Samuel Burland School  
192 Burland Ave  
Winnipeg, Manitoba, R2N 2T9

Dear Parent/Guardian of Students at Samuel Burland School,

Manitoba public health officials advised Samuel Burland School today of two confirmed cases of COVID-19 in the school on October 22 and October 21 and 22 respectively when the individuals may have been infectious.

Samuel Burland School is working closely with public health officials and following their recommendations. Be assured that Public Health investigations to identify individuals who may have been exposed begin within 24 hours of a confirmed laboratory test.

Based on the public health investigation, this exposure was assessed to be low risk. Anyone identified as a close contact will be contacted and provided instructions for self-isolation (quarantine). Close contacts connected to the cases have been identified by public health. **Anyone who is a close contact has received a letter notifying that they are a close contact and been advised to self-isolate (quarantine).**

The school will remain open to all other students and staff, who can continue to attend school in person.

Please note: the school is not permitted to release the name or any identifying information about the confirmed case of COVID-19 to any member of the school, community or media.

If you have not been contacted by a letter from public health officials, your child(ren) have not been identified as being exposed to COVID-19 from this case. If your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. You may go directly to the nearest COVID-19 testing location during their open hours. For the testing site nearest you, please visit <https://www.gov.mb.ca/covid19/updates/testing.html>, or call Health Links—Info Santé at 204-788-8200 or toll-free at 1-888-315-9257.

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause
	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom free for 24 hours.

For more public health information about COVID-19, please visit <https://manitoba.ca/covid19/updates/resources.html>.

Sincerely,

Dr. Heejune Chang  
 Medical Officer of Health
