November 5, 2020

Collège Louis-Riel
585, rue Saint-Jean-Baptiste
Winnipeg MB R2H 2Y2

Dear Parent/Guardian of Students at Collège Louis-Riel,

THIS IS A CORRECTION TO THE LETTER SENT EARLIER TODAY.

Manitoba public health officials advised Collège Louis-Riel on November 5, 2020 of two additional confirmed cases of COVID-19 in the school. Both would have been considered infectious (contagious) on October 29 and 30. It was stated in an earlier letter today that they attended school on these dates however the school was closed. We apologize for any confusion. No close contacts have been identified related to these cases.

Collège Louis-Riel is working closely with public health officials and following their recommendations. Investigations are ongoing, this situation continues to be deemed an outbreak and remains at orange on the Manitoba Pandemic Response System..

Please note: the school is not permitted to release the name or any identifying information about the confirmed case of COVID-19 to any member of the school, community or media.

If your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. You may go directly to the nearest COVID-19 testing location during their open hours. For the testing site nearest you, please visit <https://www.gov.mb.ca/covid19/updates/testing.html>, or call Health Links—Info Santé at 204-788-8200 or toll-free at 1-888-315-9257.

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause
	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom free for 24 hours.

For more public health information about COVID-19, please visit <https://manitoba.ca/covid19/updates/resources.html>.

Sincerely,

Dr. Heejune Chang
 Medical Officer of Health
