**RE: Case of COVID-19 in WC Miller Collegiate**

Dear Parent/Guardian of WC Miller Collegiate

Manitoba Public Health officials have advised WC Miller Collegiate that a case of COVID-19 was at the school on November 16, 2020.

WC Miller Collegiate is working closely with public health officials and following their recommendations. Be assured that Public Health investigations to identify individuals who may have been exposed begin within 24 hours of a confirmed laboratory test.

Close contacts connected to the case have been identified and advised to self-isolate. Anyone who is a close contact has been contacted directly by public health. The school will remain open to all other students and staff, who can continue to attend school in person.

Please note: the school is not permitted to release the name or any identifying information about the confirmed cases of COVID-19 to any member of the school, community or media.

If you have not been contacted by public health officials, your child(ren) have not been identified as being exposed to COVID-19 from this case. However, if your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID- 19 as soon as symptoms appear, and that your whole family isolate as per Call Health Links—Info Santé at 204-788-8200 or toll-free at 1- 888-315-9257 for information on testing and isolation.

*Ensemble vers un avenir plus sain.  
Together leading the way for a healthier tomorrow.*
