all times during and following the applicant's participation in the program, be solely responsible for, and shall save harmless and indemnify the Government of Canada, the Manitoba government and their respective ministers, officers, employees and agents, from and against all claims, liabilities and demands with respect to any injury to persons (including, without limitation, death), damage to or loss or destruction of property, economic loss, consequential damages or infringement of rights caused by, or related, either directly or indirectly, to the activities of the applicant under the program or the applicant's participation in the program.

SECTION 17

Liability Insurance

It is recommended that the applicant discuss their insurance requirements, as a result of participating in this program, with a licensed insurance broker.

SECTION 18

Conflict of Interest

No member of the House of Commons or of the Senate shall be allowed to derive any financial advantage under the program that would not be permitted under the Parliament of Canada Act.

No current or former federal public office holder or federal public servant to whom the Conflict of Interest Act, the Conflict of Interest Code for Members of the House of Commons applies, shall derive any advantage or benefit from the program, unless the provision or receipt of such advantage or benefit is in compliance with such legislation, codes and policies.

No current or former Manitoba government employee shall be allowed to derive any financial advantage or benefit under the program, unless the provision or receipt of such advantage or benefit is in compliance with these program terms and conditions and all applicable conflict of interest policies.

SECTION 19

Representations, Warranties, Obligations, Joint and Several Liability

The applicant's participation in the program does not create a partnership, agency, joint venture or similar relationship between the governments of Canada or Manitoba and the applicant, and the applicant will not represent itself as such, including in any agreement with a third party.

The individual(s) signing the application must indicate their official position with the applicant or their relationship to the applicant. By signing and submitting an application, the individual(s) signing the application represent and warrant that:

- The execution and delivery of the application, and such other agreements and documents required in connection with the applicant's participation in the program, are within the proper powers and capacities of the applicant. Also, they have been duly and validly authorized by the applicant, and constitute binding legal obligations of the applicant.

- The applicant has granted them all necessary authority to commit the applicant to the obligations and undertakings in the application, as well as such other agreements and documents that are required in connection with the applicant's participation in the program.

The applicant is solely responsible to ensure that:

- The applicant's activities under the program are completed and performed in compliance with all applicable laws.
- The applicant obtains all required environmental and other approvals, licences and permits (whether federal, provincial or municipal), with respect to the applicant's activities under the program.

If the applicant is an unincorporated business or a partnership, all owners of the business and all partners of the partnership, as the case may be, will be jointly and severally liable for all the undertakings and obligations of the applicant, under the application and all other agreements and documents related to the program. If the applicant consists of more than one person, each person will be jointly and severally liable for all the undertakings and obligations of the applicant, under the application and all other agreements and documents related to the program.

SECTION 20

Ministerial Discretion

Notwithstanding these program terms and conditions, the minister has the absolute discretion to determine any matter related to the program, including, without limitation, the amount of payments under the program.

SECTION 21

Termination of the Program

The minister has the absolute discretion to terminate the program at any time.

SECTION 22

Definitions

Academic institution: an educational institution dedicated to education and research, which grants academic degrees or diplomas (e.g., the University of Manitoba and Assiniboine Community College).

Agri-business: a person or entity involved in for-profit commercial activity in the agricultural sector, other than an agri-processor or a farmer.

Agri-processor: a person or entity actively engaged in agri-food and agri-product processing.

Applicant: a person or entity who satisfies all the eligibility requirements set out in the terms and conditions and who submits an application under this program.

Assembly yard: any area of land used solely for the purpose of assembling livestock for shipment.

Association of Manitoba Community Pastures: an association operating 20 community pastures throughout Manitoba and along the Saskatchewan border.

Auction mart: a licensed facility at or on which livestock is sold by public auction, including any buildings, pens, fences, gates, chutes, weigh scales and other equipment situated on the land and used in connection with it, but does not include:

- (a) any area of land used solely by the owner or lessee thereof for the purpose of holding a sale of livestock that have been owned by him or her for a period of not less than 30 days immediately preceding the date of the sale,
- (b) any area of land used solely for the purpose of assembling livestock for shipment,
- (c) any area of land used solely for the purpose of a sale
 - (i) of livestock held by a livestock association recognized by the director,
 - (ii) of livestock on behalf of members of a 4-H club, or

- (iii) of livestock in an event sponsored by an agricultural society formed under The Agricultural Societies Act.

Basic and applied research: one or both of the following:

- (a) applied research, meaning the methodology used to solve a specific, practical problem of an individual or group
- (b) basic research, meaning experimental or theoretical work, undertaken primarily to acquire new knowledge, without a specific or recognized need

Canadian Agricultural Partnership: is a five-year agricultural policy framework by Canada's federal, provincial and territorial governments to encourage market development, innovation and research, environmental sustainability, value added processing, improved public trust and risk management across Canada's agriculture, agri-food and agri-product sectors.

Capacity building: projects that include an equipment investment over \$10,000.

Co-applicant: is a member of a project research group applying for a team grant. If the applicant is an academic researcher or a research institution, a co-applicant is required and must be either an agri-processor, farmer, industry organization or a non-research industry service provider.

Commercial manure applicator: a person that transports or applies manure to a land for a fee, charge, or other valuable consideration.

Conservation district: a group of rural municipalities incorporated under the authority of The Conservation Districts Act.

Contribution agreement: the articles of agreement and annexes, as well as their amendments and the general terms and conditions applicable on the effective date of agreement.

Farmer: an individual grower, producer or rancher, partnership, corporation, co-operative or any other association of people who is actively engaged in farming.

Feed mill: a mill in which animal feed is prepared.

First Nation: an Indigenous community officially recognized as an administrative unit by the federal government.

Food distributor: a company that stocks food products in a warehouse and delivers these products when they are ordered to retail grocery stores and to food service outlets such as restaurants.

Funding decision letter: a letter issued to applicants indicating an application decision and the next steps required for project implementation.

Government funding: any financial assistance in the form of provincial or federal grants, loans or other assistance.

Industry organization: a non-profit organization (e.g., a commodity organization) that is actively engaged in representing farmers, agri-processors, or agri-business members interests working to further the competitiveness of Manitoba's agriculture sector. Industry organizations must be a legally recognized entity, duly registered with the Manitoba Companies Office to carry on business in the province of Manitoba (where required by law).

Industry service provider: an individual, agri-business, organization that provides services to support the agricultural industry.

In-kind contributions: non-monetary goods and services that are not reimbursable by the program, but may be considered by the program administrator as part of the applicant's contribution requirement.

Intellectual property: all materials, concepts, know-hows, formulae, inventions, improvements, industrial designs, processes, patterns, machines, manufactures, compositions of matter, compilations of information, patents and patent applications, copyrights, trade secrets, technology, technical information, software, prototypes and specifications, including any right to apply for protections under statutory proceedings available for those purposes, provided they are capable of protection at law.

Knowledge transfer plan: section of the application form that outlines the applicant's intention to share and/or disseminate knowledge results gained from their research project.

Licensed commercial kitchen: a facility that has been inspected by either Manitoba Health, Healthy Living and Seniors or Manitoba Agriculture and has been issued a Permit to Operate a Food Handling Establishment. It can be a private for-profit entity or a not-for-profit entity.

Manitoba Agriculture Research and Innovation Committee (MARIC): a minister-appointed committee that reviews and assesses research and innovation activity applications and makes funding recommendations to the minister.

Manitoba government employee: any full time, regular, part-time or term individual employed by the provincial government, including any special operating agency or Crown corporation.

Manitoba senior public servant: the clerk of the executive council; a deputy minister or equivalent or an assistant deputy minister; a chairperson, president, vice-president, chief executive officer or deputy chief executive officer of a Crown agency; a person who is designated or who occupies a position that is designated under section 31.1 of The Legislative Assembly and Executive Council Conflict of Interest Act; and includes a person who, on a temporary basis, occupies a position described here.

Minister: the Minister of Agriculture for the Manitoba government, including any person authorized to act on the minister's behalf.

Northern Association of Community Councils:

- (a) Any community within the Area of Jurisdiction that qualifies under Part III of the Northern Affairs Act, entitled "Local Committees and Community Councils," as set forth in The Northern Affairs Act and those areas as defined in Section 1(k) of The Northern Affairs Act entitles that community to become a member of NACC.
- (b) Any community within the Area of Jurisdiction that qualifies as an incorporated community, pursuant to Section 21 (1) of The Northern Affairs Act, having duly established an incorporated community, entitles that community to become a member or remain in the NACC.

Non-profit: a type of organization that does not earn profits for its owners. All money earned by, or donated to, a non-profit organization is used to pursue the organization's objectives and support its operations.

Person: includes an individual, partnership, association or corporate body (entity).

Program: refers to the Ag Action Manitoba program.

Program activity: a specific action under the Ag Action Manitoba program, where applicants can apply for funding. Activities may have one or several focus areas.

Pre-commercialization and pre-adoption: pre-commercial innovations are those in the phases of research and development before commercialization and adoption. Pre-commercial innovations are developed, but have not been produced in quantity. They may have been sold on a limited basis for the purpose of testing and demonstration, but they are not readily available in the marketplace. Pre-commercialization or pre-adoption activities may

include solution exploration, design and prototyping, up to the original development of a limited volume of goods or services in the form of a test series.

Principal Investigator: the person who directs a research project or program. The principal investigator usually writes and submits the research application, oversees the scientific and technical aspects of the application, and has responsibility for management of the research.

Program administrator: Manitoba Agriculture, or where applicable, any person engaged by the Manitoba government, to carry out administrative activities in connection with the program.

Project proponent: can be any one or more of the individuals or groups described under program eligibility.

Where several of the eligible groups are involved in a single proposal, one individual shall be assigned as project contact for the group.

Research institution: any institution conducting basic and applied research related to agriculture, agri-food and agri-products.

Research team: is a person or persons whose role in the proposed activity is to provide a specific service or financial assistance (e.g., access to equipment or expertise, provision of specific reagents, training in a specialized technique, statistical analysis, and access to a specific population) to complete a common research goal.

Researcher: an academic institution, research institution or any person who conducts research or provides research services to support the agricultural, agri-food and agri-products industries.

Return on Investment (ROI): a performance measure for financial and non-financial benefits obtained from investment in research and development activities. In the short term some examples include the number of patents, publications/citations, funds leveraged from industry, and number of highly qualified personnel. Long-term examples of ROI include potential gains in productivity and/or sustainability for the industry or sector, including benefits that represent a public good.

Rural municipality: an incorporated municipality with a minimum population of 1,000 and a density of less than 400 people per square kilometre.

Terms and conditions: the Ag Action Manitoba program rules that applicants accept and agree to follow, as conditions under the funding. Terms and conditions can be revised, altered or amended from time to time.

APPENDIX A
