Step 15: The Manage Group Members page shows up after you have clicked Add/Edit group Members or Add to Cart. This is where you add other applicants to the application by adding their Customer ID# and their Date of Birth in the appropriate places. For Archery Draw applications, you can have one or up to six applicants on one application. For Big Game draw applications you must apply in pairs so there can be two, four or six applicants on one application. In either case, the lowest individual priority will be use as the priority for every member on the application. When all applicants have been added click on the submit button, if you did not have six applicants on the application you will need to click submit twice. Note: either all applicants on the application will be successful or all will be unsuccessful in the draw.

<u>Important note on adding group members.</u> You may not be able to proceed if you do not take your cursor/mouse arrow and click outside the box of the member you just added. On desktop computers if you take the cursor outside the customer ID and DOB boxes, you just click and it will add the name and propriety level of the partner.

If you keep clicking SUBMIT, nothing happens, nor will it add the group member.

If you are using a tablet, if you want to add a group member, enter a group member name and then click another empty group member box it will add the person.

Step 16: You will now be back at the Confirm Choices page. Confirm your application and group members are correct and click Add To Cart.
