

# GETTING THE JOB DONE IN THE PUBLIC SERVICE

**Budget 2019 keeps our promises by fixing the finances, repairing services and rebuilding our economy.**

**We're investing in results for Manitobans and continuing on the road to recovery by strengthening the public service including:**

- **increasing opportunities in leadership development in public service by establishing the new Leaders in Training Program;**
- **implementing a new \$2-million Learning Fund that supports additional training opportunities for public servants to ensure they have the skills they need to meet the needs of Manitobans;**
- **continuing work to strengthen policies, processes and training that support safe, respectful and harassment-free workplaces; and**
- **making investments through the \$50-million Ideas Fund that support the implementation of the public service transformation strategy including a project to review how the government can better align the internal job classification system with the work being done by public servants today.**
