

Manitoba Infrastructure – Municipality Workshop BCP Exercise - Risks

Task

- In your group, discuss many of the risks, hazards & vulnerabilities that your municipality faces
- Discuss the possible impacts of these risks and hazards upon your critical functions and services
- Discuss what risk mitigation/ management actions might reduce your risk and impact exposure
- Share your findings with all participants

Considerations

- Risk Rating - Probability x Impact (Likelihood & Consequence)
- Natural and man-made hazards
- Impacts on Organizations, Services, People, Property, Environment
