November 1, 2020

École Roméo-Dallaire  
81, Quail Ridge  
Winnipeg MB  
R2Y 2A9

Dear Parent/Guardian of Students at École Roméo-Dallaire,

Manitoba public health officials advised École Roméo-Dallaire today of two confirmed cases of COVID-19 in the school when the individuals may have been infectious. One on October 14-16, 19, 20, 22 and 23. One on October 19, 20 and 22.

École Roméo-Dallaire is working closely with public health officials and following their recommendations. Be assured that Public Health investigations to identify individuals who may have been exposed begin within 24 hours of a confirmed laboratory test.

Based on the public health investigation, this exposure was assessed to be low risk. Anyone identified as a close contact will be contacted and provided instructions for self-isolation (quarantine). **Close contacts connected to the case have been identified by public health. One affected class will begin quarantine. Anyone who is a close contact has received a letter notifying that they are a close contact and been advised to self-isolate (quarantine).**

The school will remain open to all other students and staff, who can continue to attend school in person. Anyone else who was in an affected class who have not been told to isolate (quarantine) is recommended to self-monitor for symptoms.

Please note: the school is not permitted to release the name or any identifying information about the confirmed case of COVID-19 to any member of the school, community or media.

If you have not been contacted by a letter from public health officials, your child(ren) have not been identified as being exposed to COVID-19 from this case. If your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. You may go directly to the nearest COVID-19 testing location during their open hours. For the testing site nearest you, please visit <https://www.gov.mb.ca/covid19/updates/testing.html>, or call Health Links—Info Santé at 204-788-8200 or toll-free at 1-888-315-9257.

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause
	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom free for 24 hours.

For more public health information about COVID-19, please visit <https://manitoba.ca/covid19/updates/resources.html>.

Sincerely,

Dr. Heejune Chang  
 Medical Officer of Health
