Dear Parent/Guardian of Students at Dakota Collegiate,

Manitoba public health officials advised Dakota Collegiate today of a confirmed case of COVID-19 in the school on October 19-21, 2020 when this individual may have been infectious. .

Dakota Collegiate is working closely with public health officials and following their recommendations. The affected cohort has been advised to self-isolate (quarantine) or self-monitor for symptoms until November 5, 2020, and seek testing if symptoms develop effective today. The school will remain open to all other students and staff, who can continue to attend school in person.

Please note: the school is not permitted to release the name or any identifying information about the confirmed cases of COVID-19 to any member of the school, community or media.

If your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. You may go directly to the nearest COVID-19 testing location during their open hours. For the testing site nearest you, please visit <https://www.gov.mb.ca/covid19/updates/testing.html>, or call Health Links—Info Santé at 204-788-8200 or toll-free at 1-888-315-9257.

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause
	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom free for 24 hours.
