The Legislative Library offers access to Canadian Electronic Library's **Canadian Public Policy Collection** directly from all Government of Manitoba workstations, through the library's website:
<http://www.gov.mb.ca/chc/leg-lib/eresources.html>.

This collection includes monograph publications from Canadian public policy institutes, government agencies, advocacy groups, think-tanks, university research centres and other public interest groups. The organizations included in this collection represent the leading edge of primary research and opinion in all areas of Canadian public policy. Their publications are vital to the understanding of developing issues in every arena of Canadian public life.

Librarian's Picks

Canadian women & the struggle for equality / Lorna R. Marsden. 1st ed. Don Mills, Ont. : Oxford University Press, c2012. xi, 290 p.

From **Oxford University Press**:

Establishing equality as a fact of daily life has been a protracted struggle, and one that remains far from finished. Over the last century and a half since Confederation, this struggle has taken on a unique character in Canada [...] Lorna R. Marsden, sociologist and activist—who has herself been involved in the action—chronicles the circumstances, the people, and the social changes that have characterized women's journey down the long road toward equality. Her account considers changes brought about by such forces as war, immigration,

and public health, as well as other complex historical changes, such as legal evolution and employment opportunities.

This fascinating book is full of insight, little known facts [...] and an understanding of the complex ways that a society like Canada can and does change. It also reminds us that there is still a distance to go in the journey toward equality.

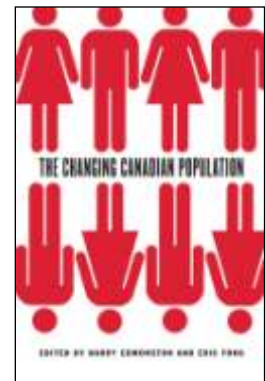

The changing Canadian population / edited by Barry Edmonston and Eric Fong. Montréal : McGill-Queen's University Press, c2011. viii, 371 p.

From **Choice Reviews** (November 2011):

The contributing authors, specialists in demography/sociology, have presented in-depth analyses of the changing composition of the Canadian population. [...]

Part 1 includes chapters on population growth, age and sex composition, and households and issues related to housing. Part 2 encompasses articles on educational attainment, low-income status, labor force, occupation, and industry. Chapters in part 3 look at the nature of racial and ethnic groups, patterns of urban growth, and internal and international migration trends. Part 4

includes articles on families, children and youth, and the elderly. Part 5 incorporates chapters on ethnic origins of Canadians, indigenous peoples, religion, and language. The editors deserve praise for producing a fairly comprehensive and well-integrated volume and concise introductory overview of its contents. An indispensable resource for policy makers, researchers, and students alike. Summing Up: Highly recommended.

Canadian symbols of authority : maces, chains, and rods of office / Corinna A.W. Pike and Christopher McCreery. Toronto : Dundurn Press, 2011. 359 p.

From **Ingram Publishing Services**:

[...] Canadian Symbols of Authority details how these devices are used at every level of government, emphasizing how, like the Crown itself, they embody continuity in an ever-changing world. Symbols of authority are not only emblems of democracy and authority but they are part of the diverse heraldic and artistic heritage of Canada. Despite Canada's rich symbolic and ceremonial heritage, little has been written about the nation's various symbols of authority or the offices that are associated with them. From the Great Maces of the Senate and House of Commons to the Chancellors Chain of the Order of Canada and

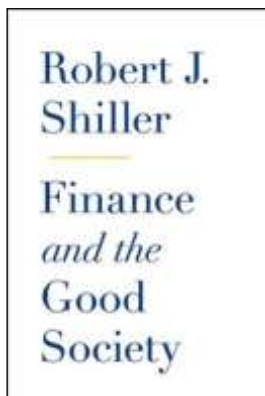

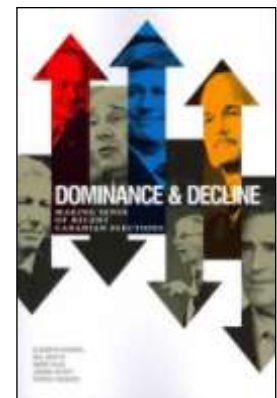

Baton of the Chief Herald, the development of Canada's symbols of authority encompasses the past 250 years of Canadian history. Richly illustrated, this book is the most comprehensive study yet undertaken of the origins, history, and development of parliamentary maces.

Dominance and decline : making sense of recent Canadian elections /

Elisabeth Gidengil ... [et al.]. Toronto : University of Toronto Press, c2012. xxix, 226 p.

From **University of Toronto Press**:

Coming out of the 2000 Canadian federal election, the dominance of the Liberal Party seemed assured. By 2011 the situation had completely reversed: the Liberals suffered a crushing defeat, failing even to become the official opposition and recording their lowest ever share of the vote. *Dominance and Decline* provides a comprehensive, comparative account of Canadian election outcomes from 2000 through to 2008. The book explores the meaning of those outcomes within the context of the larger changes that have marked Canada's party system since 1988. It also shows how these trends were consistent with the outcome of the 2011 federal election. Throughout the book a variety of voting theories are revisited and reassessed in light of this analysis.

Finance and the good society / Robert J. Shiller. Princeton, N.J. : Princeton University Press, c2012. xiii, 288 p.

From **Library Journal Reviews** (May 2012):

Shiller [...] believes the recent "financial crisis was...due to fundamental structural shortcomings in our financial institutions." [...] Shiller argues that we must still address the financial system's malfunctions and deeper sources of the problems, which have not been solved by new legislation or regulations, by increasing the public's understanding of the "principles underlying corporations" in order to align corporate interests with society's. It is this "democratization and humanization of finance" that will lead to the good society, one in which citizens

feel that basic economic justice is assured. VERDICT [...]the book convincingly calls for better fiscal education and claims that greater knowledge will lessen resentment and inequality, improve comprehension, and facilitate "the good society." An excellent resource for readers interested in understanding and improving financial capitalism.
