## INTRODUCTION

---

### **Summary Budget**

Budget 2017 provides a financial overview of the Government Reporting Entity (GRE), which is comprised of core government and other reporting entities. The core government component of the GRE represents the operations, programs and services delivered by government departments. Other reporting entities include Crown corporations, government business entities and public sector organizations such as regional health authorities, school divisions, universities and colleges that are directly or indirectly controlled by the government, as prescribed by the Public Sector Accounting Board.

### **Restated Estimates of Expenditure and Revenue - Core Government**

This book contains the Restated Estimates of Expenditure and Revenue for the government's core operations for the fiscal year ending March 31, 2018, reflecting the departmental reorganization that occurred in August 2017. Details of the expenditure intentions and revenue projections of the core government are provided in this book as presented in the 2017 Summary Budget. While the budget is presented on a summary basis, the structure of the Estimates of Expenditure and Revenue remains unchanged from prior years.

The Summary Budget is provided on page 7, followed by excerpts from the Summary Budget that provide additional detail on the Estimates of Expenditure and Revenue for the core government to assist Members of the Legislative Assembly in their review. Specifically, page 9 provides an overview of the core government compared to the previous fiscal year estimates, and pages 10 and 11 provide details of that overview.

## OVERVIEW

---

The Estimates of Expenditure for the Fiscal Year Ending March 31, 2018 detail the 2017/18 expenditure intentions for Manitoba's core government. The Estimates of Expenditure detail the annual appropriations to be approved by the Legislative Assembly through an appropriation act. Also reported in the Estimates of Expenditure, as required by section 30 of The Financial Administration Act, are statutory appropriations that are not voted on by the Legislature.

In order to assist in the review of these estimates, the following explanatory notes are provided.

### Categories of Expenditure

The Estimates of Expenditure include Part A - Operating and Part B - Capital Investment appropriations. Operating expenditures relate to the annual cost of operating core government programs and interest on public debt, while Capital Investment relates to the cost of acquiring tangible capital assets according to the province's capital asset accounting policy where expenditures on tangible assets (excluding land) are amortized on an "expense" basis over the useful life of the asset. Tangible capital assets are divided into two broad categories: general assets such as buildings and equipment, and infrastructure assets such as roads and waterways. This accounting policy results in authority for capital investments being requested separately (Part B) with an annual amortization charge included in operating appropriations (Part A).

#### Part A – Operating

This part of the Estimates of Expenditure includes three main categories as follows:

*Operating Expenditures* – expenditures related to the direct delivery of core government programs and services, including salaries and general operating costs, grants to third parties and expenditures related to tax credit payments, pensions and other provisions.

*Capital Grants* – funds granted to third parties such as health authorities, universities and municipalities, for the construction of, or improvement to, capital assets owned by these third parties.

*Costs Related to Capital Assets* – annual provision for the cost of a capital asset that is used in the delivery of government programs. Tangible capital assets acquired in the past, as well as those to be acquired in the 2017/18 fiscal year, have an associated interest cost over the entire useful life of the asset, as well as an expense based on pre-determined amortization rates. Recognizing amortization in this way allocates the cost of capital assets to the periods of service provided.

#### Part B – Capital Investment

This part of the Estimates of Expenditure provides the authority for the annual purchase or acquisition of tangible capital assets that meet established guidelines for amortization. Tangible capital assets are those with a useful life extending beyond one year which are acquired, constructed or developed and held for use, not for resale. Tangible capital assets with a value less than the established capitalization limit will be expensed in the year of acquisition. As previously indicated, the annual amortization cost is reflected in Part A - Operating as part of the annual cost of delivery of core government programs. Details on the asset classifications, estimates of useful life and amortization rates for both general and infrastructure assets are provided in Appendix B on page 133.

The annual appropriation act provides authority for departmental expenditures including the annual amortization expense (Part A of the Estimates of Expenditure), as well as the annual authority for the capital investment contained in Part B of the Estimates of Expenditure. The authority raised for both Part A and Part B is annual authority and lapses at the end of the fiscal year.

---

## OVERVIEW

---

### **Prior Year Estimates of Expenditure**

The Estimates of Expenditure for the previous year include both the Estimates of Expenditure and any supplementary Estimates of Expenditure that may have been approved by the Legislature by way of a supplementary appropriation act. There were no supplementary estimates in 2016/17.

In order to make year over year comparisons meaningful, adjustments to the previous year's estimates figures may be necessary. These adjustments reflect organizational changes, as well as any other adjustments that may be required to provide comparability. Generally, the total of the previous year's Estimates of Expenditure does not change as a result of these adjustments.

The 2016/17 estimates have been adjusted to reflect the departmental reorganization that occurred in October 2016 and August 2017 to reflect the 2017/18 appropriation structure. This restatement did not impact the total 2016/17 estimates.

### **Additional Expenditure Authority**

Funds will be voted by the Legislature at the main appropriation level for both Part A and Part B by way of resolution numbers (abbreviated "Res. No." in the detailed estimates). Expenditure authority cannot be transferred between main appropriations except for transfers from appropriations listed under the service heading "Enabling Appropriations" (e.g. Enabling Vote). If additional expenditure authority is required due to unforeseen circumstances, the government must introduce supplementary Estimates of Expenditure and a supplementary appropriation act when the House is sitting, or obtain authority through a special warrant if the House has recessed or adjourned for a period of time as specified in section 32 of The Financial Administration Act. Supplementary Estimates of Expenditure would form part of the total voted expenditure authority for that year as noted above. This same approval process applies to a main appropriation for Part B - Capital Investment.

### **Statutory Appropriations**

Statutory appropriations contain expenditure authority approved by the Legislature by way of acts other than an appropriation act. Statutory appropriations exist for indemnities and retirement provisions for members of the Legislative Assembly, for various allowances related to functions and special duties performed by members, for certain electoral expenses and for public debt. An "S" in the "Res. No." column of the detailed estimates denotes a statutory appropriation. As noted in the introductory paragraph, this is included in the Estimates of Expenditure for information purposes only and does not form a part of the appropriation act.

### **Enabling Appropriations and Other Appropriations**

In addition to departments, separate "service headings" exist to provide expenditure authority for programs that are delivered by a number of departments, where it is desirable to know the total amount allocated to the program, or where the allocation to various departments is not known at the time of printing the estimates. In some cases funding is allocated, as required, from the appropriation to departments by the Minister of Finance under authority granted by section 33 of The Financial Administration Act (Enabling Appropriations). In other situations, departments are granted authority to charge approved expenditures directly to the service heading. Several of these programs are included under the service heading entitled "Other Appropriations".

---

## OVERVIEW

---

### **Ministerial Salary**

The 2017/18 estimates reflect the withholding of 20% of ministerial salaries, as stipulated in Bill 21, The Fiscal Responsibility and Taxpayer Protection Act.

### **Recoveries**

The government has a policy of identifying the total costs of operating the various programs throughout core government through the allocation of overhead costs to programs. Cost recoveries include expenditures for: insurance, desktop charges, grants in lieu of taxes, air services, certain employee benefits and costs related to tangible capital assets. Cost recoveries are generally noted in a separate sub-appropriation labelled "Less: Recoverable from other appropriations". This designates that part or all of the costs of this program are recovered from other programs by charging appropriations either in that department or other departments. Recoveries for services provided to programs not within the consolidated government entity are deposited to revenue.

### **Special Operating Agencies**

Special operating agencies (SOAs) are service operations that are more directly responsible for their operating results. These agencies can provide direct public services, internal services to core government, science and technology services, or regulatory and enforcement programs. Special operating agencies are designated by regulation and operate under a charter approved by the Minister of Finance. Funding for special operating agencies is normally not required in the annual Estimates of Expenditure, as they are generally self-financing through their various fees and rates. However, each special operating agency is referenced in the estimates of the department responsible, and a summary listing of special operating agencies is provided in Appendix A on page 129.

### **Estimates Supplements**

Additional detail on Estimates of Expenditure for individual departments is available in the Supplementary Information for Legislative Review document that is produced by each department and tabled in the House.

7.2	2.	FISCAL AND FINANCIAL MANAGEMENT .....	<b>32,877</b>	32,909
		<i>Treasury:</i> Manages the borrowing programs, cash resources and investment and debt activities of government and government agencies.		
		<i>Comptroller:</i> Establishes and oversees corporate comptrollership and financial management policies for government. Provides central processing, accounting and control over all government receipts and disbursements. Prepares government financial statements and internal financial management reports. Provides internal audit and advisory services to government departments and agencies relating to internal controls. Administers insurance, self-insurance and claims processing, and supports Manitoba's departments, agencies and Crown corporations by minimizing the adverse impacts of losses on the achievement of Manitoba's objectives. Provides executive planning, management, and administrative support to Executive Council, Civil Service Commission, Crown Services and Finance.		
		<i>Taxation:</i> Ensures the effective management and collection of revenues in accordance with the various tax statutes through the provision of tax expertise to government, taxpayers and businesses collecting taxes. Administers the collection, processing and reporting of taxation revenues. Informs, investigates and audits taxpayers to ensure compliance.		
		<i>Finance Research:</i> Provides research, analysis and support on local, national and international economic, statistical, fiscal and tax matters. Administers and negotiates federal-provincial fiscal and tax agreements and assists in the delivery and accessibility of tax benefits.		
		<i>Public Utilities Board:</i> Regulates the rates charged by Manitoba Hydro, Manitoba Public Insurance, gas and propane utilities and all water and sewer utilities outside Winnipeg; licences funeral directors under The Prearranged Funeral Services Act.		
		<i>Manitoba Financial Services Agency:</i> Protects Manitoba investors and facilitates dynamic and competitive capital and real estate markets to promote economic development while fostering public confidence in those markets. Provides a regulatory framework for the insurance sector, trust and loan companies, credit unions and caisses populaires and cooperatives operating in Manitoba.

### HEALTH, SENIORS AND ACTIVE LIVING (21) Continued

*Active Living, Population and Public Health:* Provides leadership on policies and programs that advance health and wellness at a community level with a focus on the prevention of injury and chronic disease, health promotion and reducing the health inequity gap. Provides provincial leadership, co-ordination and support for an integrated approach to public health programs and services, and public health emergency preparedness related to current and emerging diseases and conditions. Develops protocol, policy, standards and programs related to disease control and prevention, immunizations, environmental health, public health inspections and maternal-child health. Develops and disseminates epidemiological reports and publications. Monitors and reports on the health status of Manitobans, the improvement of the overall health of Manitobans and the reduction of health disparities. Takes appropriate action consistent with the powers and responsibilities described in The Public Health Act. Provides enforcement of legislation and program and policy leadership to measures related to tobacco control and smoking cessation.

*Intergovernmental Strategic Relations:* Promotes and supports relationship building, collaboration and engagement with key stakeholders, Indigenous organizations, Northern Affairs Communities and regional health authorities, to achieve health, well-being and equity for Manitoba's Indigenous and northern residents within the provincial health system. Provides health related leadership, advice and support to the department on federal, inter-provincial, inter-jurisdictional and other issues.

## **APPENDIX A**

### **SPECIAL OPERATING AGENCIES**

---

As noted on page 17 of the overview, special operating agencies are service operations which are more directly responsible for their operating results. Funding for special operating agencies is normally not required in the annual estimates of expenditure as they are generally self-financing through their various fees and rates.

**APPENDIX A**  
**SPECIAL OPERATING AGENCIES**

	2017/18 BUSINESS PLAN				2016/17 BUSINESS PLAN NET INCOME/ (LOSS) \$ (000s)

Vital Statistics Agency . . . . .	3,957	3,857	100	140	76

Note: Detailed information on each special operating agency can be found in the individual agency's annual report and in the responsible department's estimates supplement.

The net income/(loss) is prior to revenue sharing transfers to the core government.

**APPENDIX B**  
**ACCOUNTING POLICY FOR CAPITAL EXPENDITURES**

**APPENDIX B**  
**ACCOUNTING POLICY FOR CAPITAL EXPENDITURES**

The province implemented a change in accounting policy for general tangible capital assets in 1999/2000 based on standards issued by the Chartered Professional Accountants of Canada (CPA of Canada). The CPA of Canada standards require that expenditures on tangible assets be amortized over the useful life of the asset. Recognizing amortization in this way allocates the cost of capital assets to the periods of service provided and amortization is recorded as an expense in the statement of operations.

Tangible capital assets are those assets with a useful life extending beyond one year which are acquired, constructed or developed and held for use, not for resale. Tangible capital assets with a value less than the accepted capitalization limit will be expensed in the year of acquisition.

The expected useful life of an asset takes into consideration the passage of time, normal wear and tear and the effects of technological obsolescence. The province has adopted a standard useful life for each asset class that is expected to remain the same over time. The straight-line method of amortization used reflects a constant charge for the service as a function of time.

Standard asset classes, capitalization limits and amortization rates for general and infrastructure assets related to this accounting policy are summarized below.

Asset Description	Capitalization Limit (\$ dollars)	Useful Life (years)	Amortization Rate Straight-Line (%)
<b><u>GENERAL ASSETS</u></b>			
LAND	-	n/a	n/a
BUILDINGS - bricks, mortar and steel	100,000	40	2.50
BUILDINGS - wood frame	100,000	25	4.00
VEHICLES	10,000	5	20.00
AIRCRAFT AND VESSELS			
- aircraft frames	10,000	24	4.17
- aircraft motors	10,000	5	20.00
- vessels	10,000	24	4.17
MACHINERY AND EQUIPMENT - other than for road construction and maintenance	10,000	10	10.00
MACHINERY AND EQUIPMENT - road construction and maintenance	10,000	15	6.67
COMPUTER HARDWARE			
- hosting environment	50,000	5	20.00
- personal computers	10,000	4	25.00
COMPUTER - major application	500,000	15	6.67
COMPUTER SOFTWARE - other	10,000	4	25.00
FURNITURE	10,000	10	10.00
LEASEHOLD IMPROVEMENTS	100,000	<u>over term of lease</u>	n/a
ASSET UNDER CONSTRUCTION	n/a	n/a	n/a

**APPENDIX B**  
**ACCOUNTING POLICY FOR CAPITAL EXPENDITURES**

Asset Description	Capitalization Limit (\$ dollars)	Useful Life (years)	Amortization Rate Straight-Line (%)
<b><u>INFRASTRUCTURE ASSETS</u></b>			
LAND	-	n/a	n/a
LAND IMPROVEMENTS	100,000	30	3.33
BUILDINGS - bricks, mortar and steel	100,000	40	2.50
BUILDINGS - wood frame	100,000	25	4.00
TRAFFIC/LIGHTING FACILITIES	10,000	20	5.00
BRIDGES AND STRUCTURES	100,000	40/75	2.50/1.33
EQUIPMENT	10,000	15	6.67
PROVINCIAL ROADWAYS AND TRUNK HIGHWAYS			
- surface restoration	50,000	7	7.14
- thin overlays	100,000	10	10.00
- surface	100,000	20	5.00
- grade	100,000	40	2.50
AIRSTRIPS - grade	100,000	40	2.50
DAMS/WATER STRUCTURES	100,000	40/100	2.50/1.00
MINOR BRIDGES AND STRUCTURES	50,000	10	10.00
CULVERT INSTALLATIONS	50,000	40	2.50
ASSET UNDER CONSTRUCTION	n/a	n/a	n/a

For example, the estimated annual amortization expense for a piece of machinery used for road construction costing \$30,000 would be calculated as follows:

$$\begin{array}{rcccl}
 \text{Historical Cost} & & \text{Useful Life} & & \text{Amortization} \\
 \hline
 \$30,000 & \div & 15 & = & \$2,000/\text{year}
 \end{array}$$

**FOR THE FISCAL YEAR**  
**ENDING MARCH 31, 2018**

---

## OVERVIEW

---

The Estimates of Revenue for the Fiscal Year Ending March 31, 2018 detail the revenue projections for Manitoba's core government as presented in the 2017 Summary Budget.

### **Prior Year Estimates of Revenue**

In order to make year over year comparisons meaningful, adjustments to the previous year's estimates figures may be necessary. These adjustments may reflect organizational changes, as well as any other adjustments that may be required to provide comparability. Generally, the total of the previous year's Estimates of Revenue does not change as a result of these adjustments.

The 2016/17 estimates have been adjusted to reflect the departmental reorganization that occurred in October 2016 and August 2017 to reflect the 2017/18 appropriation structure. This restatement did not impact the total 2016/17 estimates.

### **Categorization of Revenues**

Revenues are grouped by three major sources: Taxation, Other Revenue and Government of Canada. Within each of these major sources, additional information is provided on the department responsible for collection and the type of revenue.

### **Estimates Supplement**

Additional detail on Estimates of Revenue is available in the Supplementary Information for Legislative Review document that is prepared annually by the Department of Finance in order to assist Members of the Legislative Assembly in their review of the revenue estimates.
